Over Fulfilled Expectations A Life And An Era In Rural America:

Over-Fulfilled Expectations Harold F. Breimyer, 2002-09 During the 1920s the United States suddenly aware of its potential following success in World War I offered bright promise to its youth and especially to its rural youth Harold Breimyer the author of this memoir was one of those rural youth an Ohio farm boy In this evocative memoir told in the third person Breimyer recounts how he and his fellows were encouraged to form high expectations for themselves and how they fulfilled them Rural America Caroline S. Kelsohn, 2002 Thomas Jefferson once envisioned the United States as a nation of yeomen farmers Looking around today however illustrates that nothing could be further from the truth In a globalised world and techno centred society urban sprawl is overtaking rural America For over a century farming was the backbone of the American economy and though it is still critical to American productivity many rural areas are plagued by poverty and job reduction Agricultural issues have a hold over national politics as in the debates over farm subsidies but they cannot change several significant trends in America today the movement toward fewer and larger farms environmental pressures from urban and suburban interests and changing food consumption patterns In order to assist the remaining yeomen farmers a comprehensive and integrated agricultural policy must be initiated to sustain the nation s farming communities This book analyses the status of the farm industry in rural America providing a historical context for agriculture and assessing its future for the nation and the information provided in this book is necessary to understanding the nature of what has historically been a key component of American industry and life William I. Myers and the Modernization of American Agriculture Douglas Slaybaugh, 1996 During the farm credit crisis brought on by the Great Depression Myers served in Franklin D Roosevelt s New Deal government writing the legislation to consolidate federal farm credit programs After a brief stint as deputy governor he became governor of the Farm Credit Administration in 1933 Myers led the agency to two great successes saving thousands of farms from bankruptcy and establishing a permanent government sponsored credit system for farmers comparable to what private banks provided industry Myers returned to Cornell in 1938 and served for nearly fifteen years as dean of the College of Agriculture Myers also served on the board of trustees of the Rockefeller Foundation which was instituting agricultural research programs that would enable developing nations to become more productive self reliant and anticommunist members of the global community American Farming Culture and the History of Technology Joshua T. Brinkman, 2024-05-06 Presenting a history of agriculture in the American Corn Belt this book argues that modernization occurred not only for economic reasons but also because of how farmers use technology as a part of their identity and culture Histories of agriculture often fail to give agency to farmers in bringing about change and ignore how people embed technology with social meaning This book however shows how farmers use technology to express their identities in unspoken ways and provides a framework for bridging the current rural urban divide by presenting a fresh perspective on rural cultural practices Focusing on German and Jeffersonian farmers in the 18th century and Corn Belt producers in the 1920s

the Cold War and the recent period of globalization this book traces how farmers formed their own versions of rural modernity Rural people use technology to contest urban modernity and debunk yokel stereotypes and women specifically employed technology to resist urban gender conceptions This book shows how this performance of rural identity through technological use impacts a variety of current policy issues and business interests surrounding contemporary agriculture from the controversy over genetically modified organisms and hog confinement facilities to the growth of wind energy and precision technologies Inspired by the author's own experience on his family's farm this book provides a novel and important approach to understanding how farmers culture has changed over time and why machinery is such a potent part of their identity This book will be of great interest to students and scholars of agricultural history technology and policy rural studies the history of science and technology and the history of farming culture in the USA

Themes in Rural History of the Western World Richard Herr, 2002-09 Drawing on a number of disciplines nine scholars examine the major issues addressed by rural history

Outstanding in His Field Frederick V. Carstensen, 2002-09 Honoring Wayne D Rasmussen Mr Agriculture at the U S Department of Agriculture and throughout the nation this book comprises essays by distinguished authors from varied disciplines on the past achievements current status and future challenges of agriculture history

Agricultural Transition in New York State Donald H. Parkerson, 2002-09 This study of Agricultural Transition in New York State focuses on the transformation of the U S agricultural economy in the middle of the nineteenth century and the its impact on farm families

American Agriculture and the Problem of Monopoly Jon Lauck, 2016-02-01 The breathtaking number of mergers and joint ventures among agribusiness firms has left independent American farmers facing the power of an increasingly concentrated buying sector The origin of farmers concern with such economic concentration dates back to protests against meatpackers and railroads in the late nineteenth century Jon Lauck examines the dimensions of this problem in the American Midwest in the decades following World War II He analyzes the nature of competition within meat packing and grain markets In addition he addresses concerns about corporate entry into production agriculture and the potential displacement of a production system defined by independent family farms Lauck also considers the ability of farmers to organize in order to counter the market power of large scale agribusiness buyers He explores the use of farmer cooperatives and other mechanisms which may increase the bargaining power of farmers The book offers the first serious historical examination of the National Farmers Organization which fully embraced the bargaining power cause in the postwar period Lauck finds that independent farmers attempts at organization have been more successful than previously recognized but he also shows that their successes have been undermined by the growing concentration and power of agri business firms justifying a new approach to antitrust law in agricultural markets

