Natural Law and Moral Inquiry Robert P. George, 1998-03-01 Germain Grisez has been a leading voice in moral philosophy and theology since the Second Vatican Council In this book such major thinkers as John Finnis Ralph McInerny and William E May consider issues in ethics metaphysics and politics that have been central to Grisez's work Grisez's reconsideration of the philosophical foundations of Christian moral teaching seeking to eliminate both legalistic interpretation and theological dissent has won the support of a number of leading Catholic moralists In the past decade moreover many philosophers outside of Catholicism have weighed carefully Grisez's alternatives to theories that have long dominated secular moral philosophy This book presents a broad spectrum of viewpoints on subjects ranging from contraception to capital punishment and considers such controversies as the scriptural basis of Grisez's work his interpretations of Aquinas and his new natural law theory The collection includes not only contributions from Grisez's supporters but also from critics of his thought from proportionalist Edward Collins Vacek SJ to the neo Thomist Ralph McInerny A reply by Grisez written with Joseph M Boyle Jr addresses the issues and viewpoints expressed while an afterword by Russell Shaw reviews Grisez's pioneering work and conveys a vivid sense of the philosopher's personality As Grisez's influence grows this volume will serve as an important touchstone on his contributions to moral and political philosophy and theology

Teaching with Authority Richard R. Gaillardetz, 1997 This book faithfully represents the teaching of Roman Catholicism on the Church's doctrinal authority while pointing to areas where there remains a gap between an ecclesiological vision of the Church informed by Vatican II and the popular understanding and concrete exercise of that authority in the life of the Church today

Christian Theology and Medical Ethics James B. Tubbs Jr., 2013-03-09 Contemporary discourse in biomedical ethics has been greatly shaped sustained and enriched through the insights and perspectives offered by its theologian contributors This volume examines the work of four Christian theologians who have significantly influenced the field of bioethics in the U S Richard McCormick SJ Paul Ramsey Stanley Hauerwas and James M Gustafson Each theorist's writings are explored in turn in order to elucidate compare and contrast their foundational theological premises their particular approaches to moral reasoning and their considered responses to selected medico moral issues The final chapter reflects some of the author's own critical responses in dialogue with the study's four subjects and offers general suggestions about the moral perspective afforded by Christian theology This volume should be of interest both to those seeking a fuller understanding of contemporary discussions in bioethics and to those studying Christian ethics in the modern era

The Encyclopaedia Britannica Hugh Chrisholm, 1910 [The Encyclopædia Britannica: Edwardes-Evangelical Association](#) ,1910 *Vision and Values* Judith A. Dwyer, 1999-08-27 A concise introduction to

Christian ethics this book surveys the moral values of the Catholic tradition and applies them to contemporary issues. Prominent authors address such topics as scriptural sources, reverence for human life, sexuality and intimacy, family responsibilities, the concept of peace in the modern world, economics and Catholic higher education. *Vision and Values* is both an overview of the major perspectives which inform moral decisions and a guide to how these principles interrelate. It can help readers determine how to make complex moral judgments in a Christian context as it demonstrates the vitality of the Catholic theological tradition.

Agape Gene H. Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment. Gene Outka examines the literature on agape from Nygren's *Agape and Eros* in 1930. Both Roman Catholic and Protestant writings are considered, including those of D. Arcy, Niebuhr, Ramsey, Tillich, and above all, Karl Barth. The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory. The last chapter explores further the basic normative content of agape and discusses some of the most characteristic problems. The book is, in my judgment, the best recent work in religious ethics. Outka brings together analytic moral philosophy and theological ethics, providing a masterly survey of views and issues arising in the past forty years. I can think of few books of interest to scholars in both philosophy and theology, but Outka's is one. Unlike some scholars who are at home in continental theology, Outka is also at home in secular analytic philosophy; he brings them together in a mutually illuminating way. Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it. This is a most important book on a most important subject and brings the whole discussion into a new phase. John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent; in fact, it is probably the very best available book about contemporary Christian ethical theory. *The Humanities Association Review*

The Encyclopædia Britannica Hugh Chisholm, James Louis Garvin, 1926 *The Churchman*, 1914 *Traditional Christian Ethics* David W. T. Brattston, 2014 Volume One of *Traditional Christian Ethics* describes the terminology, discusses popular approaches to ethical decision making today, illustrates that the earliest Christians conducted themselves in accordance with a large number of specific moral rules, states the method of this set of books for reconstructing the content of early Christian ethics, law as attested before the devastating epidemic and mass apostasy of AD 249-251, gives reasons for regarding this as the terminal date and provides a guide to using the lists. At a number of points this volume deals with objections to its theses. Volume One also furnishes you with complete information as to where you can find and look up the ancient sources cited in translation. *Traditional Christian Ethics* will help you solve problems in moral decision making when Scripture is unclear or silent. You can solve them through its comprehensive itemized concordances of citations to precepts of Christian ethics from all translated ancient texts. Its sources possess unassailable authority that cannot be fabricated and are persuasive among most Christian denominations. Preachers and professional scholars will find them invaluable as a starting point in preparing their own sermons, books, articles, and essays on specific points of ethics.

The Social Teaching of the

Christian Churches Ernst Troeltsch, 1992-01-01 In this landmark work Ernst Troeltsch offers a history of Christian ethics. This expansive volume relates Christian ethical ideas to the changing structures of church and society from the period of early Christianity to the end of the eighteenth century. Troeltsch's classic work, first published in 1931, continues to speak to the present condition of the church and culture. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field.
