William Butler Yeats

Pressed Against Divinity Wb Yeatss Feminine Masks:

Pressed Against Divinity Janis Tedesco Haswell, 1997 Beginning with an analysis of Yeats's Mask theory and an examination of the script materials Haswell demonstrates the development of feminine masks in the Cuchulain plays the lyrics Solomon to Sheba Solomon and the Witch Michael Robartes and the Dancer and Leda and the Swan and the sequences A Man Young and Old A Woman Young and Old and Crazy Jane Yeats's enactment of the universal feminine progressively complex and fluid is recognizable ultimately as the complement to the universal masculine As Yeats speaks with the voice of his female daimon he challenges bipolar categories of gender He questions assumptions that the mind is single sexed and that gendered voices are naturally monologic and essentialized The ramifications of double voiced verse reach beyond literary theory to gender and women's studies philosophy and psychology

Unlocking the Poetry of W. B. Yeats Daniel Tompsett, 2018-06-13 Unlocking the Poetry of W B Yeats undertakes a thorough re reading of Yeats oeuvre as an extended meditation on the image and theme of the heart as it is evident within the poetry It places the heart at the centre of a complex web of Yeatsian preoccupations and associations from the biographical to the poetic and philosophical to the mythological and mystical In particular the book seeks to unlock Yeats mystifying aesthetic vision via his understanding of the ancient Egyptian Weighing of the Heart ceremony The work provides a chronological narrative arc that looks to use the theme of the heart as it recurs in the poetry in order to circumvent and overcome more established frameworks Its purpose is to offer refreshing ways of conceptualizing and building alternatives to more deeply entrenched but not entirely satisfactory arguments that have been offered since Yeats death in 1939 while demonstrating the centrality of the occult to Yeats art

The Collected Works of W.B. Yeats Volume XIII: A Vision William Butler Yeats, 2013-02-12 The Collected Works of W B Yeats Volume XIII A Vision is part of a fourteen volume series under the general editorship of eminent Yeats scholar George Bornstein and formerly the late Richard J Finneran and George Mills Harper One of the strangest works of literary modernism A Vision is Yeats's greatest occult work Edited by Yeats scholars Catherine E Paul and Margaret Mills Harper the volume presents the system of philosophy psychology history and the life of the soul that Yeats and his wife George n e Hyde Lees received and created by means of mediumistic experiments from 1917 through the early 1920s Yeats obsessively revised the book and the revised 1937 version is much more widely available than its predecessor The original 1925 version of A Vision poetic unpolished masked in fiction and close to the excitement of the automatic writing that the Yeatses believed to be its supernatural origin is presented here in a scholarly edition for the first time The text minimally corrected to retain the sense of the original is extensively annotated with particular attention paid to the relationship between the published book and its complex genetic materials Indispensable to an understanding of the poet's late work and entrancing on its own merit A Vision aims to be all at once a work of theoretical history an esoteric philosophy an aesthetic symbology a psychological schema and a sacred book It is as difficult as it is essential reading for any student of Yeats

W. B. Yeats's

a Vision Neil Mann, Matthew Gibson, Claire Nally, 2012 The first volume of essays devoted to W B Yeats's *A Vision* and the associated system developed by Yeats and his wife George. *A Vision* is all encompassing in its stated aims and scope and it invites a wide range of approaches as demonstrated in the essays collected here written by the foremost scholars in the field.

Progress & Identity in the Plays of W.B. Yeats, 1892-1907 Barbara A. Suess, 2013-12-16 *Progress and Identity in the Poems of W B Yeats* explores the ways in which Yeats's plays offer an alternative form of progress via a philosophical system of opposites. Always seeking the opposite the nature of which changes as we change we continually augment our personalities and ultimately improve society with the inclusion of the Other. This system which eventually became Yeats's doctrine of the mask provided his contemporaries with a method of changing what science, Platonism and Victorian bourgeois ideologies claimed to be inescapable qualities of self. *Progress and Identity* relocates Yeats's literary, social and political relevance from his essentializing cultural nationalism to his later more broad minded definitions of progress. *Female Sexuality in*

