Naruhito,2025-10-01 Prior to becoming Crown Prince of Japan in 1989 following the death of his grandfather Emperor Showa
Prince Naruhito studied at Merton College Oxford from June 1983 to October 1985 His research topic was the River Thames
as a commercial highway in the eighteenth century This marked the first time that anyone in direct succession to the throne
had ever studied outside Japan In 1992 he published a record of his time at Oxford under the title Thames no tomo ni The
memoir which includes a colour plate section incorporating photographs taken by the Prince explores his daily life studies
and recreational experiences including discovering beer and being banned from entering a disco because he was wearing
jeans The Thames and I is a remarkable record not least because of its candour but equally because it reveals the Crown
Prince as an individual including his personal charm and sense of humour It will be of special interest to those wishing to
know more about the future emperor of Japan Additions to the Wild and Scenic Rivers System United States. Congress.
