## **Nations In Transit 2005:**

**Nations in Transit 2005** Freedom House, 2005 Measures progress and setbacks in democratization in 27 countries from Central Europe to the Eurasian region of the Former Soviet Union A report on Kosovo appears as an addendum to the Serbia and Montenegro report This book covers events from January 1 through December 31 2004      **Regional Integration**

**Processes in the Commonwealth of Independent States** Katarzyna Czerewacz-Filipowicz, Agnieszka Konopelko, 2016-11-26 This book investigates the economic political and cultural factors that influence regional economic integration processes as well as international political cooperation in the area of the Commonwealth of Independent States CIS The authors analyze market integration manifested in interregional trade investment and service connections Taking a constructivist approach they shed new light on how national ethnic religious and linguistic factors as well as systems of government political regimes and models of leadership shape foreign policy decision making in various post Soviet countries

**Welfare State Transformation in the Yugoslav Successor States** Marija Stambolieva, 2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book's arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions      **Kyrgyzstan - Regime Security and Foreign Policy**

Kemel Toktomushev, 2016-10-04 Kyrgyzstan is an interesting example of a relatively weak state which for its brief period of independence has already ousted two presidents experienced two revolutions survived two interethnic conflicts and yet remained intact This book explores this apparent paradox and argues that the schism between domestic and international dimensions of state and regime security is key to understanding the nature of Kyrgyz politics The book shows how the foreign policy links to the Manas Air Base used by the US military and essential for supplying their forces in Afghanistan the

economic arrangements necessary for sustaining the base both inside and outside Kyrgyzstan and the myriad of different actors involved in all this combined to overshadow points of friction to ensure stable continuance of the status quo Overall the book shows how broad geopolitical forces and complex local factors together have a huge impact on the formation of Kyrgyz foreign policy

**How Corruption and Anti-Corruption Policies Sustain Hybrid Regimes** Oksana

Huss,2020-10-27 Leaders of hybrid regimes in pursuit of political domination and material gain instrumentalize both hidden forms of corruption and public anti corruption policies Corruption is pursued for different purposes including cooperation with strategic partners and exclusion of opponents Presidents use anti corruption policies to legitimize and institutionalize political domination Corrupt practices and anti corruption policies become two sides of the same coin and are exercised to maintain an uneven political playing field This study combines empirical analysis and social constructivism for an investigation into the presidencies of Leonid Kuchma 1994 2005 Viktor Yushchenko 2005 2010 and Viktor Yanukovich 2010 2014 Explorative expert interviews press surveys content analysis of presidential speeches as well as critical assessment of anti corruption legislation are used for comparison and process tracing of the utilization of corruption under three Ukrainian presidents

Citizenship in Bosnia and Herzegovina, Macedonia and Montenegro Jelena Džankic,2016-03-03 What happens to the citizen when states and nations come into being How do the different ways in which states and nations exist define relations between individuals groups and the government Are all citizens equal in their rights and duties in the newly established polity Addressing these key questions in the contested and ethnically heterogeneous post Yugoslav states of Bosnia and Herzegovina Macedonia and Montenegro this book reinterprets the place of citizenship in the disintegration of Yugoslavia and the creation of new states in the Western Balkans Carefully analysing the interplay between competing ethnic identities and state building projects the author proposes a new analytical framework for studying continuities and discontinuities of citizenship in post partition post conflict states The book maintains that citizenship regimes in challenged states are shaped not only by the immediate political contexts that generated them but also by their historical trajectories societal environments in which they exist as well as the transformative powers of international and European factors

**Youth Movements and Elections in Eastern Europe** Olena Nikolayenko,2017-10-12 This book examines a dramatic rise of nonviolent youth movements on the eve of national elections in Eastern Europe

**Institutional Roles and Radical Right-Wing Populism** Anna Heapy-Silander,2025-02-27 This book examines how the proximity to government and different institutional roles being in opposition government or supporting a minority government influence European radical right wing populist RRWP parties discourse Analysing case studies of different institutional roles Finns Party opposition Fidesz government and the Danish People s Party supporting a minority government the book presents how the framing of the RRWP s ideology and policies adapt to decision making and power It investigates whether there are alternative factors which better explain the possible changes in tone such as domestic or foreign events and finds that the party discourse is such a

robust and identifying character of the RRWP parties that the different institutional roles do not moderate as previously thought This book is of key interest to scholars and students of the radical right party politics populism policymaking and more broadly European and comparative politics      **Crisis and Change in Post-Cold War Global Politics** Erica Resende,Dovilė Budrytė,Didem Buhari-Gulmez,2018-05-02 This volume analyzes crises in International Relations IR in an innovative way Rather than conceptualizing a crisis as something unexpected that has to be managed the contributors argue that a crisis needs to be analyzed within a wider context of change when new discourses are formed communities are re built and new identities emerge Focusing on Ukraine the book explore various questions related to crisis and change including How are crises culturally and socially constructed How do issues of agency and structure come into play in Ukraine Which subjectivities were brought into existence by Ukraine crisis discourses Chapters explore the participation of women in Euromaidan identity shifts in the Crimean Tatar community and diaspora politics discourses related to corruption anti Soviet partisan warfare and the annexation of Crimea as well as long distance impacts of the crisis      Central and East European Politics Zsuzsa Csergo,Daina S. Davis,Benedict Kingsbury,2015-05-19 Using a power knowledge framework this volume critically investigates how major global indicators of legal governance are produced disseminated and used and to what effect Original case studies include Freedom House s Freedom in the World indicator the Global Reporting Initiative s structure for measuring and reporting on corporate social responsibility the World Justice Project s measurement of the rule of law the World Bank s Doing Business index the World Bank supported Worldwide Governance Indicators the World Bank s Country Performance Institutional Assessment CPIA and the Transparency International Corruption Perceptions index Also examined is the use of performance indicators by the European Union for accession countries and by the US Millennium Challenge Corporation in allocating US aid funds      Legislative Decline in the 21st Century Irina Khmelko,Rick Staphenurst,Michael L. Mezey,2020-01-24 Irina Khmelko

