Overture To Social Anthropology:

An Overture to Social Anthropology Robert Francis Murphy, 1979 **Cultural and Social Anthropology** Robert Francis Murphy, 1989 Core text for introductory cultural social anthropology Discusses major theories of human behavior as well as topical issues *The Rebirth of Anthropological Theory* Stanley R. Barrett, 1992-12-15 Innovative and often controversial Barrett's study ranges over the entire scope of anthropological theory It provides a fresh interpretation of the history of theory and mounts an alternative perspective built around dialectics that is eminently suitable to post colonial anthropology He argues that anthropological theory has failed to be cumulative It has been characterized by oscillation and repetition theoretical orientations have appeared and disappeared only to be discovered once again Addressing numerous conceptual contradictions which have never been resolved he introduces novel concepts such as salvage theory and backward theory and argues that in many respects anthropological theory resembles the structuralists interpretation of myth Social life he asserts is inherently contradictory although concealed by numerous mechanisms most of which reinforce the status quo Attacking the illusion of simplicity which has dominated positivistic approaches and the out dated identification of anthropology with non Western primitive and tribal societies Barrett contends that power and privilege everywhere should be the basic concerns of anthropological inquiry *The Black Spiritual Movement* Hans A. Baer, 2001 Spiritual churches in the United States represent one of several religious movements that African Americans have adopted in their efforts to cope with mainstream society In this groundbreaking work first published in 1984 Hans A Baer explores the richness and creativity of Black Spiritualism setting forth an illuminating ethnography of the movement that corrects numerous stereotypes of African American religion Baer shows that the Spiritual churches blend diverse elements borrowing aspects of African American Protestantism American Spiritualism Roman Catholicism Voodoo and black ethno medicine occasionally even including aspects of Islam Judaism New Thought and Ethiopianism He describes not only the history structure ideology and practices of the churches but also the process of syncretism within them and their role within the African American community In addition Baer examines how the Spiritual movement juxtaposes elements of protest and accommodation to racism and class stratification in U S society This second edition includes a new preface and a new epilogue in which Baer discusses his methodology in researching the Black Spiritual Movement describes his meetings with pastors and congregation members and summarizes his most recent research in the field *Body Silent* Robert F Murphy, 2001-06-05 Robert Murphy was a professor of anthropology at Columbia before he developed a spinal tumour that progressed into quadriplegia Here he explores society's fears myths and misunderstanding about disability and the effect they have on the disabled person's identity and social standing Pastoral Counseling Across Cultures David W. Augsburger, 1986-01-01 In this book David Augsburger discusses the dynamics of pastoral care and counseling across cultural lines Augsburger combines theology with global perspective and cultural sensitivity to posit an inclusive understanding of pastoral care This

book will be of great interest to pastoral counselors in both academic and practical contexts **Dialectics and Gender**

Randolph, 2019-04-10 This book examines gang rape clitoridectomy abduction of women ritual belittling of men modern feminist criticism and the war between the sexes It deals with the politics of large state sized units and conflict in the form of overt war between Indians and colonial powers *The Dawn of Belief* D. Bruce Dickson, 1992-07 Hunter gatherers of the Upper Paleolithic period of the late Pleistocene epoch in western Europe left a legacy of cave paintings and material remains that have long fascinated modern man This book draws on theories derived from cultural anthropology and cognitive archaeology to propose a reconstruction of the religious life of those people based on the patterning and provenience of their artifacts Based on the premises that all members of Homo sapiens sapiens share basically similar psychological processes and capabilities and that human culture is patterned the author uses ethnographic analogy inference from material patterns and formal analysis to find in prehistoric imagery clues to the cosmology that lay behind them The resulting book is an intriguing speculation on the nature of paleolithic religion offering scholars a valuable synthesis of anthropological archaeological and sociological research and general readers an accessible account of how our forebears may have regarded the unknown A well written and intellectually rigorous introduction If you are curious about prehistory you will enjoy it Wilson Library Bulletin Most interesting to those scholars interested in seeking materialist foundations or ecological explanations for religious practices American Antiquity A well written and concise account of what has recently been achieved by the investigations of spiritual life of the Earth s most ancient human communities Archiv Orientalni

author describes the literature history and principles of this form of Buddhism and illuminates the ways in which it embodies this religion's most basic tenet: No human life should be wasted, abandoned or forgotten but should be transformed into a source of vibrant life, deep wisdom and compassionate living. As a practice that evolved to harmonize with the realities of everyday life, Shin Buddhism will be particularly attractive to contemporary Western readers. **African American**

Religious Studies Gayraud S. Wilmore, 1989 This anthology provides a coherent interdisciplinary theoretical base for students of African American religious studies and will assist in the design of programs and courses for lay theological education and training. To this end, the editor has assembled material from Old and New Testament studies, theology, church history, pastoral counseling, worship and social action. **Military Development In Africa** Bruce E. Arlinghaus, 2019-03-04

Increases in the number and improvements in the quality of arms transferred to sub-Saharan African nations clearly will affect those nations' economic development and political stability both immediately and in the long term. Problems of technology absorption, manpower development and the diversion of financial and human resources occasioned by such transfers become more and more critical as the demand for military modernization by African governments grows and the industrial nations compete to meet the demand. Dr. Arlinghaus evaluates conflicting assessments of the costs and benefits of military development from the perspective that it would be best for African nations to allocate resources for defense on the basis of socioeconomic considerations as well as their military and political goals. Praying with Our Hands Jon M.

