Patrons Clients And Friends Interpersonal Relations And The Structure Of Trust In Society:

Patrons, Clients and Friends S. N. Eisenstadt, Luis Roniger, 1984-10-18 The form of social relations described by the terms patronage and patron client relations is of central concern to sociologists anthropologists and political scientists today Characterised by its voluntary and highly personal but often fully institutionalised nature it is a type of behaviour found in almost every human society It touches upon basic aspects of the construction and regulation of social order and is therefore closely connected to major theoretical problems and controversies in the social sciences This book analyses some special types of these interpersonal relations ritual kinship patron client relations and friendship and the social conditions in which they develop The authors draw upon a wide range of examples from societies as diverse as these of the Mediterranean Latin America the Middle and Far East and the U S S R in their study of the core characteristics of such relationships They look at them as mechanisms of social exchange examine their impact on the institutional structures in which they exist and assess the significance of the variations in their occurrence Their analysis highlights the importance of these relationships in social life and concludes with a stimulating discussion of the ensuring tensions and ambivalences and the ways in which these are dealt with though perhaps never fully overcome *Patrons clients and friends* is the first systematic comparative study of these interpersonal relations and makes the first attempt to relate them to central aspects of social structure It will therefore be an important contribution to both comparative analysis and social theory and will be of interest to a wide range of social scientists

Patrons, Clients, and Empire Colin Newbury, 2003-01-02 *Patrons Clients and Empire* challenges the stereotypes of despotic imperial power in Asian African and Pacific colonies by analysing the relationship between rulers and rulers on both sides of the imperial equation It seeks an answer to the question how were European officials able to govern so many societies for so long Rejecting the usual explanations of collaboration and indirect rule this study looks to pre imperial structures in the indigenous hierarchies which supplied patrimonial models of chieftaincy for territorial government For nawabs chiefs emirs sultans and their officials and followers there were dynastic and economic advantages in accepting the terms of European over rule as well as the threat of deposition For European officials few in numbers and with limited military and financial resources there were ready made systems of local government that could be co opted reformed or left relatively untouched Both sides played politics as patrons and clients within a dual system of administration based on a mixture of force and self interest Surveying a wide variety of cases and employing a patron client model this study embraces pre colonial colonial and post colonial politics in new states It covers the chronology of early European dependency on local rulers the reasons for reversal of status among chiefs and administrators the longer period of political bargaining over access to local resources in terms of land labour and taxes and the ultimate fate of indigenous rulers in the period of party politics leading to independence

Pulling Strings Brenda Danet, 2012-02-01 This is a book about the use of personal influence protektzia in Israel All over the world in both democratic and socialist societies there exists some degree of recognition of the rights of citizens to complain about unjust treatment in organizational encounters While the goals and actual functioning of complaint handling devices may vary bureaucratic role relations are ideally governed by the principles of universalism specificity and affective neutrality In fact patterns of actual behavior frequently differ dramatically from this model giving rise to practices from bribery and embezzlement to nepotism patronage and what is referred to in the United States as pulling strings In Israel protektzia is widespread This book is a major contribution to the systematic sociological study of this phenomenon Drawing on the literature on the functioning of public administration around the world Danet develops a theory about the conditions under which deviations from universalistic norms occur distinguishing four patterns

of organizational culture The theory is then tested in a case study of bureaucratic encounters in Israel Danet's fascinating study brings new insights to the debate regarding the cultural contradictions that continue to confront the still emerging Israeli society The conclusions and classifications of her theory prove invaluable as well to all those interested in organizational culture comparative public administration and dispute processing in general

