have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

Variations of the Hero's Journey in Contemporary British, French and Australian Picture Books about the Great War Martin C. Kerby, Denise Burkhard, Alison Bedford, Marion

Gymnich, Margaret M. Baguley, 2025-09-30. This book is grounded in the belief that every nation had its own Great War and that children's picture books are an important barometer of each country's national approach. To explore the depiction of the Great War in modern Australian, British and French children's picture books where this historical event is reimagined in different ways as a futile conflict, as a painful victory and as part of one country's founding mythology, this book uses the concept of the hero's journey as an underlying framework. It claims that this monomythic pattern as developed by Joseph Campbell and modified by Christopher Vogler not only informs all picture books selected for this project but can also be used to highlight the extent to which modern children's picture book authors and illustrators conform to their respective nation's cultural memory. It further maintains that the specific historical context of the Great War in these children's picture books can be used to identify a variant of the hero's journey: the ordinary soldier's journey. This analysis of children's picture books about the Great War through the lens of Campbell's hero's journey will be of interest to both students and researchers in the fields of children's literature, literary theory, history, cultural studies and education.