Sweeney, 2012-11-01 A spiritual guidebook for bringing prayer into our bodies. The power of words is nowhere more evident than when we use them to pray, but prayer is also the place where we most often come up against the limitations of words. In this intriguing book of reflections and accompanying photographs, we see how our bodies, in particular our hands, can give meaning to our prayers in a way that words alone cannot. Here are twenty-one simple ways of using our hands to speak to God, presented in word and image. These spiritual practices are from a broad range of religious traditions, from Anglican to Sufi, from Buddhist to Shaker. Some may be familiar, some new; all demonstrate the universal importance people of all faith traditions have given to embodied prayer. They teach us to experience the unique spiritual enrichment that can be found when we pray with our hands. **Leadership Communication Skills for Intercultural Management** Apoorva

The Wanano Indians of the Brazilian Amazon Janet M. Chernela,2010-01-01 The Wanano Indians of the northwest Amazon have a social system that differs from those of most tropical forest tribes Neither stratified by wealth nor strictly egalitarian Wanano society is ranked according to rigidly bound descent groups In this pioneering ethnographic study Janet M Chernela decodes the structure of Wanano society In Wanano culture children can be grandparents while elders can be grandchildren This apparent contradiction springs from the fact that descent from ranked ancestors rather than age or accumulated wealth determines one s standing in Wanano society But ranking s impulse is muted as senior clans considered to be succulent referring to both seniority and resource abundance must be generous gift givers In this way resources are distributed throughout the society In two poignant chapters aptly entitled Ordinary Dramas Chernela shows that rank is a site of contest resulting in exile feuding personal shame and even death Thus Chernela s account is dynamic placing rank in historic as well as personal context As the deforestation of the Amazon continues the Wanano and other indigenous peoples face growing threats of habitat destruction and eventual extinction If these peoples are to be saved they must first be known and valued The Wanano Indians of the Brazilian Amazon is an important step in that direction **Change Of China's Rural**

Community: A Case Study Of Zhejiang's Jianshanxia Village Dan Mao,2019-11-07 This book analyzes the industrialization process of Jianshanxia a mountain village in Zhejiang Province and its organizational changes since China s reform and opening up As a small mountain village far from the city Jianshanxia Village used its contingent funds to open up a factory collectively owned by the village At that time it was common for city dwellers to run a factory in cities but this was still rare in rural areas The book analyzes how the village could quickly claim a large market share of the domestic electric mosquito incense market The successful industrialization of the village increased the income of the villagers improved its appearance and enhanced its collective economic strength In retrospect the transformation of this village was a miracle and a typical example of industrialization of township enterprises in China **Cultural Differences and Economic**

Globalization Roger White,2015-10-23 Economic globalization is the process of increased integration among nations characterized and fostered by three elements of international trade goods and services international capital flows and international migration In recent decades international economic integration has increased both in depth more pronounced bilateral connections and in breadth connections have become more commonplace thus the global economy has become increasingly integrated Societies receive tremendous net benefits from economic globalization however accessing these

benefits may be limited by cross societal cultural differences This book examines cultural differences as a potential impediment to economic integration Relying on rigorous statistical and econometric techniques the analyses indicate that higher transaction costs due to greater cultural distance inhibit both the volume of trade flows and the successful completion of trade deals Cultural distance appears to reduce foreign direct investment as well as divert investment to less culturally distant destinations This book finds a negative relationship between migration flows and cultural distance It considers the common criticism that repeated and intensified integration diminishes cultural differences resulting in cultural homogeneity This book offers the first comprehensive examination of the relationships between cross societal cultural differences and economic globalization It will be of great interest to scholars and students who study globalization international economics and cultural studies

Edhina Ekogidho - Names as Links Minna Saarelma-Maunumaa, 2003-10-17 What are the most popular names of the Ambo people in Namibia Why do so many Ambos have Finnish first names What do the African names of these people mean Why is the namesake so important in Ambo culture How did the long independence struggle affect personal naming and what are the latest name giving trends in Namibia This study analyses the changes in the personal naming system of the Ambo people in Namibia over the last 120 years starting from the year 1883 when the first Ambos received biblical and European names at baptism The central factors in this process were the German and South African colonisation and European missionary work on the one hand and the rise of African nationalism on the other hand Eventually this clash between African and European naming practices led to a new and dynamic naming system which includes elements of both African and European origin
