Presidential Transitions And Foreign Affairs:

Presidential Transitions and Foreign Affairs Frederick C. Mosher, W. David Clinton, Daniel George Lang, 1987 **What Makes a Successful Transition?** David W. Clinton, Daniel G. Lang, 1993-03-25 This work continues the Miller Center's study of presidential transitions. The purpose of this volume is to suggest some yardsticks to use to measure the success of an American presidential transition and to challenge the common notion that success is to be found in the degree to which the incoming president and his administration accomplish everything they desire or have promised. Instead, the editors describe transitions as highly pluralistic institutions and contend that true success is to be found in the degree to which all these players can obtain something of what they want from a transition. Concentrating on transitions as they affect and are affected by foreign and security policy, the editors identify major players in the turnover and their interests. Seven recognized authorities in politics, government, and foreign policy have contributed essays to this work in which they respond to the arguments posed by the editors, demonstrating the range of opinions on this subject. The concluding rejoinder by the editors draws connections between the varied opinions. Co-published with the Miller Center of Public Affairs. Papers on Presidential Transitions and Foreign Policy Kenneth W. Thompson, 1986-07-09 Presidential Transition Effectiveness Act United States. Congress. Senate. Committee on Governmental Affairs, 1988 *Difficult Transitions* Kurt M. Campbell, James B. Steinberg, 2009-11-09 New presidents have no honeymoon when it comes to foreign policy. Less than three months into his presidency, for example, John F. Kennedy authorized the disastrous effort to overthrow Fidel Castro at the Bay of Pigs. More recently, George W. Bush had been in office for less than eight months when he was faced with the attacks of September 11. How should an incoming president prepare for the foreign policy challenges that lie immediately ahead? That's the question Kurt Campbell and James Steinberg tackle in this compelling book. Drawing on their decades of government service in the corridors of Capitol Hill, the intimate confines of the White House, the State Department, and the bare knuckles Pentagon bureaucracy, Campbell and Steinberg identify the major foreign policy pitfalls that face a new presidential administration. They explain clearly and concisely what it takes to get foreign policy right from the start. The authors set the scene with a historical overview of presidential transitions and foreign policy, including case studies of such prominent episodes as the Black Hawk Down tragedy in Somalia that shook the Clinton administration in its first year and the Bush administration's handling of the collision between a U.S. reconnaissance plane and a Chinese fighter jet in the spring of 2001. They pinpoint the leading causes of foreign policy fiascos, including the tendency to write off the policies of the outgoing administration and the failure to appreciate the differences between campaign promises and policy realities. Most important, they provide a road map to help the new administration steer clear of the land mines ahead. America's next president will confront critical foreign policy decisions from day one. *Difficult Transitions* provides essential guidance for getting those choices right.
