Presidential Election 1968 Edward W. Knappman, 1970

Legal History of the Presidential Election Campaign Fund Act, 1991

Presidential Elections, 1789-2008 Donald

Richard Deskins, Hanes Walton, Sherman C. Puckett, 2010 Hanes Walton Donald Deskins and Sherman Puckett have produced a highly impressive collection and valuable contribution to the literature on American electoral politics. This work is indispensable for academic libraries, political scientists, historians, and serious students of American government. Immanuel Ness, Professor, Department of Political Science, Brooklyn College, City University of New York, provides massive amounts of information about presidential elections which are not readily available elsewhere. Unprecedented coverage in one volume of every single American presidential election. James Gimpel, Professor of Government, University of Maryland, describes this as an extraordinary research endeavor, the most comprehensive set of aggregate election data ever assembled. Painstakingly researched, this color-coded volume presents data for every presidential election from 1789 to 2008. Unlike most, the wide-ranging narrative for this atlas identifies racial patterns in the vote. Everyone who studies or is interested in presidential elections should have this impressive collection of statistical data in their libraries. A visual gem for the digital age. Robert Smith, Professor of Political Science, San Francisco State University, describes *Presidential Elections 1789-2008* as a genuine tour de force that captures in an extremely accessible and comprehensive way the electoral geography of America's presidential elections from Washington to Obama. An invaluable addition to the library of all those interested in presidential elections and U.S. politics. Marion Orr, Frederick Lippitt, Professor of Public Policy and Professor of Political Science, Brown University, states that this volume sets an extraordinarily high standard in scholarship, completeness, description, and explanation of our political process. It has been said that all politics are local, but never before has this been demonstrated with such clarity and panache using the simple method of standardized tables summarizing voting, then showing state and county breakdowns of the numbers, greatly strengthened by beautiful full-color maps and cartograms. Every scholar of politics and democracy will benefit from the work laid out in this volume. Keith Clarke, Professor of Geography, University of California, Santa Barbara, describes *Presidential Elections* as an almanac of the popular vote in every presidential election in American history, analyzed at the county level with histories of each campaign, graphs, and stunning four-color maps. Most Americans are familiar with the crude red-state-blue-state maps used by commentators and campaign strategists, and even for want of an alternative by many academics. In providing a higher resolution view of voting behavior, the authors of this new volume enable examination of local and regional political trends that are invisible in state-level aggregations. *Presidential Elections* will enable scholars to more subtly analyze voting behavior, campaigns, and presidential politics. Commentators will use it to analyze trends and trace the historical evolution of new coalitions and voting blocs. Strategists will use it to plan campaigns and mobilize constituencies. *Presidential Elections* will become the standard almanac on the subject, a required resource for academic and public libraries as well as

for scholars consultants and pundits nationwide Donald R Deskins Jr is a political geographer and Emeritus Professor of Sociology and a former Associate Dean of the Horace H Rackham School of Graduate Studies at the University of Michigan Hanes Walton Jr is Professor of Political Science at the University of Michigan He also holds positions as Senior Research Scientist at the Center for Political Studies and as a faculty member in the Center for Afroamerican and African Studies Sherman C Puckett is a Ph D graduate of the University of Michigan in urban and regional planning He was a mayoral appointee in the data processing department of the Coleman A Young administration in the City of Detroit and recently retired from Wayne County government as manager of technology geographic information systems and development of maintenance management systems

Library of Congress Catalogs Library of Congress,1976 The History of American Electoral Behavior Joel H. Silbey,Allan G. Bogue,2015-03-08 Concentrating on the American historical experience the contributors to this volume apply quantitative techniques to the study of popular voting behavior Their essays address problems of improving conceptualization and classifications of voting patterns accounting for electoral outcomes examining the nature and impact of constraints on participation and considering the relationship of electoral behavior to subsequent public policy The writers draw upon various kind of data time series of election returns census enumerations that provide the social and economic characteristics of voting populations and individual poll books and other lists that indicate whom the individual voters actually supported Appropriate statistical techniques serve to order the data and aid in evaluating relationships among them The contributions cover electoral behavior throughout most of American history as reflected by collections in official and private archives Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Library of Congress Catalog Library of Congress,1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **Catalog of Copyright Entries.
