Clarence E. Freeman, 2009-03-20 A damning account of federal racism run amuck after a local management trainee has the temerity to show up at the workplace wearing a black face and a white shirt and tie and is subjected to verbal and psychological abuse job and promotion discrimination hate literature and other downright unneighborly acts such as losing

or discarding his completed work by upper management Also evident are several examples of laughable managerial incompetence and silliness and housewives lacking both education and open minds functioning as ersatz managers and drawing salaries comparable to people in private industry who have advanced degrees all the while doing their level best to prevent even educated blacks from attaining their own level of advancement Included also is frank discussion about the fallacies of race and racial superiority and racial purity There are also examples of abusive arrogant and sadistic preppie pork chopper officers insensitive racist stereotyping by an officers wives club a secret pre planned promotion denial arrangement and racially motivated police stops and assaults

Color Theory and Its Application in Art and Design

George A. Agoston, 2013-06-05 This book directly addresses a long felt unsatisfied need of modern color science an appreciative and technically sound presentation of the principles and main offerings of colorimetry to artists and designers written by one of them With his unique blend of training and experience in engineering with his lifelong interest and latterly career in art and art education Dr Agoston is unusually well prepared to convey the message of color science to art and design His book fulfills the hopes I had when I first heard about him and his book I foresee important and long lasting impacts of this book analogous to those of the epoch making writings by earlier artist scientists such as Leonardo Chevreul Munsell and Pope Nearly all persons who have contributed to color science recently as well as formerly were attracted to the study of color by color in art Use of objective or scientific methods did not result from any cold detached attitude but from the inherent difficulties of the problems concerning color and its use by which they were intrigued Modern education and experience has taught many people how to tackle difficult problems by use of scientific methods Therefore color science