Modernist Fiction Elaine Wood, 2020-10-04 *Female Sexuality in Modernist Fiction: Literary Techniques for Making Women Artists* provides a chronological investigation of the innovative writing styles of canonical modernist writers to reveal a shift in gendered representations of sexual subjectivity. Positioned at the nexus of studies on the body and sexuality in modernist literature this book addresses the complex ways that constructions of female sexuality are understood culturally, politically and epistemologically. Using close reading strategies to identify how modernist authors challenge representations of female positionality as passive case studies consider how canonical modernist authors Virginia Woolf, W B Yeats, James Joyce and Samuel Beckett found new ways to represent women as embodied sexual desired and desiring subjects through prose, poetry and drama. This book addresses Woolf's *Orlando* (1928), Yeats's *The Winding Stair and Other Poems* (1933), Joyce's *Finnegans Wake* (1939), Beckett's *Not I* (1972) and other dramatic works. By rendering sexuality more obviously as a component of female character these works of modernist literature shape our understanding of the artistic body as a structure for thinking about woman as a linguistic construct and material reality. This study will be of great interest to scholars in English literature, women and gender studies and sexuality studies. *Modernist Literary Collaborations Between Women*

and Men Russell McDonald, 2022-10-27 This book examines literary collaborations between women and men revealing how deeply imbued and valuable gender conflict was in modernism. *Intertwined Lives* Lois W. Banner, 2004-12-07 A uniquely revealing biography of two eminent twentieth century American women. Close friends for much of their lives, Ruth Benedict and Margaret Mead met at Barnard College in 1922 when Mead was a student, Benedict a teacher. They became sexual partners though both married and pioneered in the then male dominated discipline of anthropology. They championed racial and sexual equality and cultural relativity despite the generally racist, xenophobic and homophobic tenor of their era. Mead's best selling *Coming of Age in Samoa* (1928) and *Sex and Temperament in Three Primitive Societies* (1935) and Benedict's *Patterns of Culture* (1934), *Race* (1940) and *The Chrysanthemum and the Sword* (1946) were landmark studies that ensured the

lasting prominence and influence of their authors in the field of anthropology and beyond With unprecedented access to the complete archives of the two women including hundreds of letters opened to scholars in 2001 Lois Banner examines the impact of their difficult childhoods and the relationship between them in the context of their circle of family friends husbands lovers and colleagues as well as the calamitous events of their time She shows how Benedict inadvertently exposed Mead to charges of professional incompetence discloses the serious errors New Zealand anthropologist Derek Freeman made in his famed attack on Mead s research on Samoa and reveals what happened in New Guinea when Mead and colleagues engaged in a ritual aimed at overturning all gender and sexual boundaries In this illuminating and innovative work Banner has given us the most detailed balanced and informative portrait of Mead and Benedict individually and together that we have had

Wisdom of Two Margaret Mills Harper, 2006-06-15 Georgie Hyde Lees who married W B Yeats in the autumn of 1917 has for many years occupied a secondary or even marginal position in most studies of her famous husband She has been depicted as a poor choice for romantic partner political comrade or literary collaborator While often thanked in acknowledgments pages and regarded as a minor editor or secretary she usually receives only footnote status in literary analyses Most often she has been cast as an amateur spirit medium or less generously as a manipulative perpetrator of an elaborate mystical and sexual hoax out of which arose Yeats s philosophical treatise *A Vision* and a raft of poetry plays and other literary works Yet George Yeats co wrote the automatic script and co created the system of cosmic geometry based on a dialectics of desire Coming to terms with the system is vital to understanding the late work of the poet yet a thorough critical study of the Yeatses incredible experience has never been written Harper one of few scholars who is intimately familiar with the large mass of documents provides the first such study She analyses the thousands of pages of published and unpublished papers the particularities of their unusual composition the finished literary works that depend upon them and historical contexts such as the spiritualist movement automatism including its relation to communications technology sexual politics and war *Wisdom of Two* airs critical and theoretical issues that are vital to understanding the Yeatses spiritual literary and dramatic collaboration