Frederick Staphenurst and Michael L. Mezey have assembled an authoritative guide to the declining institutional capacities of legislatures around the world. Case studies represent a diverse sample of countries ranging from newer democracies emerging from the post communist world to more established but at times fragile democracies in Asia. Although largely focused on newer democratic systems, readers will be able to identify key factors that explain the general global trend toward the empowerment of executives at the expense of national legislatures. The cases, although different from one another, identify several factors that have explained the erosion of legislative power, including historical legacies, institutional design, economic factors, external factors, political polarization, personalization of politics, and the rise of populism. Original data and the presentation of testable theoretical propositions about the growing imbalance between executives and national legislatures moves the field in a promising new direction. *Legislative Decline in the 21st Century* will be of interest to students and scholars of Legislative Studies and Comparative Politics. Lessons drawn from these case studies will allow policy makers to explore new solutions that can lead to the improved quality of democracy in countries around the world.

*The Limits of Europe* Foster, Russell, Grzymalski, Jan, 2022-04-05. Is the European Union (EU) in a state of crisis? Over recent years a series of systemic and spontaneous challenges, including Brexit, the rise of Euroscepticism, and the Eurozone and refugee crises, have manifested in landmark moments for European integration. First published as a special issue of the journal *Global Discourse*, this edited collection investigates whether these crises are isolated phenomena or symptoms of a deeper malaise across the EU. Experts from across disciplines analyse and rethink the forces which pull Europeans together, as well as those which push them apart.

**Europe and the Post-Yugoslav Space** Branislav Radeljic, 2016-04-22. Charting the path from intervention to integration, *Europe and the Post-Yugoslav Space* examines the role of Europeanization on the development of the countries of the former Yugoslavia: Slovenia, Croatia, Macedonia, Montenegro, Serbia, Bosnia and Herzegovina, and Kosovo. They may have a shared history, but their experiences, views, and attitudes to European integration vary dramatically. Opinion within each state is often equally as keenly divided as to the benefits of active membership. The debate within each country, and their comparative differences in approach, provide fascinating case studies on the importance and relevance of the EU and the effectiveness of Europeanization. A wide range of contributors, with significant experience gained within the EU, as well as their country of origin, use their expert understanding of the language and cultures of the countries concerned to provide detailed and rich insights into the troubled history and potential of the post-Yugoslav space.

**Central and East European Politics** Sharon L. Wolchik, Jane Leftwich Curry, 2018-03-29. Now in a fully updated edition, this essential text explores the other half of Europe: the new and future members of the EU, along with the problems and potential they bring to the region and to the world stage. Clear and comprehensive, it offers an authoritative analysis of Central and Eastern Europe, the Baltics, and Ukraine.

Postcommunism from Within Jan Kubik, Amy Linch, 2013-08-26. While the decline of communism in the late twentieth century brought democracy, political freedom, and better economic prospects for many people, it also produced

massive social dislocation and engendered social problems that were far less pronounced under the old regimes The fall of state socialism led to enormously complex political economic social and cultural transformations and while political liberalization was a lofty goal it was neither uniform in its effects nor unqualified in its benefits Postcommunism from Within foregrounds the diversity of the historical experiences and current realities of people in the postcommunist region in examining how they are responding to these monumental changes at home The original essays in this volume lay out a bold new approach to research on the postcommunist region and to democratization studies more broadly that focuses on the social and cultural microprocesses behind political and economic transformation Thematic essays by eminent scholars of postcommunism from across the social sciences are supported by case studies to demonstrate the limitations of current democratization paradigms and suggest ways of building categories of research that more closely capture the role of vernacular knowledge in demanding creating and adapting to institutional change A novel approach to understanding one of the greatest political and social transformations in recent history Postcommunism from Within explores not just how citizens respond to political and economic restructuring engineered at the top but also how people enact their own visions of life politics and justice by responding to daily challenges **Zur Effektivität externer Demokratisierung** Solveig Richter, 2009

**Judges and Democratization** B. C. Smith, 2022-11-18 This second edition examines judicial independence as an aspect of democratization based on the premise that democracy cannot be consolidated without the rule of law of which judicial independence is an indispensable part It pays particular attention to the restraints placed upon judicial independence and examines the reforms which are being applied or remain to be adopted in order to guard against the different kinds of interference which prevent judicial decisions being taken in a wholly impartial way Focusing on the growing authoritarianism in the new democracies of Eastern Europe Latin America Asia and Africa the book analyses the paradox of judicial activism arising from the independence endowed upon the judiciary and the rights bestowed on citizens by post authoritarian constitutions Finally it asks how judicial accountability can be made compatible with the preservation of judicial independence when the concept of an accountable independent judiciary appears to be a contradiction in terms This book will be of key interest to scholars and students of judicial studies democratization and autocratization studies constitutionalism global governance and more broadly comparative government politics human rights and comparative public law *The EU and Member State Building* Soeren Keil, Zeynep Arkan, 2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union's policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter

conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU's actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general      **Digital Eastern Europe** William Schreiber, Marcin Kosienkowski, 2015-05-05 Part One e Governance and Cybersecurity Part Two Ukraine 2014 The Crisis Online Part three Separatism and De Facto States Online Part Four Democracy and Authoritarianism Online Part Five Digital Diplomacy
