My Life East West:

My Life and Times William B. Wray, 2022-12-12 *My Life and Times* is the narrative of a life both ordinary and extraordinary. The author grew up in the Midwest in a lower middle class working household. His immediate forebears lost their jobs and occupations, homes and money in the Great Depression. His more distant ancestors emigrated from many parts of northern Europe and settled in what would become or was Pennsylvania, New Jersey and Maryland between the seventeenth and nineteenth centuries. Although the author's family had little money, as the first born of four children, it was understood that he would go to college. In due course, he graduated magna cum laude from the University of Utah, obtained a PhD in economic geology from the University of California at Berkeley and a Juris Doctor degree from Harvard Law School. His professional career included work in the natural resources industries and in the law profession. The author describes himself, his experiences and observations about life over three quarters of a century in a candid, authentic and accurate way. His life has been that of ethnic mainstream White Protestant America, a category and subject rarely written about. He has observed from the vantagepoint of an ordinary person the social and economic environment of the times. Supported by a personal diary, correspondence and photographs, this account is both factually accurate and objective. The story is a record of how his life and the lives of those around him, including many relatives, friends and associates, evolved over time as American and world societies developed and changed.

The Time of My Life Willard Van Orman Quine, 1985 Some Power did us the giftie grant To see ourselves as others can't. With that play

on Burns famous line as a preface Willard Van Orman Quine sets out to spin the yarn of his life so far And it is a gift indeed to see one of the world s most famous philosophers as no one else has seen him before To catch an intimate glimpse of his seminal and controversial theories of philosophy logic and language as they evolved and to hear his warm and often amusing comments on famous contemporary philosophers From his beginnings in Akron Ohio in the early 1900s Quine takes us on a tour of over 100 countries over three quarters of a century including close observations of the Depression and two world wars Far from a philosophical tract it is an ebullient folksy account of a richly varied and rounded life When he does dip into philosophy it is generally of the armchair sort and laced with a gentle good humor There is that which one wants to do for the glory of having done it and there is that which one wants to do for the joy of doing it One can want to be a scientist because he wants to see himself as a Darwin or an Einstein and one can want to be a scientist because he is curious about what makes things tick In normal cases the two kinds of motivation are in time brought to terms In me the glory motive lingered In this book Quine approaches the details of his life the way he has always approached them with a sharp sense of interest adventure and fun And he has a skill for picking a word that is just off center enough to pull an ordinary event out of the humdrum of daily life and evoke its personal meaning The result is a book of memories that is utterly mesmerizing Willard Van Orman Quine is the author of numerous books including *Word and Object* published by The MIT Press in 1960 A Bradford Book

MY LIFE IN THE STRUGGLE FOR THE LIBERATION OF ZIMBABWE M Mpfu, 2014 This is an elucidation of accumulation of personal experience within the context of socio cultural internalization in particular and the socio political environment in general that is intended to provide some insights into a plethora of ingredients that converged and crystallized into a catalytic impetus that socially transformed my generation from village boys to highly politicised freedom fighters during the 1960s to the 1970s in Rhodesia I have done this by tracing the footprints of my experience which show multiple stages and strands of cultural social political and physical determinants that landed themselves on my growth path starting from socialization in my parents home all the way through the local community traditions and schooling to active service for the freedom of my country at local and national levels Here the crucial elements that moulded my social being in a very profound way have been ventilated to show when and how I became able to distinguish antagonistic differences between justice and injustice at my very early age Proceeding from here I have brought out how I teamed up with others whose political outlook and aspirations were identical with mine as we all voluntarily joined anti colonial struggle starting from invisible low intensity activism in schools and towns up to risky adventures that finished up in armed struggle within a broad national perspective the narration further demonstrates the domesticity of the movements that championed liberation struggle as drivers were citizens who grew up in the rural villages and urban African Townships where they progressively became aware that they were born unlike their parents in a country under colonial administration In doing all this I had to spell out how my interaction with informative social vectors brought awareness on how my country Zimbabwe was colonized and governed by Europeans without the consent of the indigenous natives who showed their resentment to foreign rule by rebelling First Chimurenga within six years of colonization but failed only to succeed in the second rebellion Second Chimurenga after ninety years of racial domination Furthermore I believe I have laid bare how I became a civilian freedom fighter together with peers of my generation in the second rebellion where intolerable weight of oppression caused us to abandon nonviolent methods of struggle in favour of using arms of war to face a cobweb of security forces led by superb military machine of the colonial state wherein lay formidable challenges confronting rebelling citizens the armed struggle phase meant that fighters and their collaborators had to face those challenges in the theatre of operation Initially they exhibited more weaknesses than strengths and lost opportunities that were in the form of abundance of political support of masses of people in the country the overall process of the struggle exhibited strengths and

costly weaknesses right from the civilian phase up to the armed struggle phase with or without my participation It was not until freedom fighters gained experience in planning and undertaking field operations that they became able to apply appropriate tactics that caused the struggle to gain sustainability in the theatre of operation More importantly the narration makes the point that the Rhodesian colonial system was presided over by European settler leaders who hardly recognized African citizens as entitled to participation in governance of the country with equal rights in social political economical and juridical spheres of societal setting of two main races Exclusion of African from consensus on the act of Unilateral Declaration of Independence UDI by Ian Douglas Smith was a fundamental blunder that precipitated nationwide fury that lead to a civil war in which a deprived citizen fought against a privileged citizen who was indoctrinated with falsehood that his adversary freedom fighter was sponsored by foreign powers of a communist type while the latter rightly believed that he was fighting to free his country from racially imposed injustices of deprivation More importantly the narration lays emphasis on the creation of massive political structures throughout the country well below the radar of legality for the purpose of sustaining guerrilla warfare in the face of the super professional Rhodesian security forces In this connection the final phase of armed struggle demonstrated to all at home and abroad that freedom fighters became significantly effective because they were politically rooted in the oppressed population whence came their strength against superior military hardware and a water tight counter insurgency strategy of the Rhodesian security forces Essentially it was that political strength not Communist powers or betrayal by the West which caused all stakeholders to become willing to come to a negotiating table at Lancaster House in Britain in 1979 to settle the armed conflict decisively
