Encyclopedia of African American Society Gerald D. Jaynes, 2005-02 An encyclopedic reference of African American history and culture

The Triumph of Hope Hope Etim, 2023-06-28 In the small vibrant city of Port Harcourt nestled along the banks of the Bonny River a young boy named Hope Etim gazed out at the world with wide curious eyes His heart was filled with innocence and wonder unaware of the challenges and hardships that lay ahead Hope was just a child when he lost his father a tragedy that would shape the course of his life and propel him on a journey of triumph against all odds Hope s mother Ruth was a pillar of strength and resilience As a single mother she bore the weight of providing for her son and nurturing his dreams Despite their meager means Ruth instilled in Hope a deep rooted belief that he was destined for greatness that he had the power to rise above their circumstances and create a better future The loss of his father at such a tender age left a void in Hope s heart a void that could only be filled with the unwavering love and guidance of his mother Ruth worked tirelessly taking on multiple jobs to ensure that her son had a roof over his head food on the table and the opportunity to receive an education She sacrificed her own dreams and aspirations pouring all her love and resources into giving Hope the chance to succeed Growing up in a humble home Hope witnessed the struggles and hardships faced by his mother and the countless other families in their community The harsh realities of poverty and inequality were starkly apparent but Hope refused to let despair consume him Instead he embraced his mother s teachings of hope perseverance and the power of education As Hope entered the halls of school he discovered a thirst for knowledge that burned within him Despite the lack of resources and proper infrastructure he devoured every book he could get his hands on immersing himself in a world of imagination and possibility With each passing day his dreams grew bolder his aspirations reaching far beyond the boundaries of his humble surroundings

The Ethnic Project Vilna Bashi Treitler, 2013-08-14 A study of the racial ethnic history of the United States and the perpetuation of racial hierarchy Race is a known fiction there is no genetic marker that indicates someone s race yet the social stigma of race endures In the United States ethnicity is often positioned as a counterweight to race and we celebrate our various hyphenated American identities But Vilna Bashi Treitler argues that we do so at a high cost ethnic thinking simply perpetuates an underlying racism In *The Ethnic Project* Bashi Treitler considers the ethnic history of the United States from the arrival of the English in North America through to the present day Tracing the histories of immigrant and indigenous groups Irish Chinese Italians Jews Native Americans Mexicans Afro Caribbeans and African Americans she shows how each negotiates America s racial hierarchy aiming to distance themselves from the bottom and align with the groups already at the top But in pursuing these ethnic projects these groups implicitly accept and perpetuate a racial hierarchy shoring up rather than dismantling race and racism Ultimately *The Ethnic Project* shows how dangerous ethnic thinking can be in a society that has not let go of racial thinking Praise for *The Ethnic Project* An outstanding work that makes an important contribution to our understanding of the

past and present racial history of the United States The book is very well written Bashi Treitler s prose is a delight to read and meticulously researched The Ethnic Project should definitely be part of the conversation as we press forward with the task of understanding race in the United States Ashley Woody Doane American Journal of Sociology Treitler offers a succinct history and diagnosis of racial grouping in the U S from the nation s origin to the contemporary moment The text has solid promise as an introductory ethnic studies course reading Highly recommended N B Barnd CHOICE With her ingenious concept of ethnic projects Vilna Bashi Treitler brings a new optic to the study of race and provides an authoritative answer to those who ask the tired question We made it why haven t they Stephen Steinberg author of Race Relations A Critique Treitler masterfully weaves race and ethnicity into a single historical narrative that reveals the ugly reality of exploitation and stratification that has always undergirded American society Douglas S Massey Princeton University **Sevyns Life**

Dreams of Glory Richard K. Fenn,2016-05-13 Islam Judaism and Christianity are engaged not in a clash of civilizations but in a sectarian conflict among branches of a single civilization traditionally steeped in apocalyptic imagery and beliefs Apocalypticism is a religious luxury that modern civilizations can no longer afford Many would agree that the propagandists of the Christian Right have raised apocalyptic tensions to a dangerous level since 9 11 but in this book Richard Fenn takes on the mainline church leaders for their role in promoting an apocalyptic view of history Those who keep apocalyptic beliefs in a respectable place in religious faith and practice must bear their share of responsibility for global terror It is not only tragic

but ironic that the churches have given apocalyptic literature such a respectable place in their sacred texts because the apocalyptic imagination itself has its sources in non Biblical literature the Hellenistic prophecies that gave comfort and courage to the victims of war in the near and middle east from the time of Alexander the Great and Darius Fenn goes on to hold apocalyptic enthusiasts in the mainline churches as well as on the Right responsible for keeping old grievances alive in their demands for a day of final reckoning and he demonstrates that totalitarian and imperial regimes have made effective use of apocalyptic literature to justify their own violence and to terrify their subjects and enemies

Concrete Dreams Nicholas D'Avella, 2019-11-15 In Concrete Dreams Nicholas D Avella examines the changing social and economic lives of buildings in the context of a construction boom following Argentina s political and economic crisis of 2001 D Avella tells the stories of small scale investors who turned to real estate as an alternative to a financial system they no longer trusted of architects who struggled to maintain artistic values and political commitments in the face of the ongoing commodification of their work and of residents turned activists who worked to protect their neighborhoods and city from being overtaken by new development Such forms of everyday engagement with buildings he argues produce divergent forms of value that persist in tension with hegemonic forms of value In the dreams attached to built environments and the material forms in which those dreams are articulated from charts and graphs to architectural drawings urban planning codes and tango lyrics D Avella finds a blueprint for building livable futures in which people can survive alongside and even push back
