Overcoming Indifference:

Overcoming Inequality in Latin America Ricardo Gottschalk, Patricia Justino, 2007-04-11 Latin America is faced with the challenge of achieving the Millennium Developmental Goal to halve poverty in the region by 2015. Historically, this region has experienced persistently high levels of inequality and poverty, the causes and consequences of which are analytically examined here. Adopting a multidimensional approach, this informative book focuses on the mechanisms that lead to higher inequality and emphasizes the role of macroeconomics, trade rules, capital flows, and the political electoral process. It analyzes how inequality has hindered development, how it interacts with a nation's economic, social, and political processes, and how inequality constrains these processes in ways that weakens the prospect of establishing and sustaining a dynamic, wealthy, and creative society. An international team of specialist contributors investigate and explain these crucial issues. Examining the key economic policies and reforms which have exacerbated the region's extremely high inequality levels throughout this book, they prescribe an alternative range of policy suggestions to help alleviate inequality and provide the foundations for more equitable development.

Recapturing Our Homes and Communities Pasquale De Marco, 2025-05-07 Recapturing Our Homes and Communities is a clarion call to action, a roadmap for reclaiming our communities and our country from the forces of indifference, apathy, and ignorance. Pasquale De Marco argues that we are facing a crisis of values, a loss of faith in our institutions and ourselves. This has allowed a small but vocal minority to seize control of the narrative, pushing their radical agenda and dividing our country. We must not let them succeed. We must fight back, not with violence or hatred, but with the power of ideas and the strength of our convictions. Recapturing Our Homes and Communities provides a detailed plan for how we can do this. It identifies the key challenges we face and offers practical solutions for overcoming them. We must reclaim our communities, our schools, and our media. We must hold our leaders accountable and demand that they represent the interests of all Americans, not just the special interests. We must rebuild our economy, create jobs, and ensure that every American has a fair shot at success. We must protect our environment, our natural resources, and our way of life. The battle we face is a difficult one, but it is not insurmountable. If we stand together, united in purpose and determination, we can overcome any challenge. Recapturing Our Homes and Communities is a must-read for anyone who cares about the future of our country. It is a call to action, a reminder that we have the power to make a difference.
