Road To Total Freedom:

The Road to Total Freedom Roy Wallis, 1976 *The road to total freedom* Roy Wallis, 1974 **Free Zone**
Scientology Aled Thomas, 2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades **The Cambridge Companion to New Religious Movements** Olav Hammer, Mikael Rothstein, 2012-08-30 New religions emerge as distinct entities in the religious landscape when innovations are introduced by a charismatic leader or a schismatic group leaves its parent organization New religious movements NRMs often present novel doctrines and advocate unfamiliar modes of behavior and have therefore often been perceived as controversial NRMs have however in recent years come to be treated in the same way as established religions that is as complex cultural phenomena involving myths rituals and canonical texts This Companion discusses key features of NRMs from a systematic comparative perspective summarizing results of forty years of research The volume addresses NRMs that have caught media attention including movements such as Scientology New Age the Neopagans the Sai Baba movement and Jihadist movements active in a post 9 11 context An essential resource for students of religious studies the history of religion sociology anthropology and the psychology of religion **California. Court of Appeal (2nd Appellate District). Records and Briefs** California (State)., Received document entitled EXHIBITS IN SUPPORT OF PETITION FOR WRIT **The Nuwaubian Nation** Susan J. Palmer, 2010 Presenting fresh and important insights into racialist spirituality and the social control of unconventional religions in America The Nuwaubian Nation follows the extraordinary career of Dwight York who in his teens started out in a New York street gang but converted to Islam in prison Emerging as a Black messiah York proceeded to break the Paleman s spell of Kingu and to guide his people through a series of racial religious identities that demanded dramatic changes in costume gender roles and lifestyle Referring to theories in the sociology of deviance and media studies the author tracks the escalating hostilities against the group that climaxed in a Waco

style FBI raid on the Nuwaubian compound in 2002 The Church of Scientology Hugh B. Urban, 2013-02-24 Scientology's long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century To its detractors L Ron Hubbard's space age mysticism is a moneymaking scam and sinister brainwashing cult But to its adherents it is humanity's brightest hope Few religious movements have been subject to public scrutiny like Scientology yet much of what is written about the church is sensationalist and inaccurate Here for the first time is the story of Scientology's protracted and turbulent journey to recognition as a religion in the postwar American landscape Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood's celebrity elite Urban paints a vivid portrait of Hubbard the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U S government One FBI agent described him as a mental case but to his followers he is the man who solved the riddle of the human mind Urban details Scientology's decades long war with the IRS which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church's efforts to suppress the online dissemination of its esoteric teachings The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who gets to define it **Star Road** Matthew Costello, Rick Hautala, 2021-06-20 Ivan Delgado a

former leader of a rebel group called the Runners is released from jail on the condition that he carry out a secret mission for the World Council His assignment is simple stay undercover but do absolutely anything necessary to reach the planet Omega IX and offer the renegade Runners clemency if they surrender which may be complicated since Ivan's brutally violent brother has taken lead of the Runners in Ivan's absence In search of the Runners Ivan catches a ride out to the wildest reaches of the galaxy via a mysterious transportation system the Star Road His fellow passengers on Star Road Vehicle 66 are a suspicious group all with their own hidden reasons for traversing the star road As the travelers contend with increasingly deadly encounters it isn't long before suspicions build against Ivan And as the Runners must choose one brother over the other on a planet filled with ancient secrets those who survive will confront a mystery that changes the Star Road and humanity forever

Among the Scientologists Donald A. Westbrook, 2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has systematically addressed such questions as what do Scientologists themselves have to say about their religion's history theology and practices How does Scientology act as a religion for them What does lived religion look like for a Scientologist This is not so much a book about the Church of Scientology its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or

ignored perspectives of Scientologists themselves Drawing on six years of interviews fieldwork and research conducted among members of the Church of Scientology this groundbreaking work examines features of the new religion s history theology and praxis in ways that move discussion beyond apostate driven and expos accounts *L. Ron Hubbard and Scientology Studies* Donald A. Westbrook, 2022-07-14 This Element surveys the history and practice of Scientology studies over the past sixty years and offers resources for scholars and students moving forward Section 1 reviews the history of academic research on the subject from 1958 to the present day Section 2 draws on the author s fieldwork with the Church of Scientology to illuminate how founder L Ron Hubbard 1911 86 is viewed among contemporary members Section 3 considers Hubbard s influence and legacy in terms of the church sites and institutions that exist today in connection with the soteriological Bridge to Total Freedom Section 4 introduces English language archival resources and their strengths Section 5 proposes some open areas for Scientology researchers Finally glossaries of terms and appendices are included with major dates in Hubbard s life and Scientology research and bibliographical information for major archival collections in North America
