just happened to walk into a drugstore and I was astonished to see the great number of weight loss pills weight loss diets slimming foods and other such weight loss ads taking about four shelves in the whole shop Just 10 years ago nobody bothered much about getting obsessed about weight loss in our particular neck of the woods but now it seems that this problem has become a universal obsession So I decided to write this book on the harmful effects of slimming and weight loss pills so that if you have begun obsessing about weight loss with the help of these very dangerous and potentially harmful pills at least you are going to get a deep insight into the psychological physical mental and even emotional long term negative effects these can have on your mind body and psyche You are going to say are you a doctor show me your medical degree so that I can believe you Under such circumstances I am sorry but I do not have a number of alphabets behind my name to reassure you about what I say is true But then the medical association is promoting the usage of these weight loss pills so that your health is ruined and because I have been associated with the medical field as a hospital administrator with a College Degree in Natural Sciences Zoology Botany and Chemistry three in 1 Degree with lots of knowledge of human physiology biochemistry and the chemistry of pharmaceutical products manufactured in the labs I believe I can give you good reasons why you should never ever think of ruining your health with weight loss pills and chemically manufactured slimming aids which only served to deprive you of your own natural good health in the long term **Comprehensive Neonatal**
