Overcoming Violence Against Women And Girls The International Campaign To Eradicate A World Wide Problem:

Overcoming Violence Against Women and Girls Michael L. Penn, Rahel Nardos, 2003 This book provides university students policy makers activists public health workers clinicians and lay citizens alike with a vivid overview of the scope of the problem of gender based violence worldwide as well as a sense of the important work now underway to eradicate it An integration of a vast range of data and insights from all the major disciplines that have contributed to our understanding of this problem this book is invaluable as a classroom text The authors have been guided throughout this work by the desire to contribute a document that would move the current international discourse along by providing an historical interdisciplinary overview that is at once critical constructive and visionary Women and Politics around the World Joyce Gelb, Marian Lief Palley, 2009-03-30 A unique two volume examination of the progress women have made in achieving political equality Women and Politics around the World addresses both transnational and gender related issues as well as specific conditions in more than 20 countries Women and Politics around the World A Comparative History and Survey is an exploration of the role of women in political systems worldwide as well as an examination of how government actions in various countries have an impact on the lives of the female population Women and Politics around the World divides its coverage into two volumes The first looks at such crucial issues facing women today as health policy civil rights and education comparing conditions around the world The second volume profiles 22 different countries representing a broad range of governments economies and cultures Each profile looks at the history and current state of women s political and economic participation in a particular country and includes an in depth look at a representative policy The result is a resource unlike any other one that gives students researchers and other interested readers a fresh new way of investigating a truly global issue **Engaging Men in the Fight against Gender Violence** Jane Freedman, 2012-12-05 Gender based violence is a global phenomenon which affects millions worldwide However despite the increasing attention which is now paid to this violence by policy makers data seem to indicate that these efforts are not having as great an impact as may have been hoped In all countries of the world reports of gender related violence remain elevated whilst many incidents of such violence probably remain unreported due to fear of stigma or reprisals for those who are victims One of the problems in tackling gender based violence has been that for too long men have been ignored as part of the solution Men are often labelled as perpetrators of violence but they are perhaps too infrequently considered also as potential victims or as partners and actors in the fight against violence Constructions of masculinities are not adequately studied to analyse how dominant forms of masculinities may contribute to cycles of violence and may also oppress and traumatise men themselves This volume aims to address critically the issues of men masculinity and gender based violence asking how men can be fully engaged in the prevention of gender based violence and how this engagement can strengthen prevention initiatives International Violence Against Women: U.S. Response and Policy Issues , **Symbolism in Terrorism** Jonathan Matusitz, 2014-09-16 The symbolic value of targets is what

differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries key points review questions research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism

Domestic Violence in Postcommunist States Katalin FÁibi, 2010-07-16 Domestic violence has emerged as a significant public policy issue of transnational character and mobilization in the postcommunist era in Europe and Eurasia as global forces have interacted with the agendas of governments local and international women s groups and human rights activists The result of extensive collaboration among scholars and activist practitioners many from postcommunist countries this volume examines the development of state policies changes in public perceptions and the interaction of national and international politics

History of Transnational Voluntary Associations Thomas R. Davies, 2016-05-23 Davies review explores the history of transnational voluntary associations commencing with general patterns before proceeding to cover the history of different sectors in turn including humanitarianism science education environment feminism race health human rights labour business standards professions culture peace religion and youth Coverage extends from the late eighteenth century through to the early twenty first century and spans histories of particular organizations and of particular campaigns in addition to the evolution of broader transnational social movements Contrasting perspectives on historical evolution are considered including both linear and cyclical interpretations The factors underpinning historical changes are explored including economic environmental political scientific and social developments Insights are drawn not only from a

transnational historical perspective but also the many other disciplines that shed light on the subject such as world sociology. The review also incorporates perspectives from international relations, development studies, peace studies, voluntary sector studies, and women's studies. It argues that the historical evolution of transnational voluntary associations is longer, less Western in origin, and more cyclical than traditionally assumed.

Sexual Violence in Conflict Francis Chinedu Abara, 2020-11-01

The originality of this book rests in the application of the human security framework to analyze sexual and gender-based violence in conflict. The human security paradigm is concerned and centered on the individual's security threats holistically and is inclusive of both men and women in its agenda. The author argues that making a balanced narrative of sexual violence that includes both men and women as both victims and perpetrators could be a more effective means of preventing conflict-related sexual violence than when men are excluded. Another positive feature of the book rests in its analysis of the plights of victims and survivors of sexual violence during conflict and post-conflict situations. The author describes the devastating emotional and traumatic pain, the psychological agony, the health problems, stigmatization, and impoverishment that sexual violence causes victims and survivors. Moving beyond victims and survivors, the book also examines perpetrators of sexual violence and the questionable part played by a range of social actors. This book has taken on the challenge of interdisciplinary studies that draws upon and integrates evidence and concepts from peace and conflict studies, gender studies, law, and human rights as well as sociology and psychology to offer a balanced and elucidatory narrative of the occurrence, perpetrations, impacts, as well as responses and actions required of the international community. It makes a convincing argument that sexual violence in conflict is prevalent and persistent and that it is a global threat to human security. The subject matter is timely, and the author's writing style is easy to follow without taking down the reader, making this book a suitable reading for students, academics, as well as practitioners.

