The Politics of Making Kinship Erdmute Alber,David Warren Sabean,Simon Teuscher,Tatjana Thelen,2022-12-09 The long tradition of Western political thought included kinship in models of public order but the social sciences excised it from theories of the state public sphere and democratic order Kinship has however neither completely disappeared from the political cultures of the West nor played the determining social and political role ascribed to it elsewhere Exploring the issues that arise once the divide between kinship and politics is no longer taken for granted The Politics of Making Kinship demonstrates how political processes have shaped concepts of kinship over time and conversely how political projects have been shaped by specific understandings idioms and uses of kinship Taking vantage points from the post Roman era to early modernity and from colonial imperialism to the fall of the Berlin Wall and beyond this international set of scholars place kinship centerstage and reintegrate it with political theory

Trades' Journal ,1891 Official organ of the book trade of the United Kingdom      **Bookseller and the Stationery Trades' Journal** ,1891      Exploring Functional-Cognitive Space Christopher S. Butler, Francisco González-García, 2014-08-28 This book intended primarily for researchers and advanced students expands greatly on previous work by the authors exploring the topography of the multidimensional functional cognitive space within which functional cognitive and or constructionist approaches to language can be located The analysis covers a broad range of 16 such approaches with some additional references to Chomskyan minimalism and is based on 58 questionnaire items each rated by 29 experts on particular models for their importance in the model concerned These ratings are analysed statistically to reveal overall patterns of dissimilarity across models The questionnaire ratings and experts comments are then used together with the authors close reading of the literature in detailed discussion leading to a final dichotomous rating for each feature in each model the results again being analysed statistically The final chapter presents the overall conclusions and suggests how existing collaborations between approaches could be strengthened and new ones created in future research Exploring Functional Cognitive Space has been awarded the 2016 prize of the Spanish Association for Applied Linguistics Asociación Española de Lingüística Aplicada AESLA for work by experienced researchers      Rethinking Juan Rulfo's Creative World Nuala Finnegan, Dylan Brennan, 2016-05-05 Though primarily known for his haunting enigmatic novel Pedro Páramo and the unrelenting depictions of the failures of post revolutionary Mexico in his short story collection El Llano en llamas Juan Rulfo also worked as scriptwriter on various collaborative film projects and his powerful interventions in the area of documentary photography ensure that he continues to inspire interest worldwide Bringing together some of the most significant names in Rulfian scholarship this anthology engages with the complexity and diversity of Rulfo's cultural production The essays in the collection bring the Rulfian texts into dialogues with other cultural traditions and techniques including the Japanese Noh or mask plays and modernist experimentation in the Irish language They also deploy diverse theoretical frameworks that range from Roland Barthes work on studium and punctum in photography to Henri Lefebvre's ideas on space and spatiality and the postmodern insights of Jean Baudrillard on the nature of the simulacrum and the hyperreal In this way innovative approaches are brought to bear on the Rulfian texts as a way of illuminating the rich tensions and anxieties they evoke about Mexico about history about art and about the human condition      **The Banner of Gold** ,1911      *Mary Stewart's People* Margaret H.
