Burnett,1895 **Leading with Love and Laughter** Zina Sutch,Patrick Malone,2021-05-25 Leadership has for too long been treated as a function and not as a relationship Zina Sutch and Patrick Malone argue that successful leadership must be based on love altruism and empathy and laughter positive emotions and joy Science tells us that humans are deeply wired for empathy and compassion and that our emotional selves help us make better decisions and motivate others However the tactics we use to train leaders bear little reflection of these advancements we re still creating competent but emotionally distant leaders who manage human assets and lead by setting goals deadlines and deliverables Zina Sutch and Patrick Malone hope to flip a light switch and illuminate above all else that leadership begins with heart and soul Too many training programs reduce leadership to an equation matrix or acronym But leadership is a relationship It s one human helping another The most successful leaders show they genuinely care about their employees and are well fun It s just like any relationship In seven succinct chapters the authors show that people lead best when they tap into their genetically
