dispense health care whilst aging populations severely stretch the availability of resources The Ethics of Health Care Rationing is a clear and much needed introduction to this increasingly important topic considering and assessing the major ethical problems and dilemmas about the allocation scarcity and rationing of health care Beginning with a helpful overview of why rationing is an ethical problem the authors examine the following key topics What is the value of health How can it be measured What does it mean that a treatment is good value for money What sort of distributive principles utilitarian egalitarian or prioritarian should we rely on when thinking about health care rationing Does rationing health care unfairly discriminate against the elderly and people with disabilities Should patients be held responsible for their health Why does the debate on responsibility for health lead to issues about socioeconomic status and social inequality Throughout the book examples from the US UK and other countries are used to illustrate the ethical issues at stake Additional features such as chapter summaries annotated further reading and discussion questions make this an ideal starting point for students new to the subject not only in philosophy but also in closely related fields such as politics health economics public health medicine nursing and social work

Midnight Rambles David J. Goodwin, 2023-11-07 A micro biography of horror fiction's most influential author and his love hate relationship with New York City By the end of his life and near financial ruin pulp horror writer Howard Phillips Lovecraft resigned himself to the likelihood that his writing would be forgotten Today Lovecraft stands alongside J R R Tolkien as the most influential genre writer of the twentieth century His reputation as an unreformed racist and bigot however leaves readers to grapple with his legacy Midnight Rambles explores Lovecraft's time in New York City a crucial yet often overlooked chapter in his life that shaped his literary career and the inextricable racism in his work Initially New York stood as a place of liberation for Lovecraft During the brief period between 1924 and 1926 when he lived there Lovecraft joined a creative community and experimented with bohemian living in the publishing and cultural capital of the United States He also married fellow writer Sonia H Greene a Ukrainian Jewish migr in the fashion industry However cascading personal setbacks and his own professional ineptitude soured him on New York As Lovecraft became more frustrated his xenophobia and racism became more pronounced New York's large immigrant population and minority communities disgusted him and this mindset soon became evident in his writing Many of his stories from this era are infused with racial and ethnic stereotypes and nativist themes most notably his overtly racist short story *The Horror at Red Hook* set in Red Hook Brooklyn His personal letters reveal an even darker bigotry Author David J Goodwin presents a chronological micro biography of Lovecraft's New York years emphasizing Lovecraft's exploration of the city environment the greater metropolitan region and other locales and how they molded him as a writer and as an individual Drawing from primary sources letters memoirs and published personal reflections and secondary sources biographies and scholarship Midnight Rambles develops a portrait of a talented and troubled author and offers insights into his unsettling beliefs on race ethnicity and immigration
