*Oxford Canal Guide* Euan Corrie, 2002      *The Canal Builders* Anthony Burton, 2015-11-30 *Canal Builders* is a classic history book for anyone interested in the development of Britain's canal system. The book, which was first published in the 1970s, is now republished here in a new fifth edition. It takes the reader from the middle of the eighteenth century to the start of the railway age in the early nineteenth century. Anthony Burton has revised and improved the original text using new material that he has found in archives since it was first published and has added many extra illustrations. This is the remarkable story of the many groups of people who were responsible for building Britain's canal system. There were industrialists such as Josiah Wedgwood who promoted canals to help his own industry and speculators who financed the projects in the hope of a good return. The work was planned by engineers, some of whom, such as James Brindley and Thomas Telford, have become famous, while others have remained virtually unknown but still did magnificent work. This is also the story of the great anonymous army of men who actually did the work, the navvies. This was the first book ever to study the lives of these labourers in detail. Altogether, it is an epic story of how the transport route that made the industrial revolution possible was built. Well planned and well written. There is no better introduction to the early canal age. *The Economist* Links End Links

W. Skempton, 2002 This biographical reference work looks specifically at the lives, works, and careers of those individuals involved in civil engineering whose careers began before 1830      *The Thames and Severn Canal* Humphrey Household, 2009-03-15 The story of the Thames Severn Canal is one of exceptional interest. Talked of as early as the first decade of the seventeenth century, it was the first trunk waterway ever to be proposed in this country      **The Riddle of the Third Mile** Colin Dexter, 2011-02-10 The Riddle of the Third Mile is the sixth novel in Colin Dexter's Oxford set detective series. As portrayed by John Thaw in ITV's *Inspector Morse*, the thought suddenly occurred to Morse that this would be a marvellous time to murder a few of the dodderly old bachelor dons. No wives to worry about their whereabouts, no landladies to whine about the unpaid rents. In fact, nobody would miss most of them at all. Dr Browne Smith passed through the porter's lodge at approximately 8.15 a.m. on the morning of Friday 11th July. And nobody has heard from him since. By the 16th of July, the Master of Lonsdale is concerned but not yet worried. Plenty of time to disappear, think Chief Inspector Morse. And plenty of time too for someone to commit murder. As bodies begin to pile up, Morse sets out on a journey through intricate and complicated history from World War Two Egypt to present-day London in search of answers. The Riddle of the Third Mile is followed by the seventh *Inspector Morse* book, *The Secret of Annexe 3*      *The Development of Transportation in Modern England* William T.
