The Exchange Artist Jane Kamensky, 2008-01-24 The riveting story of the country's first banking scandal in the first decades of the American republic This enthralling historical narrative of the birth of speculative capitalism in America opens in the 1790s when financial pioneer turned confidence man Andrew Dexter Jr created a pyramid scheme founded on real estate speculation and the greed of banks who freely printed the paper money he needed to finance the then tallest building in the United States the Exchange Coffee House a 153 room seven story colossus in downtown Boston The story of Dexter's rise and eventual collapse offered an object lesson to the rising young nation and presents striking parallels to the subprime mortgage meltdown and looming economic collapse of today **AB Bookman's Weekly**, 1997 **George Perez**

Storyteller Christopher Lawrence, 2015-02-11 Over 200 full color pages highlight the magnificent career of artistic legend George Perez From his early days at Marvel on such titles as Fantastic Four and The Avengers to DC Comics landmark titles New Teen Titans and Crisis on Infinite Earths plus independent work for T H U N D E R Agents and so many others along with his own creations Sachs and Finding Caspicara Susan Verdi Webster, 2024 Caspicara was the most renowned sculptor of the eighteenth century Andean world Yet many works that are attributed to this Indigenous artist cannot be firmly documented as he is nearly absent in traditional archival records Susan Webster seeks to analyze not only the visual imagery and material culture of his many works but she also seeks to lay the foundation for understanding how scholars can revive the life and records of artists and other historical figures many of whom were Indigenous in this period with different methodologies By cultivating artistic theory popular religious devotion and specific styles of sculpture Webster's examination of the labor and workshop practices of this period contextualize the extensive commercial networks that existed within Quito and emanated beyond it Webster explores the reason why authors constructed an almost completely fictional life story and canon for this artist that continued for two centuries how this story fueled the agendas and goals of these authors in melding the colonial past with a newly independent country that could measure itself against western European culture and as a potent story for tourists She then considers the ways in which Caspicara's work was at the center of debates of sculpture versus painting in Quito These debates and their development in the city also add context to notions of authorship and how it was documented or not By exploring the professional world where he worked Webster's analysis of Indigenous sculptors and their family networks of labor and apprenticeship in the arts allow us to understand the changing workforce and materials for sculptures This analysis also reveals what day to day life may have been for Caspicara and how this routine informed the artistic choices available to him Archival materials indirectly offer glimpses into how patrons regarded Caspicara and his work and how the work of others later embellished or altered his original vision Throughout the chapters visibility materials and reception challenge the typical obsession of art historians museum curators and auction houses in their hunger to attribute authorship in ways that increase the value both for prestige and monetary reasons and in ways that end up

obscuring authorship and intent **Online Entertainment and Copyright Law** United States. Congress. Senate. Committee on the Judiciary,2002 *Heritage Odyssey Music and Hollywood Memorabilia Auction Catalog #616* Ivy Press,2005-08 **Sculpture** Johann Gottfried Herder,2011-04-15 The eye that gathers impressions is no longer the eye that sees a depiction on a surface it becomes a hand the ray of light becomes a finger and the imagination becomes a form of immediate touching Johann Gottfried Herder Long recognized as one of the most important eighteenth century works on aesthetics and the visual arts Johann Gottfried Herder s Plastik Sculpture 1778 has never before appeared in a complete English translation In this landmark essay Herder combines rationalist and empiricist thought with a wide range of sources from the classics to Norse legend Shakespeare to the Bible to illuminate the ways we experience sculpture Standing on the fault line between classicism and romanticism Herder draws most of his examples from classical sculpture while nevertheless insisting on the historicity of art and of the senses themselves Through a detailed analysis of the differences between painting and sculpture he develops a powerful critique of the dominance of vision both in the appreciation of art and in our everyday apprehension of the world around us One of the key articulations of the aesthetics of Sturm und Drang Sculpture is also important as an anticipation of subsequent developments in art theory Jason Gaiger s translation of Sculpture includes an extensive introduction to Herder s thought explanatory notes and illustrations of all the sculptures discussed in the text
