Trafficking in Antiracism Lyndsey P. Beutin, 2023-02-27 In *Trafficking in Antiracism* Lyndsey P Beutin analyzes how campaigns to end human trafficking often described as modern day slavery invoke the memory of transatlantic slavery to support positions ultimately grounded in antiracism Drawing on contemporary antitrafficking visual culture and media discourse she shows how a constellation of media philanthropic NGO and government actors invested in ending human trafficking repurpose the history of transatlantic slavery and abolition in ways that undermine contemporary struggles for racial justice and slavery reparations The recurring narratives images and figures such as slavery in Africa Arab slave traders and Black incapacity for self governance discursively turn Black people across the diaspora into the enslavers of the past and present in place of white Americans and Europeans Doing so Beutin contends creates a rhetorical defense against being held liable for slavery's dispossessions and violence Despite these implications Beutin demonstrates that antitrafficking discourse remains popular and politically useful for former slaving nations and their racial beneficiaries because it refashions historic justifications for white supremacy into today's abolition of slavery Student Encyclopedia of African Literature Douglas Killam, Alicia L. Wells and the**

Twenty-First Century Bill Cooke, 2023-09-15. H. G. Wells has been branded as a novelist who betrayed his vocation. But Wells saw himself as what we would today call a public intellectual. How credible is this claim? And what happens when we look at him in this way? So typecast has Wells's reputation become that neither of these questions has been previously asked, but when we look at Wells as a thinker, we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading. In particular, Wells's prescience as a prophet of our current environmental problems stands out; for example, he foresaw anthropogenic climate change as early as 1931. Popular conceptions of Wells as racist imperialist and eugenicist are also challenged. What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty-first century. *Seasons of Literacy* JoEllen
