Poetry in Fragments Christos Tsagalis, 2017-09-11 Next to the Theogony and the Works and Days stands an entire corpus of fragmentary works attributed to the Boeotian poet Hesiod that has during the last thirty years attracted growing scholarly interest Whereas other studies have concentrated either on the interpretation of the best preserved work of this corpus the Catalogue of Women or have offered detailed commentaries this volume aims at bringing together studies focusing on generic and contextual factors pertaining to the various works of the Hesiodic corpus the Catalogue of Women included and the corpus afterlife in Rome and Byzantium

Ovid's Terence Iris Brecke, 2023-11-20 This book investigates the complex reception of Terence in Ovid and a number of allusions to the Terentian comedies in the love elegies and the exilic elegiac epistle *Tristia* 2 The genres of Latin love elegy and New Comedy are often seen as closely connected in research and one leading view is that Latin love elegy to a large degree springs out of the comic genre However though both genres are strongly rooted in social practise and presents interpersonal relationships in a non mythological everyday setting there are also major differences between them Marriage for instance is the conventional goal for the young lover withing the comic genre whereas the elegiac lover should avoid it Taking into account both the similarities and the crucial differences between the comic genre and Latin love elegy and key elegiac topoi such as *seruitium amoris* and *militia amoris* this book demonstrates an intricate connection between Ovid and Terence and a complex nexus of allusions that goes straight to the core of Ovid's elegiac authorship Winner of the Trends in Classics Book Prize 2023

Ovid in French Helena Taylor, Fiona Cox, 2023 This collection of essays examines the ways Ovid's diverse oeuvre has been translated rewritten adapted and responded to by a range of French and Francophone women from the Renaissance to the present It aims to reveal lesser known voices in Ovidian reception studies and to offer a wider historical perspective on the complex question of Ovid and gender Ranging from Renaissance poetry to contemporary creative criticism it charts an understudied strand of reception studies emphasizing how a longer view allows us to explore and challenge the notion of a female tradition of Ovidian reception The range of genres analysed here poetry verse and prose translation theatre epistolary fiction autofiction autobiography film creative critique and novels also reflect the diversity of the Ovidian texts in reception from the *Heroides* to the *Metamorphoses* from the *Amores* to the *Ars Amatoria* from the *Tristia* to the *Fasti* The study brings an array of critical approaches to bear on well known authors such as George Sand Julia Kristeva and Marguerite Yourcenar as well as less known figures from contemporary writer Linda L to the early modern Catherine and Madeline Des Roches exploring exile identity queerness displacement voice expectations of modesty the poetics of translation and the problems posed by Ovid's eroticized violence to name just some of the volume's rich themes The epilogue by translator and novelist Marie Cosnay points towards new eco critical and creative directions in Ovidian scholarship and reception Students and scholars of French Studies Classics Comparative Literature and Translation Studies will find much to interest them in this diverse collection of
