

The background of the cover is a photograph of a desert landscape. In the foreground, there is a large, rounded rock formation, possibly a natural rock shelter or a small cave entrance, illuminated by a warm, orange light from the setting or rising sun. The sky is a deep blue with some wispy clouds. The overall mood is mysterious and evocative of a remote, ancient location.

[Violence, Discourse, and Politics in China's Uyghur Region](#)

Pablo A. Rodríguez-Merino, 2022-12-30 This book investigates how Uyghur-related violent conflict and Uyghur ethnic minority identity, religion and the Xinjiang region more broadly became constituted as a terrorism problem for the Chinese state. Building on securitization theory, Critical Terrorism Studies (CTS) and the scholarly definitional debate on terrorism, it develops the concept of terroristization as a critical analytical framework for the study of historical processes of threat construction. Investigating the violent events reported in Xinjiang since the early 1980s, the evolving discursive patterns used by the Chinese state to make sense of violent incidents and the crackdown policies that the official terrorism discourse has legitimized, the book demonstrates how the securitization and later terroristization of Xinjiang and the Uyghurs is the result of a discursive and political choice of the Chinese state. The author reveals the contingent and unstable nature of such

construction and how it problematizes the inevitability of the rationale behind China's war on terror that has prescribed a brutal crackdown as the most viable approach to governing the tensions that have historically characterized China's rule over the Turkic Muslim ethnic minorities in Xinjiang. This book will be of interest to scholars and students of the politics of contemporary China, security and ethnic minority issues, International Relations and Security, as well as those adopting discursive approaches to the study of security, notably those within the critical security and terrorism studies fields.