REVIEWS and WORDS OF PRAISE

Rev Francis Abara has produced a critically reflective and thought-provoking text documenting how and when sexual violence is used as a strategic weapon of war and poses a real threat to global security. This is an important book in ensuring that the mental, physical, and economic health and diversity of the victims of sexual violence in conflict are central to developments in human security.

Professor Amanda J Broderick, Vice-Chancellor, President, University of East London, UK

Francis has taken on the challenge of writing an interdisciplinary book that draws upon and integrates evidence and concepts from peace and conflict studies, gender studies, law, and human rights as well as sociology and psychology to offer a balanced and elucidatory narrative of the occurrence, perpetrations, impacts, as well as responses and actions required of the international community.

Professor Giorgia Don Co, director of the Centre for Migration, Refugees, and Belonging, University of East London

A highly relevant book that underlines contemporary issues facing the world today. In a clear and easy-to-follow style, the author provides a brilliantly insightful engagement in this complex topic.

Professor Wilson Ozuem Arden, University, UK

Rev Francis Abara provides a fresh and comprehensive analysis into one of the greatest afflictions of our times: sexual violence in conflict.

The horrific long term effects of the physical emotional economic social and mental damage of sexual violence are laid bare. Importantly this book takes a gender inclusive approach and analyses the victimization of both women and men. Dr Edna Maeyen Solomon Senior Lecturer in Economics University of Greenwich London. This book comprehensively presents a systematic analysis of sexual violence in conflict as a threat to global security which Rev Abara has drawn from a wide range of sources and synthesized into cogent coherent and urgent arguments of global importance. Remarkably this book is distinctive because it is devoid of prolixity and rhetoric but plainly expresses the social and political upheavals within which sexual violence is unleashed. Dr Moses Itene Doctor of International Law and Jurisprudence University of Huddersfield.

Freedom and Indigenous Constitutionalism John Borrows, 2016-05-12. Indigenous traditions can be uplifting positive and liberating forces when they are connected to living systems of thought and practice. Problems arise when they are treated as timeless models of unchanging truth that require unwavering deference and unquestioning obedience. **Freedom and Indigenous Constitutionalism** celebrates the emancipatory potential of Indigenous traditions, considers their value as the basis for good laws and good lives, and critiques the failure of Canadian constitutional traditions to recognize their significance. Demonstrating how Canada's constitutional structures marginalize Indigenous peoples' ability to exercise power in the real world, John Borrows uses Ojibwe law stories and principles to suggest alternative ways in which Indigenous peoples can work to enhance freedom. Among the stimulating issues he approaches are the democratic potential of civil disobedience, the hazards of applying originalism rather than living tree jurisprudence in the interpretation of Aboriginal and treaty rights, American legislative actions that could also animate Indigenous self-determination in Canada, and the opportunity for Indigenous governmental action to address violence against women.

Gender Inequality in Our Changing World Lori Kenschaft, Roger Clark, Desiree Ciambone, 2015-07-24. **Gender Inequality in Our Changing World: A Comparative Approach** focuses on the contemporary United States but places it in historical and global context. Written for sociology of gender courses, this textbook identifies conditions that encourage greater or lesser gender inequality, explains how gender and gender inequality change over time, and explores how gender intersects with other hierarchies, especially those related to race, social class, and sexual identity. The authors integrate historical and international materials as they help students think both theoretically and empirically about the causes and consequences of gender inequality both in their own lives and in the lives of others worldwide.

Contemporary Women's Movements in Hungary Katalin Fábián, 2009-10-14. As the first and only book in any language on contemporary women's movements in Hungary, this groundbreaking study focuses on the role of women's activism in a society where women are not yet adequately represented by established parties and political institutions. Drawing on eyewitness accounts of meetings and protests, as well as first person interviews with leading female activists, Katalin Fábián examines the interactions between women's groups in Hungary and studies the unique brand of democracy they have forged in postcommunist Eastern Europe. Through her analysis, she demonstrates how

democratization and globalization with their attendant range of challenges and opportunities have led women to redefine public private divides
