**Mark of Cain** J. Reid Meloy, 2013-06-17 The Mark of Cain makes available for the first time the accumulated psychoanalytic understanding of the psychopathic mind Editor Reid Meloy a leading authority on the psychology of the psychopath has brought together in a single collection the most historically important psychoanalytic papers on the psychopath and delineated their continuing relevance to contemporary understanding According to Meloy two theoretical traditions flow into the psychoanalytic understanding of psychopathy The first tributary focuses on the early development of the psychopath in order to illuminate how a profound alteration in self regard leads both to a denigration of the other and to an impulsive search for gratification in the present The second tributary seeks to locate the psychopathic miscarriage of human potentiality within analytic theories of personality structure and clinically grounded differential diagnosis Meloy presents the major contributions associated with both of these traditions Included within this body of literature are the original formulations of concepts that have long since become part of the psychoanalytic nomenclature the affectionless juvenile offender the diagnostic significance of affect hunger the behavioral consequences of superego lacunae the recourse to promiscuous identification in the impostor and the paradoxically lethal lure of malignant narcissism Of special interest are Meloy s historical notes to each chapter and two section introductions the latter major essays in their own right The explosion of empirical research on psychopathy over the past two decades masks the fact that much contemporary work in this area is grounded in the clinical formulations of leading psychoanalysts of the twentieth century The Mark of Cain rescues this intimate understanding of the inner world of the psychopath and thereby contributes to clinical realism in the face of deception manipulation exploitation and even frank dangerousness Finding the Right Woman for You Michelle McKinney

Dismemberment in the Fiction of Toni

Morrison Jaleel Akhtar, 2014-06-19 Dismemberment in the Fiction of Toni Morrison is a multifaceted study of Toni Morrison's fiction. It investigates racism and the concomitant experiences of dismemberment in Morrison's fiction from multiple perspectives including history, psychology, and culture. Looking at dismemberment from multiple perspectives rather than the more generic and abstract expression of fragmentation likens the impact of racism on individuals to the splitting of bodies, amputation, phantom limbs, and traumatic memories, and in more concrete and visceral terms. Morrison's art of story telling involves an interactive conversation from multiple perspectives demanding more attentive participation from her readers in deconstructing the meaning of her narratives. Studying her fiction from multiple perspectives suggests various ways of examining the pernicious impact of racism which produces various forms of dismemberment in her characters. This investigation does this without giving prominence to one perspective at the expense of other equally relevant modes of interpretation. Morrison's depiction of the trauma of racism on the psyche of her characters and the concomitant experiences of dismemberment has its roots in the historical and social realities of African Americans. The psychological impact of racism on Morrison's characters requires viewing through the lens of the historical and social realities that play a significant role. Morrison enacts racial alienation and dismemberment as complex processes; it is consequently important to look at her project from multiple perspectives. Examining the lived reality of African Americans from only one perspective ignores dismemberment in the light of the socio-political and historical realities of African American experience in the United States and entails reconsideration of the physical, historical, social, and psychological realities. This investigation argues for the importance of combining these historical and psychological as well as sociocultural analyses of Morrison's fiction in order to acquire a more rounded understanding of racism and its debilitating effects on the psyche. By situating Morrison's fiction within a variety of discourses, this study offers a multifaceted, highly interdisciplinary framework for a more rewarding analysis of her fiction.

*Ambassadors of Light* Jasmuheen, 2000 *Ambassadors of Light* is Jasmuheen's tenth book and the follow-up to her best-seller *Living on Light: Nutrition for the New Millennium*. No doubt this new work will be just as controversial as she continues to challenge the status quo and take the pranic nourishment discussion onto the global stage. In this book Jasmuheen offers practical solutions to world health and world hunger-related challenges through her Luscious Lifestyles Program and also effective ways to redirect global resources. This entails an in-depth look at global disarmament, the dissolution of prohibition, the forgiveness of Third World debt, holistic education programs, and the elimination of the need for personal pharmaceutical use through the elimination of all disease. *Ambassadors of Light* also looks at the undeniable long-term benefits of vegetarianism in relation to health and resource sustainability levels and also at the lifestyles that those who are now free from the need to eat food usually adopt. Jasmuheen compiles statistics from the Light Embassy's Global Research Project as well as the research of many others into this phenomena. This book is a collation of research, recipes, and recommendations that if adopted will radically alter the path of humankind. Imagine a world without war or hunger or fear.

Imagine a world that is disease free and unified where all life is honored These are the dreams of the Ambassadors of Light

Kesel,2023-08-01 In spirituality and mysticism many seek a counterbalance to the strong emphasis on the self that modernity demands of us We desire a fixed self on the one hand and are fascinated by selflessness on the other But is our fascination with selflessness not a ruse to make that self of ours even stronger And is that self critical question not the kernel of even traditional mysticism Marc De Kesel investigates some dark rooms of the mystical tradition to clarify this This is a book for all who want to free themselves from the conceptual frameworks and rigid dogmas of late modern religiosity The first part of the volume deals directly with early modern Christian mysticism and more specifically with the French spiritualit and discussions centered around the problem of what it means to love God in a pure radically unselfish way The second part explores the paradoxical dialectics between self and selflessness in relation to the way Christian religion deals with its own identity If Christian love is selfless why has Christianity in the end not given up its own self its own identity The third and last part of the volume discusses the dialectics between self and selflessness in three other domains popular spirituality politics and modern science It makes clear that selflessness is not limited to mysticism but is both a fascination and a problem paradox for modernity in many fields      The Essential Works of Tagore Rabindranath Tagore,2023-11-16 The Essential Works of
