The Presidents of American Fiction Michael J. Blouin,2022-11-03 *The Presidents of American Fiction* brings together American literature history and political science to explore the most influential fictionalized accounts of the presidency from the early 19th century to the time of Trump Of late popular understandings of the presidency are being radically re written consider for example the distinctive myths that accompanied the ascent of the Obama and Trump administrations and many readers of all stripes are radically reimagining the office and its holder Placing these changes within a broader cultural context Michael J Blouin investigates narratives involving fictional presidents from the supposedly factual to the outright fantastical within their distinct literary and historical moments The author considers representative texts including works penned by James Fenimore Cooper from the Jacksonian moment Gore Vidal in the age of Nixon and Vietnam and Philip Roth in the neoliberal period Through detailed readings that question how American presidents function as characters within the popular imagination this book examines the presidency as a complex ever evolving trope and in so doing enhances our appreciation of American literature s inextricable link with American politics **Writing History with Lightning** Matthew Christopher Hulbert,John C. Inscoe,2019-02-05 Films possess virtually unlimited power for crafting broad interpretations of American history Nineteenth century America has proven especially conducive to Hollywood imaginations producing indelible images like the plight of Davy Crockett and the defenders of the Alamo Pickett s doomed charge at Gettysburg the proliferation and destruction of plantation slavery in the American South Custer s fateful decision to divide his forces at Little Big Horn and the onset of immigration and industrialization that saw Old World lifestyles and customs dissolve amid rapidly changing environments Balancing historical nuance with passion for cinematic narratives *Writing History with Lightning* confronts how movies about nineteenth century America influence the ways in which mass audiences remember understand

and envision the nation's past. In these twenty-six essays, divided by the editors into sections on topics like frontiers, slavery, the Civil War, the Lost Cause, and the West, notable historians engage with films and the historical events they ostensibly depict. Instead of just separating fact from fiction, the essays contemplate the extent to which movies generate and promulgate collective memories of American history. Along with new takes on familiar classics like *Young Mr. Lincoln* and *They Died with Their Boots On*, the volume covers several films released in recent years, including *The Revenant*, *12 Years a Slave*, *The Birth of a Nation*, *Free State of Jones*, and *The Hateful Eight*. The authors address Hollywood epics like *The Alamo* and *Amistad*, arguing that these movies flatten the historical record to promote nationalist visions. The contributors also examine overlooked films like *Hester Street* and *Daughters of the Dust*, considering their portraits of marginalized communities as transformative perspectives on American culture. By surveying films about nineteenth-century America, *Writing History with Lightning* analyzes how movies create popular understandings of American history and why those interpretations change over time.