Planning Democracy Jess Gilbert, 2015-04-28 Late in the 1930s the U S Department of Agriculture set up a national network of local organizations that joined farmers with public administrators adult educators and social scientists The aim was to localize and unify earlier New Deal programs concerning

soil conservation farm production control tenure security and other reforms and by 1941 some 200 000 farm people were involved Even so conservative anti New Dealers killed the successful program the next year This book reexamines the era s agricultural policy and tells the neglected story of the New Deal agrarian leaders and their visionary ideas about land democratization and progressive social change Uncle Henry Richard S. Kirkendall,2002-09 Founder of Wallaces Farmer adviser to Theodore Roosevelt and consultant to Iowa State College Uncle Henry Wallace perhaps more than any writer since Jefferson spoke of rural society in terms of its significant role in the success of the American democratic vision This book fills a gap in the history of Midwestern agriculture and the influence of the farm press Small-scale Agriculture Today ,1989

What Is Agriculture For? Paul B. Thompson,Professor Emeritus Department of Philosophy Paul B Thompson,2025-08-15 What Is Agriculture For describes four contrasting rationales for technical and policy change in agriculture and food systems Technological Modernization applies an ethic common to every sector in the industrial economy production should seek greater efficiencies in order to lower consumer costs and secure adequate supply but should not do so in ways that harm third parties or the environment The other views single out a feature of agriculture giving it unique moral significance Sustainable Intensification emphasizes future challenges to the global food supply and Rural Resilience places special value on the social role of farmers and other producers Urban Agriculture highlights cities growing vulnerability to rurally based supply chains Each perspective leads to distinct policy goals and suggests different priorities for technical innovation At the same time the argument for any particular innovation may draw on two of more of these archetypal rationales The book does greater justice to the complexity of food politics providing tools for critical evaluation of implicit value commitments and greater understanding of opposing points of view **Rings of Fire** Larry J. Hughes,2024-06-18 An epic story filled with an unfolding array of evocatively described landscapes and sharply drawn unforgettable people Dayton Duncan writer and producer for Ken Burns documentary films and author of fourteen books on American history and national parks Edwin Land had barely settled into his seat on the plane when the flash went off An idea for an innovative WWII technology that might help eradicate the fascist cancer devouring the free world It was Polaroid s Optical Ring Sight which magically projected a bullseye of brilliantly colored rings onto the sky like rings of fire to aim American antiaircraft guns that previously couldn t hit the broad side of a barn Rings of Fire is the compelling story of American ingenuity determination and grit told through the personal stories of the amazing people who transformed insight into gunsight From scientists to ordinary Americans to drifters and ex cons characterized as the underbelly of America they crossed cultural barriers to tackle a shared crisis California desert rat artist John Hilton whose mining claim supplied the calcite crystals desperately needed for the device assisted by Gen George S Patton Miners Steve Modesto and John Owens a Cahuilla Indian ranch hand and a white meat cutter from Kansas whose friendship led to an astonishing discovery Moonshiner Al Hansen whose calcite prospecting in Montana started with a lucky strike but cascaded into a wild west vigilante showdown Crystal Crackin Mama Irene Frederick

whose calcite crystal processing skills silenced male skeptics and helped rescue the Polaroid project from disaster Edwin Stanton whose hubris led to a fat FBI dossier and tragedy while prospecting in Mexico Cecil Kegans a rough Oklahoman with a huge smile starting his Marine career by fetching groceries for calcite miners and ending it in a bloody pool on Saipan And miner Harry Sikkenga whose fist fight with a shift boss packed him off to the army artillery just in time to invade Germany and encounter the horror of Dachau Teamed together they overcame enormous personal obstacles to produce ring sights for Navy ships aircraft and Army bazookas And afterwards their product went from aiming the guns of war to the cameras of peacetime for television and on the helmets of skydiving videographers And then all the way to the moon aiming NASA s space cameras culminating with perhaps the most influential photograph of all time Earthrise Larry Hughes unfolds this gripping never told story with accessible explanations of the science and the art behind the project but always lets the colorful characters drive a warm and vivid adventure **Annals of Iowa** ,2001 **Reframing Rural America** Aileen Webb,2005 To Make a Spotless Orange Richard C. Sawyer,2002-09 To Make A Spotless Orange is the story of science with a mission the use of organisms to attack pests Few states showed very little interest after the first commercial pesticides appeared in the late nineteenth century In california alone entomologists persevered in developing both the theory and practice of biological control These entomologists were neither environmentalists nor health crusaders but scientist s who believed that their method would be the cheapest and most effective in the long run *Rural Wisconsin's Economy and Society* ,1991 Journal of Economic Literature ,1992 **A Place at the Table** Peter Pringle,2013-02-05 Looks at the under reported problem of hunger facing nearly fifty million Americans told through three intimate stories of real people in crisis **Rural Economic Technical Assistance Center Library List** Rural Economic Technical Assistance Center (Ill.),1993
