Hare, 2021-12-02 The story of the Royal Aircraft Factory at Farnborough forerunner of the World's premier aeronautical research establishment wherein were designed a diversity of aircraft including many of those that equipped the RFC RNAS and RAF during the First World War Originally established to build observation balloons for the Victorian British Army the Factory later expanded to employ over 3500 people by mid 1916 at which time it became the subject of a political controversy that ended in a judicial enquiry In 1918 its title was changed to the Royal Aircraft Establishment not only to avoid a clash of initials with the newly formed Royal Air Force but to better define its changing role Each of the many designs for airships and aeroplanes that were produced by the Factory between 1908 and 1918 is described in detail illustrated by photographs and with three view drawings provided for the more prominent designs **Engineering Production**, 1921 *British & Allied Aircraft Manufacturers of the First World War* Terry C. Society The development of ballistic missiles in the United States Air Force 1945-1960 , **KITES, BIRDS & STUFF - Over 150 Years of BRITISH Aviation - Makers & Manufacturers - Volume 3 - P to Z** P.D. Stemp,2013-04-23 A history of aviation pioneers and companies of Great Britain From the early years to the modern day A comprehensive study of old and new Including Parnall Pemberton Billing Percival Sage Saunders Roe Slingsby Spartan Taylorcraft Tipsy White Thompson Wight to name but a few A two hundred and seventy six page book Individual details of some 490 aircraft Around 436 pictures plus 134 plan diagrams **The Development of Ballistic Missiles in the United States Air Force, 1945-1960** Jacob Neufeld,1990 Following World War II the onset of nuclear weapons long range jet bombers and ballistic missiles radically changed American foreign policy and military strategy The United States Air Force led by men of far sighted vision and uncommon dedication accepted the challenge of organizing and leading a massive research and development effort to build ballistic missiles In the quarter of the century since these weapons have constituted one of the tree legs of the strategic triad the basis of America s strategy of deterring nuclear war yet they have received less attention from the public and within the Air Force than the more glamorous manned bombers of the Strategic Air Command or the missile launching submarines of the U S Navy This volume attempts to correct the imbalance by telling the story of development of Air Force ballistic Missiles It concentrates on the first generation of ballistic missiles the intercontinental Atlas and Titan and the intermediate range Thor Although the effort to develop rockets has a longer history than commonly assumed the modern history spans the relatively short era from 1945 to 1960 During this brief interval missiles advanced from drawing board to alert status where the next generation now remains poised to deter war **Bulletin of Local History** ,1979 **Aeronautical Industry** ,1929 **The Aeronautical Journal** ,1975 Michigan Manufacturer & Financial Record ,1929 **Engineering** ,1911 World War I Aviation James Philip Noffsinger,1997 This work contains annotated listings of books in French German and Italian as well as a greatly expanded section of books in English covering the period from 1914 to 1994 which includes privately printed books and limited editions **Cold War Warriors** Ian Pearson,2021-09-01 Cold War Warriors tells the little known story of the operations by the Royal Australian Air Force s P 3 Orions during the latter years of the Cold War The aircraft s largely low profile missions usually flown far from their base were often shrouded by confidentiality Now access to declassified documents has allowed this story to be told From the lead up to their delivery in 1968 to the end of the Cold War in 1991 from the intrigues associated with the procurement of the aircraft and subsequent upgrades to perilous moments experienced by the aircraft and their crews while conducting operations and from triumphs to tragedies Cold War Warriors documents the P 3 s service in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft s evolving missions As well as being a story of the RAAF Orions and their growing capabilities Cold War Warriors is also the story of the crews who flew the aircraft Using their words Cold War Warriors faithfully describes a number of incidents both on the ground and in the air to provide a sense of the

enormous breadth of service the P 3 Orion has provided to the Royal Australian Air Force to Australia and to our allies
