Overcoming Clumsiness:

Overcoming Clumsiness David Lynn Chandler, Jonathan Eisen, 1986-01-01 *Adlerian Counseling and Psychotherapy* Thomas J. Sweeney, 2009-05-18 Adlerian Counseling and Psychotherapy now in its fifth edition remains a classic text for students and an essential resource for practitioners of all levels of experience. Reviewers have consistently lauded the book in previous editions for its clarity, concise focus, and use of many practical applications. It explains and illustrates individual, group, and couples work with children, adolescents, and adults of all ages. It highlights Adler's and Dreikurs's unique contributions to child guidance, lifestyle assessment, and early recollections, and why it has been rated the most multicultural appropriate theory among counseling approaches. The fifth edition presents a fresh organization and an even clearer structure. A new emphasis is placed on the distinction between counseling and psychotherapy as practiced from the Adlerian perspective. Additional chapter activities and review questions are added throughout the text, and all previous material is updated and refreshed.
