Aesthetics and Politics in the Mexican Film Industry M. MacLaird, 2013-06-18 Evaluating a broad selection of Mexican films produced from the early 1990s to the present this study examines how production methods audience demographics and aesthetic approaches have changed throughout the past two decades and how these changes relate to the country's transitions to a democratic political system and a free market economy

Civilizations in World Politics Peter J. Katzenstein, 2009-09-10 A highly original and readily accessible examination of the cultural dimension of international politics this book provides a sophisticated and nuanced account of the relevance of cultural categories for the analysis of world politics The book's analytical focus is on plural and pluralist civilizations Civilizations exist in the plural within one civilization of modernity and they are internally pluralist rather than unitary The existence of plural and pluralist civilizations is reflected in transcivilizational engagements intercivilizational encounters and only occasionally in civilizational clashes Drawing on the work of Eisenstadt Collins and Elias Katzenstein's introduction provides a cogent and detailed alternative to Huntington's This perspective is then developed and explored through six outstanding case studies written by leading experts in their fields Combining contemporary and historical perspectives while addressing the civilizational politics of America Europe China Japan India and Islam the book draws these discussions together in Patrick Jackson's theoretically informed thematic conclusion Featuring an exceptional line up and representing a diversity of theoretical views within one integrative perspective this work will be of interest to all scholars and students of international relations sociology and political science

Putting Liberalism in Its Place Paul W. Kahn, 2009-01-10 In this wide ranging interdisciplinary work Paul W Kahn argues that political order is founded not on contract but on sacrifice Because liberalism is blind to sacrifice it is unable to explain how the modern state has brought us to both the rule of law and the edge of nuclear annihilation We can understand this modern condition only by recognizing that any political community even a liberal one is bound together by faith love and identity Putting Liberalism in Its Place draws on philosophy cultural theory American constitutional law religious and literary studies and political psychology to advance political theory It makes original contributions in all these fields Not since Charles Taylor's *The Sources of the Self* has there been such an ambitious and sweeping examination of the deep structure of the modern conception of the self Kahn shows that only when we move beyond liberalism's categories of reason and interest

to a Judeo Christian concept of love can we comprehend the modern self Love is the foundation of a world of objective meaning one form of which is the political community Arguing from these insights Kahn offers a new reading of the liberalism communitarian debate a genealogy of American liberalism an exploration of the romantic and the pornographic a new theory of the will and a refoundation of political theory on the possibility of sacrifice Approaching politics from the perspective of sacrifice allows us to understand the character of twentieth century politics which combined progress in the rule of law with massive slaughter for the state Equally important this work speaks to the most important political conflicts in the world today It explains why American response to September 11 has taken the form of war and why for the most part Europeans have been reluctant to follow the Americans in their pursuit of a violent sacrificial politics Kahn shows us that the United States has maintained a vibrant politics of modernity while Europe is moving into a postmodern form of the political that has turned away from the idea of sacrifice Together with its companion volume Out of Eden Putting Liberalism in Its Place finally answers Clifford Geertz s call for a political theology of modernity

Religious Politics Plaguing the 21St Century Mike Morra,2013-07-31 This book is about evil To assume that all heinous crime is committed by the mentally ill is a 20th century myth not unlike the Medieval myth that alleged that sin causes physical disease Most all heinous crime as in the Tucson massacre the Islamic bombings and the urban murder rate are caused by the evil possessed not the emotionally unstable In the Biblical account Mark 5 1 20 Jesus handled the issue of the evil possessed as compared and contrasted to the mentally ill During the first half of the 20th century 100 million innocent men women and children were executed slaughtered and murdered en masse by the godless leaderships of Euro Asia These dictators were atheists not mentally deranged By choice they became obsessed with the forcefield of socio political wickedness Accordingly the 21st century state of mind finds itself dealing with the immorality of the lunacy of evil as a spiritual reality not rationalizing it away with 20th century s psychobabble of alleged societal injustice

Mixing Pop and Politics Toby Manning,2024-05-14 From rock n roll to contemporary pop Mixing Pop and Politics is a provocative and entertaining mash up of music and Marxist theory A radical history of the political and social upheavals of the last 70 years told through the period s most popular music Mixing Pop and Politics is not a history of political music but a political history of popular music Spanning the early 50s to the present it shows how from doo wop to hip hop punk to crunk and grunge to grime music has both reflected and resisted the political events of its era Mixing Pop and Politics explores the connections between popular music and political ideology whether that s the liberation of rock n roll or the containment of girl groups the refusal of glam or the resignation of soft rock the solidarity of disco or the individualism of 80s pop At a time when reactionary forces are waging political war in the realm of culture and we re being told to keep politics out of music Mixing Pop and Politics is a timely original and joyful exploration of popular music s role in our society

