## **Overtime Punchin Out With The Mill Hunk Herald Magazine 19791989:**

Overtime Mill Hunk Herald,1990      **What We Hold in Common** Janet Zandy,2001 Restored to print in an expanded edition the pivotal text in working class studies      **Singing The City** Laurie Graham,2010-06-15 Singing the City is an eloquent tribute to a way of life largely disappearing in America using Pittsburgh as a lens Graham is not blind to the damage industry has done both to people and to the environment but she shows us that there is also a rich human story that has gone largely untold one that reveals in all its ambiguities the place of the industrial landscape in the heart Singing the City is a celebration of a landscape that through most of its history has been unabashedly industrial Convinced that industrial landscapes are too little understood and appreciated Graham set out to investigate the city s landscape past and present and to learn the lessons she sensed were there about living a good life The result told in both her voice and the distinctive voices of the people she meets is a powerful contribution to the literature of place Graham begins by showing the city as an outgrowth of its geography and its geology the factors that led to its becoming an industrial place She describes the human investment in the area the floods of immigrants who came to work in the mills in the late nineteenth and early twentieth centuries their struggles within the domains of Andrew Carnegie and Henry Clay Frick She evokes the superhuman aura of making steel by taking the reader to still functioning mills and uncovers for us a richness of tradition in ethnic neighborhoods that survives to this day      Steeltown U.S.A. Sherry Lee Linkon,John Russo,2002-06-10 Once the symbol of a robust steel industry and blue collar economy Youngstown Ohio and its famous Jeannette Blast Furnace have become key icons in the tragic tale of American deindustrialization Sherry Lee Linkon and John Russo examine the inevitable tension between those discordant visions which continue to exert great power over Steeltown s citizens as they struggle to redefine their lives When the Jenny was shut down in 1978 50 000 Youngstown workers lost their jobs cutting the heart out of the local economy Even as the community organized a nationally recognized effort to save the mills the city was rocked by economic devastation runaway crime and mob scandal problems that persist twenty five years later In the midst of these struggles the Jenny remained standing as a proud symbol of the community s glory days still a dominant force in the construction of both individual and collective identities in Youngstown Focusing on stories and images that both reflect and perpetuate how Youngstown understands itself as a community Sherry Lee Linkon and John Russo have forged a historical and cultural study of the relationship between community memory work and conflict Drawing on written texts visual images sculptures films songs and interviews with people who have lived and worked in Youngstown the authors show the importance of memory in forming the collective identity of a place Steeltown U S A is a richly developed portrait of a place showing how images of the Jenny and of Youngstown have been used in national media and connecting these representations to the broader public conversation about work and place Bruce Springsteen s song Youngstown the book Journey to Nowhere and other pop culture artifacts have helped make Youngstown the symbolic epicenter of American deindustrialization And while many

people see the need to get over the past and on with the future in rushing to erase the difficult parts of Youngstown's history they might also forget the powerful events that made the city so important such as the struggles for economic and social justice that improved the lives of steelworkers This multifaceted study of the meaning of work and place in one community pointedly depicts the relationships among economic development media representations and community life As we see how people's faith in the value of their work dwindled away in Youngstown their stories can help us understand not only how the meaning of work has changed but also why the changing meaning of work matters **Hands** Janet Zandy, 2004 In linking forms of cultural expression to labour occupational injuries and deaths this title centres what is usually decentred the complex culture of working class people **The Workbook**, 1990 Steel and Steelworkers John Hinshaw, 2012-02-01

Steel and Steelworkers is a fascinating account of the forces that shaped Pittsburgh big business and labor through the city's rapid industrialization in the mid nineteenth century its lengthy era of industrial maturity its precipitous deindustrialization toward the end of the twentieth century and its reinvention from hell with the lid off to America's most livable post industrial city Hinshaw examined a wide variety of company union and government documents oral histories and newspapers to reconstruct the steel industry and the efforts of labor business and government to refashion it A compelling report of industrialization and deindustrialization in which questions of organization power and politics prove as important as economics Steel and Steelworkers shows the ways in which big business and labor helped determine the fate of steel and Pittsburgh **Twentieth-Century Pittsburgh, Volume Two** Roy Lubove, 1996-02-15 This volume traces the major decisions events programs and personalities that transformed the city of Pittsburgh during its urban renewal project which began in 1977 Roy Lubove demonstrates how the city showed united determination to attract high technology companies in an attempt to reverse the economic fallout from the decline of the local steel industry Lubove also separates the successes from the failures the good intentions from the actual results **Labor's Text** Laura Hapke, 2001 Hapke's book remarkable in scope and inclusiveness offers those concerned with American working people a mine of information about and analysis of the rich lived history of American laborers as that has been represented in fictions of every kind She provides an invaluable foundation for understanding the dirtiest of America's dirty big secrets the pervasiveness of class differences class discrimination indeed of class conflict in this the wealthiest nation in history Hers is an indispensable guided tour through more than a century and a half of literary representations of hands at their looms pikets on the line agitators on their soapboxes ordinary working women men and children in kitchens parks factories and fields across America Paul Lauter A K G M Smith Professor of Literature Trinity College **Labor's Text** sets over 150 years of the multi ethnic literature of work in the context of the history that informed it the history of labor organizing of industrial change of social transformations and of shifting political alignments Any scholar of American literature or American history cannot help but be enlightened by this boldly ambitious and illuminating book Shelly Fisher Fishkin professor of American studies University of Texas Austin **Labor's**

labor history and labor studies to union members from a wide range of occupations and demographic groups In the class he asked his students to finish the question Work is in six words or less The thousands of responses he collected provide some of the rich source material behind What Work Is Bruno draws on the thoughts and feelings experienced by workers in the present day to analyze how we might design a future of work He breaks down perceptions of work into five categories work and time the space workers occupy the impact of work on our lives the sense of purpose that motivates workers and the people we work for in all senses of the term Far seeing and sympathetic What Work Is merges personal experiences with research poetry and other diverse sources to illuminate workers lives in the present and envision what work could be in the future
