

PRAGMATISM

The Nature of Man. Pragmatism looks at man and his behavior and attempts to answer this question: Could man have evolve into his present stage from the natural universe as we know it? To this question, the pragmatist answers yes. He points to the facts that support Darwin's theory of evolution. The proposition that man is continuous with the world is a basic tenet of pragmatism and is a part of nature, not separated from it and continuous with nature.