Politics Is a Joke! S. Robert Lichter, Jody C Baumgartner, Jonathan S. Morris, 2018-09-03 Does late night political humor matter Are late night comedians merely entertaining or do they have the power to influence the way we think about politics and politicians Politics Is a Joke situates late night comedy in the historical context of political humor and demonstrates how the public turn to this venue for political information and are in turn affected by it Using exclusive data collected by the Center for Media and Public Affairs the authors conduct a detailed and exhaustive analysis of political jokes on late night TV shows dating back to 1992 in order to pinpoint the main targets and themes of late night comedy Politics Is a Joke uses a wide range of examples from jokes about politicians physical appearance and sex scandals to jokes about Congress and even the news media to assess and understand the impact of political humor on political institutions politicians and their policies and behavior Engagingly written with analysis of jokes from comedians like Jay Leno Conan O'Brien Jon Stewart and Stephen Colbert Politics is a Joke is essential reading for anyone who wants to understand the crucial role late night comedy plays in our political universe and anyone who enjoys a good laugh The Politics of Being Mortal Alfred G. Killilea, 2021-09-15

While much has been written in recent years on death and dying there has been little treatment of how people cope with death in the absence of religious belief and virtually no examination of the potential political repercussions of a wider acceptance of mortality in American society Alfred Killilea s strikingly original book revolves around a central irony though the subject of death has been largely shunned in American culture lest it rob life of meaning and contentment confronting death may be crucial to enable us as individuals and as a society to affirm life even to survive in this nuclear age Killilea argues that the denial of death has fostered a disavowal of limits in general and that a greater awareness of our mortality would provide a much needed catalyst for change in our political response to narcissism and nuclearism He traces how from John Locke to the present a politics and an economics based on growth for the sake of growth have required an avoidance of

human vulnerability Our confrontation with mortality Killilea argues would goad us to question our roles as mere acquirers and to take more seriously the need for equality and community in our society In charting how we can come to terms with death and how profoundly our attitudes toward death affect our attitudes toward politics Killilea writes lucid and authoritative commentaries on such provocative thinkers as Earnest Becker Robert Jay Lifton Michael Novak Daniel Bell Christopher Lasch and Jonathan Schell Scholars in many fields as well as interested lay readers will find the treatment of these issues and thinkers compelling This easily accessible book is an urgent reminder that the most valuable spur to the examined life extolled by Socrates is the knowledge that we will die War is a Failure of Politics - A Collection of Poems Henry

Disney, 2015-07-16 Henry Disney was born in 1938 and was separated from his parents for part of the War while his future wife had to be dug from the remains of her home following a bombing raid After the War he was partly brought up in the Sudan he served on active service in Cyprus during his National service in 1958 and he carried out research on parasites their hosts and insect vectors in Belize and Cameroon as well as taking part in a 3 month entomological expedition to Indonesia His experience has convinced him that it is folly for the West to intervene in conflicts in the Moslem world not the least because it leads to a surge of recruitment to the most extreme Jihad movements His experience has also served to reinforce his Christian commitment to the rejection of war as a means of solving political conflicts Since 1984 he has been a senior researcher at the University of Cambridge He has been author or co author of more than 600 scientific publications with his co authors being from more than 50 countries across the world He has previously published nine collections of poetry This tenth collection is unashamedly more political than these previous nine Book reviews online PublishedBestsellers website **Cultural Politics and Political Culture in Postmodern Europe**, 1997-01-01 The present volume assembles essays from a broad cultural and professional spectrum around the question of European cultural identity The heterogeneity of the contributors their differing points of departure and methods attests to a tension in intellectual communities which today is more intense than ever Europe's identity crisis is not merely an empirical matter It reflects a far deeper and far older discursive crisis The mandate of Europe's traditional intellectual institutions to preserve and police their own cultural heritage has proved incapable of evolving in a manner sufficient to account for the mutation in its object European culture It is not merely that Europe's identity like any identity in the flux of history has changed Rather the notion of identity the very basis of any questions of who we are where we are going and the appropriate political forms and social institutions for further existence all rely on a logic of identity which has at best become extremely problematic It is this problematization which provides the common thread unifying the following essays Each contributor in his/her own way and with respect to his/her own research object confronts the adequacy of the concept of cultural identity The hidden presuppositions of this concept are indeed remarkable and the logic of cultural identity prescribes that they remain undisclosed
