Presidential Crisis Rhetoric And The Press In The Post Cold War World:

Presidential Crisis Rhetoric and the Press in the Post-Cold War World Jim A. Kuypers, 1997-08-26 Kuypers combines rhetorical theory and framing analysis in an examination of the interaction of the press and the president during international crisis situations in the post Cold War world Three crises are examined Bosnia Haiti and the North Korean nuclear capability issue Kuypers effectively demonstrates the changed nature of presidential crisis rhetoric since the end of the Cold War Kuypers employs a new historical critical approach to analyze both the press and the Clinton administration's handling of three international crisis situations Using case studies of Bosnia Haiti and the alleged North Korean nuclear buildup in 1993 he examines contemporary presidential crisis communication and the agenda setting and agenda extension functions of the press The importance of this study lies in its timeliness President Clinton is the first atomic age president not to have the Cold War meta narrative to use in legitimating international crises Prior studies in presidential crisis rhetoric found that the president received broad and consistent support during times of crisis Kuypers found that the press often advanced an oppositional frame to that used by the Clinton administration The press frames were found to limit the options of the President even when the press supported a particular presidential strategy This is a major study that will be of interest to scholars and researchers of the press the modern presidency and American foreign policy

Navigating the Post-Cold War World Jason A. Edwards, 2008-12-16 Jason A Edwards explores the various rhetorical choices and strategies employed by former President Bill Clinton to discuss foreign policy issues in a new post Cold War era Edwards argues that each American president has situated himself within the same foreign policy paradigm drawing upon the same set of ideas and utilizing the same basic vernacular to discuss foreign policy He describes how former presidents and President Clinton in particular made modifications to this paradigm leaving a rhetorical signature that tells us as much about the nature of their presidency as it does about the international environment they faced With the end of the Cold War came the end of a relatively stable international order This end sparked intense debates about the new direction of American foreign policy As Bill Clinton took office he developed a new lexicon of words in order to discuss America's changing role in the world and other major international issues of the time without being able to fall into Cold War era rhetoric By examining the nuances and unique contributions President Clinton made to American foreign policy rhetoric Edwards shows how his distinct rhetorical signature will influence future administrations

The Prospect of Presidential Rhetoric Martin J. Medhurst, 2008-01-17 Culminating a decade of conferences that have explored presidential speech The Prospect of Presidential Rhetoric assesses progress and suggests directions for both the practice of presidential speech and its study In Part One following an analytic review of the field by Martin Medhurst contributors address the state of the art in their own areas of expertise Roderick P Hart then summarizes their work in the course of his rebuttal of an argument made by political scientist George Edwards that presidential rhetoric lacks political impact Part Two of the volume consists of the forward

looking reports of six task forces comprising more than forty scholars charged with outlining the likely future course of presidential rhetoric as well as the major questions scholars should ask about it and the tools at their disposal The Prospect of Presidential Rhetoric will serve as a pivotal work for students and scholars of public discourse and the presidency who seek to understand the shifting landscape of American political leadership Ideals, Interests, and U.S. Foreign Policy from George H. W. Bush to Donald Trump Ronald E. Powaski, 2018-09-10 This volume discusses the presidential foreign policies of the post Cold War era beginning with George H W Bush and ending with the first 17 months of Donald Trump's presidency During this period the United States emerged from the Cold War as the world's most powerful nation Nevertheless the presidents of this era faced a host of problems that tested their ability to successfully blend realism and idealism Some were more successful than others **How Strategic Communication Shapes Value and Innovation in Society** Betteke van Ruler, Iekje Smit, Øyvind Ihlen, Stefania Romenti, 2017-11-03 Let's Talk Society and the society we're talking about is in transition to a green and sustainable society an inclusive society and an innovative and reflective society What is our role as communication professionals in all of this How can we foster public debate This book addresses these challenges and offers some answers Bosnia and Beyond Jeanne M. Kuypers, Andrew King, 2001-03-30 Kuypers King and their contributors explore the conception of rhetoric of eleven key American rhetoricians through analyses of their life's work Each chapter provides a sense of that scholar's conception of rhetoric be it through criticism theory or teaching The communication discipline often highlights the work of others outside the discipline however it rarely acclaims the work of its own critics teachers and theorists In this collection the essays explore the innate mode of perception that guided the rhetorical understanding of the early critics In so doing this work dispels the myth that the discipline of Speech Communication was spawned from a monolithic and rigid center that came to be called neo Aristotelianism Scholars and researchers involved with the history of rhetoric rhetorical criticism and theory and American public address will find this
