Parenting Through Illness Leigh Collins, Courtney Nathan, 2016-09-27 Parents get sick Their lives change radically and quickly This book offers immediate practical and experienced advice for adult family members and others responsible for the wellbeing of children when one parent has a serious illness The authors are both clinical social workers with years of training and time spent with children and families in crisis They establish a clear and authoritative voice while keeping a tone of encouragement throughout With its matter of fact language the book is organized to make it easy for parents to turn to the sections they most need when they need them Collins and Nathan keep their readers focused on the child in every situation while always supporting reasonable boundaries in positive self care for the adults who serve them The authors remind us that the task of parenting is hard enough even when Mom and Dad are healthy energetic and emotionally strong Add a diagnosis of cancer heart disease or a

debilitating accident to the mix and parenting can quickly become overwhelming They acknowledge that anyone faced with a serious health crisis will be challenged daily to decide on treatment options to reorient priorities and to deal with the many stages of grief that humans suffer when confronted with survival issues They help us remember that one member's illness will affect the entire family system and explain how The book is unique It deals with any kind of serious illness not just cancer It explains how children of different age ranges commonly react to a parent's illness or other family crisis It suggests specific language in talking to children of different ages A full chapter is devoted to advantages and disadvantages of using information technology rarely covered in other books on this topic Based on extensive qualitative research Includes excerpts from interviews with parents and children coping with illness in the family Both authors rely on their training but also on early life experience in which they encountered traumatic family events As a teenager Courtney Nathan lost her mother to breast cancer Leigh Collins suffered a terrible accident as a young child and was confined in hospital for many weeks Their book reflects a dedication to other families who face such life altering circumstances The book has received wide endorsement from medical doctors and social service personnel who know the urgent need for this information for their patients and

Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In Death and Dying An Annotated Bibliography of the Thanatological Literature John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill

Palliative Medicine Doreen Oneschuk, Neil Hagen, Neil MacDonald, 2012-03-15 Palliative care is now an integral part of the undergraduate medical curriculum Medical education across the board is adopting a case based approach This book uses a series of cases to illustrate critical points in palliative medicine The case studies have been carefully chosen to reflect real life clinical practice The contributors illustrate through the case studies the desired skills attitudes and knowledge required in this field of medicine Since publication of the second
