homelessness in America is becoming a chronic condition that reflects an overall decline in the nation's standard of living and the general state of the economy This is the disturbing conclusion drawn by Martha Burt in Over the Edge a timely book that takes a clear eyed look at the astonishing surge in the homeless population during the 1980s Assembling and analyzing data from 147 U S cities Burt documents the increase in homelessness and proposes a comprehensive explanation of its causes incorporating economic personal and policy determinants Her unique research answers many provocative questions Why did homelessness continue to spiral even after economic conditions improved in 1983 Why is it significantly greater in cities with both high poverty rates and high per capita income What can be done about the problem Burt points to the significant catalysts of homelessness the decline of manufacturing jobs in the inner city the increased cost of living the tight rental housing market diminished household income and reductions in public benefit programs all of which exert pressures on the more vulnerable of the extremely poor She looks at the special problems facing the homeless including the growing number of mentally ill and chemically dependent individuals and explains why certain groups minorities and low skilled men single men and women and families headed by women are at greatest risk of becoming homeless Burt's analysis reveals that homelessness arises from no single factor but is instead perpetuated by pivotal interactions between external social and economic conditions and personal vulnerabilities From an understanding of these interactions Over the Edge builds lucid realistic recommendations for policymakers struggling to alleviate a situation of grave consequence for our entire society

**Being Extreme** Bill Gutman, 2014-04-01 As fast paced as a freefall from a roaring airplane as thrilling as a towering jump off a ski slope Being Extreme is a fascinating examination of the adrenaline rush of extreme sports Here is a world where living life on the edge is the only option where you are only as good as your last jump and where one false move can take you out of the game permanently From mountain climbing and freestyle motocross to skydiving and snowboarding and beyond in the past decade the world of extreme sports has exploded onto the scene with daredevils attempting acts of athleticism that leave spectators awed and fearful Being Extreme explores the motivations and societal impulses behind these high risk lifestyles through interviews with professional athletes and recreational enthusiasts as well as with psychiatrists who seek to understand the motivation behind these Big T personalities Authors Gutman and Frederick also explore what heart stopping sports are around the next curve because in a world where the rush is everything everyone is always upping their game

Highly Committed DeWitt S. Williams, 2012-10-24 The most important legacy a person can leave behind is reflected in the lives they touch for Christ during their lifetime After serving the Seventh day Adventist Church for more than 100 years in different capacities the Wilson family has left quite a legacy that continues on today The legacy began when William Henry Wilson gave his heart to the Lord after hearing Ellen White preach at a camp meeting in California Although his time on earth was short he dedicated himself to studying God's word and before he passed away he asked his sons to promise him that they would commit their lives to serving the church Nathaniel Wilson gave his word that he would serve the Lord and he did so in a mighty way working in various conferences in the States and serving overseas in Africa Asia Australia and India Neal C Wilson carried his father's legacy forward and served in the Middle East and North America before accepting the call to lead the world church Along the way Neal mentored his son Ted N C Wilson who followed in his father's footsteps and ministered in Africa Russia and currently at the General Conference as president of the Adventist Church Four generations of Wilsons along with their

**Faith on the Edge** Leonardo Boff,2011-10-07 A major voice in liberation theology and once silenced for a year by the pope for his outspoken views Leonardo Boff here presents a collection of his controversial essays attacking poverty and political persecution As a Brazilian Boff is witness to and active in the liberation movement within the Catholic Church in Latin America He claims that the Church there is redefining itself as a modern populist movement It is in Latin America writes Boff that the Church of the future is being molded There are more Catholics in Latin America than on any other continent Soon more than half of the members of the Church will live here European countries with their demographic decline and meager religious creativity their theology liturgy and pastoral ministry consisting almost entirely of syntheses of material drawn from the past are gradually losing their universal relevance It is in Latin America that the Church's principal new challenges are appearing What is the relationship between the gospel and the liberation of the oppressed How can Christian love be reconciled with participation in the wild class struggle taking place around us How can Christianity help overcome the relations of international injustice prevailing in the unequal relationships between rich countries and poor ones Advocating a sympathetic but critical relationship between liberation theology and Marxism Boff claims that historical materialism is the social scientific method conducive to liberation theology He also discusses the political dimension of faith the Church's role in the struggle for human rights the nature of the popular Church the rights of the poor and the oppressed and the kind of future they may anticipate Boff's bold reflections on these and other issues make vital reading for anyone

concerned with faith and justice in today's world

**Crisis and Commitment** Robert Accinelli, 2017-11-01 This analytical study examines in comprehensive detail the making of the American military and political commitment to Taiwan during the first half of the 1950s Starting with President Truman's declaration in January 1950 that the United States would not militarily assist Taiwan's Nationalist Chinese government Robert Accinelli shows why Washington subsequently reversed this position and ultimately chose to embrace Taiwan as a highly valued ally Accinelli analyzes this critical reversal within the context of shifting international circumstances and domestic developments such as McCarthyism and the Truman MacArthur controversy In addition to describing the growth of a close but uneasy relationship between the United States and the Nationalist regime he focuses on the importance of the Taiwan issue in America's relations with the People's Republic of China and Great Britain He concludes his study with an analysis of the 1954-55 confrontation between the United States and China over Quemoy and Matsu and other Nationalist held offshore islands According to Accinelli neither the Korean War nor the Indochina War divided the United States and China more fundamentally during this period than did the issue of U S Taiwanese relations Originally published in 1996 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

**Citizenship on the Edge** Nancy J. Hirschmann, Deborah A. Thomas, 2022-01-04 What does it mean to claim two decades into the twenty first century that citizenship is on the edge The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand and sex race and gender on the other Who counts as a citizen in today's world and what are the mechanisms through which the rights benefits and protections of liberal citizenship are differentially bestowed upon diverse groups What are the relationships between global economic processes and political and legal empowerment What forms of violence emerge in order to defend and define these rights benefits and protections and how do these forms of violence reflect long histories How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects Citizenship on the Edge approaches these questions from multiple disciplines including Africana Studies anthropology disability studies film studies gender studies history law political science and sociology Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U S and throughout the world They give a sense of the breathtaking range of the ways that citizenship is controlled repressed undercut and denied at the same time as they outline people's attempts to claim citizenship in ways that are meaningful to them From university speech policies to labor and immigration policies to a rethinking of the security theatre to women's empowerment in the family and economy and a rethinking of marriage and the family we see slivers of

possibility for a more inclusive and less hostile world in which citizenship is no longer so in doubt so on the edge for so many As a whole the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times and in relation to dynamic struggle Contributors Erez Aloni Ange Marie Hancock Alfaro Nancy J Hirschmann Samantha Majic Valentine M Moghadam Michael Rembis Tracy Robinson Ellen Samuels Kimberly Theidon Deborah A Thomas