Filelfo in Milan Diana Robin, 2014-07-14 In this portrait of the flamboyant Milanese courtier Francesco Filelfo 1398-1481 Diana Robin reveals a fifteenth century humanism different from the cool elegant classicism of Medicean Florence and patrician Venice Although Filelfo served such heads of state as Pope Pius II Cosimo de Medici and Francesco Sforza his humanism was that of the other the marginalized exilic writer whose extraordinary mind yet obscure origins made him a misfit at court Through an exploration of Filelfo's disturbing montages in his letters and poems of such events as the Milanese revolution of 1447 and the plague that swept Lombardy in 1451 Robin exposes the extent to which Filelfo once viewed as an apologist for his patrons criticized their militarism sham republicanism and professions of Christian piety This study includes an examination of Filelfo's deeply layered references to Horace Livy Vergil and Petrarch as well as a comparison of Filelfo to other fifteenth century Lombard writers such as Cristoforo da Soldo Pier Candido Decembrio and Giovanni Simonetta Here Robin presents her own editions of

selections from Filelfo's Epistolae Familiares Sforziad Odae and De Morali Disciplina many of these texts appearing for the first time since the Renaissance Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Handbook of Biblical**

Social Values, Third Edition John J. Pilch, Bruce Malina, 2016-11-04 Values are culturally specific This handbook explains select biblical social values in their Mediterranean cultural contexts Some examples of values are altruism freedom family centeredness obedience parenting and power Though the English words for the values described here would be familiar to readers e.g. altruism the meanings of such words differ between cultures In the Mediterranean world for instance altruism is a duty incumbent upon anyone who has surplus It is interpersonal and group specific In the West especially in the United States altruism is impersonal and universally oriented generosity that operates in a highly organized context This handbook not only presents the Mediterranean meanings of these value words but also contrasts those meanings with Western ones

introduction by the editor Slaves and Slave Agency in the Ottoman Empire Stephan Conermann, Gül Şen, 2020-05-11
 Slaves and Slave Agency in the Ottoman Empire offers a new contribution to slavery studies relating to the Ottoman Empire. Given the fact that the classical binary of slavery and freedom derives from the transatlantic experience, this volume presents an alternative approach by examining the strong asymmetric relationships of dependency documented in the Ottoman Empire. A closer look at the Ottoman social order discloses manifold and ambiguous conditions involving enslavement practices rather than a single universal pattern. The authors examine various forms of enslavement and dependency with a particular focus on agency, i.e. the room for maneuver which the enslaved could secure for themselves or else the available options for action in situations of extreme individual or group dependencies. *Migration and Identity in Central Asia* Rano Turaeva, 2015-11-19 This book is an ethnographic and sociolinguistic study of Uzbek migrants in the capital city of Uzbekistan. The ethnographic details of the book represent post-Soviet urban realities on the ground where various forms of belonging clash and kinship ties are reinforced within social safety networks. Theoretically, it challenges the existing theories of identity and identification which often considered the relations between We and Them, taking the We for granted. The book offers in-depth insights into the communication strategies of migrants, the formation of collective consciousness, and the relations within the We domain. Constructed around contradictions regarding Uzbek identity and how various groups relate to one another as different ethnic groups, the theoretical argument of the book is built through such methods and analytical tools as strategic rhetoric and discourse analysis, communication and identity theories, and the analysis of power and dependence. The book will be of interest to students and scholars of Central Asian Studies, Migration Studies, and Central Asian Culture and Society. **The Price of Partnership in the Letter of Paul to the Philippians** Mark A. Jennings, 2018-01-25 Mark A. Jennings challenges the consensus that there is no clear single purpose that shapes the entire epistle to the Philippians, instead arguing that there is significant evidence for Paul to have written the letter with the sole intent of persuading the church to maintain its exclusive partnership with him and his gospel mission. Jennings examines each section of Philippians with standard historical-critical methods, rhetorical criticism, and social-scientific methods, establishing that Paul's argument is rooted in three fundamental tenets: emphasis is first placed on *koinonia* and the agreement that Paul and the Philippians had entered into regarding his apostolic mission; Second, Jennings looks at the repeated proofs that Paul offers that simultaneously affirm the ordained superiority of his apostolic mission and repudiate the claims of his rivals; Third, Jennings analyses the issue of finances in the epistle, discussing how Paul rhetorically transforms the Philippians' financial support into a salient indicator that they esteem his gospel mission authentic. Finally, whereas other scholars have argued that Paul entreats the Philippians to be steadfast in their commitment to the gospel of Christ, Jennings proposes that Paul urges the church to be steadfast in their commitment to his gospel of Christ. Jennings then considers how this seemingly small distinction has profound ramifications for understanding the letter and shows the gap between these interpretations.
