Modern Culture:

Animals and Modern Cultures Adrian Franklin, 1999-09-20 The dramatic transformation of relationships between humans and animals in the 20th century are investigated in this fascinating and accessible book At the beginning of this century these relationships were dominated by human needs and interests modernization was a project which was attached to the goal of progress and animals were merely resources to be used on the path towards human fulfilment As the century comes to an end these relationships are increasingly being subjected to criticism We are now urged to be more sensitive and compassionate to animal needs and interests This book focuses on social change and animals it is concerned with how humans relate to animals and how this has changed and why Moreover it highlights **New Makers of Modern Culture** Wintle Justin, 2013-05-13 New Makers of Modern Culture is the successor to the classic reference works Makers of Modern Culture and Makers of Nineteenth Century Culture published by Routledge in the early 1980s The set was extremely successful and continues to be used to this day due to the high quality of the writing the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty five years and the epochal changes that have occurred the demise of Marxism and the collapse of the Soviet Union the rise and fall of postmodernism the eruption of Islamic fundamentalism the triumph of the Internet Containing over eight hundred essay style entries and covering the period from 1850 to the present New Makers includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley next to John Ruskin is Salmon Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping runs shoulders with Jacques Derrida Julia Kristeva with Kropotkin Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer Bernard Crick Edward Seidensticker and Paul Preston In a few cases for example Michael Holroyd and Philip Larkin contributors are themselves the subject of entries With its global reach New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms

Matter, Materiality, and Modern Culture Paul Graves-Brown, 2000 This collection of essays offers a new approach to the study of contemporary objects The authors are from a diverse range of disciplines and each offer their own perspective on what material culture is and how objects affect human life *New Makers of Modern Culture* Justin Wintle, 2016-04-22 New Makers of Modern Culture will be widely acquired by both higher education and public libraries Bibliographies are attached to entries and there is thorough cross referencing Early Judaism and Modern Culture Gerbem S. Monsters and their Meanings in Early Modern Culture Wes Williams, 2011-05-26 To call something monstrueux in the mid sixteenth century is more often than not to wonder at its enormous size it is to call to mind something like a whale By the late seventeenth monstrueux is more likely to denote hidden intentions unspoken desires Several shifts are at work in this word history and in what Othello calls the mighty magic of monsters these shifts can be described in a number of ways The clearest and most compelling is the translation or migration of the monstrous from natural history to moral philosophy from descriptions of creatures found in the external world to the drama of human motivation of sexual and political identity This interdisciplinary study of monsters and their meanings advances by way of a series of close readings supported by the exploration of a wide range of texts and images from many diverse fields which all concern themselves with illicit coupling unarranged marriages generic hybridity and the politics of monstrosity Engaging with recent influential accounts of monstrosity from literary critical work Huet Greenblatt Thomson Burnett Hampton to histories of science and bio politics Wilson C ard Foucault Daston and Park Agamben it focusses on the ways in which monsters give particular force colour and shape to the imagination the image at its centre is the triangulated picture of Andromeda Perseus and the monster approaching The centre of the book s gravity is French culture but it also explores Shakespeare and Italian German and Latin culture as well as the ways in which the monstrous tales and images of Antiquity were revived across the period and survive into our own times

Modern Culture from a Comparative Perspective Wilfred Cantwell Smith, 1997-01-01 As an historian of religion Wilfred Cantwell Smith has investigated the way religious traditions define themselves the nature of faith over the centuries and the scriptures that have offered anticipations of eternity In this book he turns to modern culture and finds that its past has been defined not only by traditions that are normally called religious but also by the disciplined quest for Truth Philosophia as this tradition may be called draws its heritage from Greece and has inspired scholarship throughout the ages However the ideal of objectivity which has come to define the standard for this tradition has had unfortunate results The human encounter with transcendence which overwhelms all existence has been considered as no more than a peculiarity of the human alone to be categorized and separated from other aspects of life The result is a dehumanized view of truth which all too often evokes fundamentalist reactions Smith concludes with a call to rediscover the dimension of transcendence Objectivity means more than reducing the human to the calculable To treat people as they are in themselves is to understand them as subjects to treat all aspects of their existence as worthy of respect and study and to grasp what it means to be captured by a reality that overwhelms the confines of our limited world

Gender and Scientific Discourse in Early Modern Culture Professor Kathleen Perry Long, 2013-04-28 In the wake of new interest in alchemy as more significant than a bizarre aberration in rational Western European culture this collection examines both alchemical and medical discourses in

the larger context of early modern Europe How do early scientific discourses infiltrate other cultural domains such as literature philosophy court life and the conduct of households How do these new contexts deflect scientific pursuits into new directions and allow a larger participation in the elaboration of scientific methods and perspectives Might there have been a scientific subculture particularly surrounding alchemy which allowed women to participate in scientific pursuits long before they were admitted in an investigative capacity into official academic settings This volume poses those questions as a starting point for a broader discussion of scientific subcultures and their relationship to the restructuring and questioning of gender roles

Sin in Medieval and Early Modern Culture Richard Newhauser, Susan Janet Ridyard, 2012 This volume offers a fresh consideration of role played by the enduring tradition of the seven deadly sins in Western culture showing its continuing post mediaeval influence even after the supposed turning point of the Protestant Reformation It enhances our understanding of the multiple uses and meanings of the sins tradition

Prosthesis in Medieval and Early Modern Culture Chloe Porter, Katie L. Walter, Margaret Healy, 2018-12-07 Prosthesis denotes a rhetorical addition to a pre existing beginning a replacement for that which is defective or absent a technological mode of correction that reveals a history of corporeal and psychic discontent Recent scholarship has given weight to these multiple meanings of prosthesis as tools of analysis for literary and cultural criticism The study of pre modern prosthesis however often registers as an absence in contemporary critical discourse This collection seeks to redress this omission reconsidering the history of prosthesis and its implications for contemporary critical responses to and uses of it The book demonstrates the significance of notions of prosthesis in medieval and early modern theological debate Reformation controversy and medical discourse and practice It also tracks its importance for imaginings of community and of the relationship of self and other as performed on the stage expressed in poetry charms exemplary and devotional literature and as fought over in the documents of religious and cultural change Interdisciplinary in nature the book engages with contemporary critical and cultural theory and philosophy genre theory literary history disability studies and medical humanities establishing prosthesis as a richly productive analytical tool in the pre modern as well as the modern context This book was originally published as a special issue of the Textual Practice journal

The Poetry of the Medieval Troubadour, William IX of Aquitaine Fidel Fajardo-Acosta, 2023-08-15 The Poetry of the Medieval Troubadour William IX of Aquitaine The Songs that Built Europe offers a new edition translation and critical discussion of the songs of the first European troubadour William IX Duke of Aquitaine This book argues that William and his poetic works manifest the economic political and cultural forces that laid the foundations of modern Europe including the subjectivities of modern westerners and the concerns and motifs of what later became the national literatures of France Spain England Germany and Italy Encouraging personal freedoms self definition and the pursuit of love and happiness the culture of courtly love that William initiated is distinctly modern but can also be seen to have played a key role in the subjection of medieval Europeans to the then emergent market economy imperialist ambitions of the Church and authority of proto national kingdoms As such subjection affected even the highest ranking aristocrats such as William the road of liberation of desire appears to have been a fast lane to serfdom for everyone perhaps the most pre modern feature of the modern and postmodern conditions
