Brant,2012-01-26 Since the birth of cinema at the end of the nineteenth century religion and film have been entwined The Jesus story and other religious narratives were the subject matter of some of the earliest cinema productions and this relationship has continued into the present A recent proliferation of texts conferences and courses bear witness to burgeoning academic interest in the relation between religion and film In this study Jonathan Brant explores the possibility that even films lacking religious subject matter might have a religious impact upon their viewers the possibility of revelation through film The book begins with a reading of Paul Tillich s theology of revelation through culture and continues with a qualitative research project which grounds this theoretical account in the experiences of a group of filmgoers The empirical research takes place in Latin America where the intellectual puzzle and central research questions that drive the thesis arose and developed Brant combines theoretical and empirical research in order to provide fresh insights into the way in which film functions and impacts its viewers and also offers an unusual perspective on the strengths and weaknesses of Tillich s theology of revelation which is seen to focus on the saving and healing power of revelation rather than its communicative content The grounding of the theory by the empirical data results in an increased appreciation of the sensitivity of Tillich s theology to the uniqueness of each film to viewer encounter and the data also suggests a new construal of the revelatory potential of film that is related to the community rather than the individual and to sustained life practice rather than momentary experience Brant reasons that Tillich s account is sensitive and compelling precisely because of its phenomenological attentiveness to real life experience notably Tillich s own experience of the power of art However Brant also suggests that it might be helpful to identify a stronger link than Tillich allows between the subject matter of the artwork the content of revelation and the effect of revelation *Paul Tillich and His System of Paradoxical Correlation* Charles

Amarkwei,2020-05-05 This book shows the paradoxical mode by which Christians keep their faith in the Christian message as they relate with science It reveals how Paul Tillich s method of correlation helps us to understand how Christians interact with science without necessarily conflicting separating and dialoguing and synthesizing with each other It rules out natural theology but provides a non eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith Paul Tillich's Philosophical Theology George Pattison,2014-12-19 Paul Tillich s

Philosophical Theology takes up the challenge as to whether his thought remains relevant fifty years after his death In opposition to those who believe that his writings have little to say to us today this book argues that his thought is largely exemplary of open theological engagement with the contemporary intellectual situation **A History of the Quests for the**

Historical Jesus, Volume 2 Colin Brown,Craig A. Evans,2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today s biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings

even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources *A History of the Quests for the Historical Jesus* not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One sold separately covers the period from the beginnings of Christianity to the end of World War II Volume Two covers the period from the post War era through contemporary debates

Dogmatics after Babel Ruben Rosario Rodriguez, 2018-10-09 Ruben Rosario Rodriguez addresses the long standing division between Christian theologies that take revelation as their starting point and focus and those that take human culture as theirs After introducing these two theological streams that originate with Karl Barth and Paul Tillich respectively Rosario asserts that they both seek to respond to the Enlightenment's critique and rejection of Christianity In so doing they have bought into Enlightenment understandings of human reality and the transcendent Rosario argues that in order to get beyond the impasse between theologies of the Word and culture we need a different starting point He discovers that starting point in two sources 1 through the work of liberation and contextual theologians on the role of the Holy Spirit and 2 through a comparative analysis of the teachings on the hiddenness of God from the three Abrahamic religions Judaism Christianity and Islam Rosario offers a strong argument for why this third theological starting point represents not just a marginal or niche position but a genuine alternative to the two traditional theological streams His work will shift readers understanding of the options in theological discourse beyond the false alternatives of theologies of the Word and culture **A-Z Guide to**

Modern Social and Political Theorists Professor Stuart Sim, Noel Parker, 2014-06-03 The *A Z Guide to Modern Social and Political Theories* is a companion volume to the already published *A Z Guide to Modern Literary and Cultural Theorists* It ranges widely through the social sciences and related areas to identify thinkers who have had a major impact on the development of modern social and political theory and given clear accessible summaries of their work While the accent is on the later twentieth century several up and coming theorists are included to ensure a contemporary edge to the volume classic names in the field from the earlier twentieth century are not neglected and the collection also delves back into the nineteenth century for such founding figures of the social sciences as Marx and Comte The volume is therefore both up to date and mindful of the sources of modern debates *T&T Clark Handbook of Public Theology*, 2022-06-02 T T Clark Handbook of

Public Theology introduces the various philosophical and theological positions and approaches in the emerging discourse of public theology Distinguishing public theology from political theology as well as from liberation theology this book clarifies central terms like public sphere the secular and post secularity in order to highlight the specific characteristics of public theology Its particular focus lies on the ways in which much of public theology has established itself as a contextual theology in politically secular societies aiming to continue the apologetical tradition in this specific context Depending on what is regarded as the most pressing challenge for the reasonable defence of the Christian hope in liberal democracies public theologians have focused on social ethics ecclesiology or Soteriology with the aim to strengthen the virtues needed for democratic citizenship Here attention is being paid to Protestant Catholic and Orthodox perspectives The volume further illustrates the characteristics of the discourse by introducing the ways in which public theologians have responded to concrete challenges arising in the spheres of politics economics ecology sports culture and religion To highlight the international scope of the public theological discourse the volume concludes with a summarizing overview of public theological debates in Africa Asia Australia Europe North America and Latin America

20th-Century Theology Stanley J. Grenz, Roger E. Olson, 2010-01-26 Stanley J Grenz and Roger E Olson offer a sympathetic guide and a critical assessment of the significant theologies and theologians of the 20th century They trace the shifts in theology as it has moved back and forth between God's immanence and God's transcendence

The Scandal of Sacramentality Brannon Hancock, 2014-03-17 The sacrament par excellence the Eucharist has been upheld as the foundational sacrament of Christ's Body called Church yet it has confounded Christian thinking and practice throughout history Its symbolism points to the paradox of the incarnation death and resurrection of God in Jesus of Nazareth which St Paul describes as a stumbling block skandalon Yet the scandal of sacramentality not only illustrated by but enacted in the Eucharist has not been sufficiently accounted for in the ecclesiologies and sacramental theologies of the Christian tradition Despite what appears to be an increasingly post ecclesial world sacrament remains a persistent theme in contemporary culture often in places least expected Drawing upon the biblical image of the Word made flesh this interdisciplinary study examines the scandal of sacramentality along the twofold thematic of the scandal of language word and the scandal of the body flesh While sacred theology can think through this scandal only at significant risk to its own stability the fictional discourses of literature and the arts are free to explore this scandal in a manner that simultaneously augments and challenges traditional notions of sacrament and sacramentality and by extension what it means to describe the Church as a eucharistic community
