Road To Nineveh Sir Austen Henry Layard:

Road to Nineveh Nora Kubie, 1975 Road to Nineveh Nora Benjamin Kubie, 1964 Land Between the Rivers Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world's leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage The Mesopotamian Riddle Joshua Hammer, 2025-03-18 As early as 3500 BCE scribes in the mud walled city state of Sumer used a reed stylus to press tiny wedge shaped symbols into clay For three thousand years the script chronicled the military conquests scientific discoveries and epic literature of the grand kingdoms of Mesopotamia Assyria Babylon the mighty Achaemenid Empire along with precious minutia about every day life so long ago But as the palaces of these once great kingdoms sank beneath the desert sands the meaning of these characters was lost London 1857 Colossal sculpture of winged bulls and alabaster bas reliefs depicting cities under siege and vassals bearing tributes to Biblical kings lined the halls of the British Museum In the Victorian era's obsession with the triumphs of human progress the mysterious kingdoms of ancient Mesopotamia the very cradle of civilization had captured the public imagination Yet Europe's best philologists struggled to decipher the strange characters Cuneiform seemed to have thousands of symbols with some scholars claiming each could be pronounced in up to eight nine even ten different ways Others insisted they'd cracked the code and deciphered inscriptions that corresponded precisely to the Old Testament proving the veracity of the Word of God Was it all a hoax A delusion A rollicking adventure through the holden age of archaeology this book tracks the decades long

race to decipher the oldest script in the world It s the story of a swashbuckling young archaeologist a suave British military officer and a curmudgeonly Irish rector all vying for glory from the ruins of Persepolis to the opulence of Ottoman era Baghdad in a quest to unearth the relics of lost civilizations and unlock the secrets of humanity s past **The Monuments of Nineveh. From Drawings Made on the Spot by Austen Henry Layard, Esq., D.C.L. Illustrated in One Hundred Plates** Sir Austen Henry Layard, University of St. Andrews. Library. Reserve Collection, 1849 *Reforging a Forgotten History* Sargon Donabed, 2015-02-27 Traces the dynamic history of Iraq in the 20th century and reinserts the modern remnants of these peoples into its day to day concerns *From Archaeology to Spectacle in Victorian Britain* Shawn Malley, 2016-04-15 In his examination of the excavation of ancient Assyria by Austen Henry Layard Shawn Malley reveals how by whom and for what reasons the stones of Assyria were deployed during a brief but remarkably intense period of archaeological activity in the mid nineteenth century His book encompasses the archaeological practices and representations that originated in Layard s excavations radiated outward by way of the British Museum and Layard s best selling *Nineveh and Its Remains* 1849 and were then dispersed into the public domain of popular amusements That the stones of Assyria resonated in debates far beyond the interests of religious and scientific groups is apparent in the prevalence of poetry exhibitions plays and dioramas inspired by the excavation Of particular note correspondence involving high ranking diplomatic personnel and museum officials demonstrates that the treasures brought home to fill the British Museum served not only as signs of symbolic conquest but also as covert means for extending Britain s political and economic influence in the Near East Malley takes up issues of class and influence to show how the middle class Layard s celebrity status both advanced and threatened aristocratic values Tellingly the excavations prompted disturbing questions about the perils of imperial rule that framed discussions of the social and political conditions which brought England to the brink of revolution in 1848 and resurfaced with a vengeance during the Crimean crisis In the provocative conclusion of this meticulously documented and suggestive book Malley points toward the striking parallels between the history of Britain s imperial investment in Mesopotamia and the contemporary geopolitical uses and abuses of Assyrian antiquity in post invasion Iraq *The Amateur and the Professional* P. J. A. Levine, Philippa Levine, 2003-02-13 This book highlights the growing divide in nineteenth century intellectual circles between amateur and professional interest and explores the institutional means whereby professional ascendancy was achieved in the broad field of studies of the past It is concerned with how antiquarian gentlemen of leisure pursuing their interests through local archaeological societies were by the end of the century relegated to the sidelines of the now university based discipline of history At the same time it explores the theological as well as technical barriers which arrested the development of archaeology in this period This is a notable contribution to the intellectual history of Victorian England attending not simply to the ideas perpetrated by these communities of scholarship but to their social status relating such social consideration to a more traditional intellectual history to create a new social history of ideas **Handbook to**

Bernhardsson,2013-08-21 The looting of the Iraqi National Museum in April of 2003 provoked a world outcry at the loss of artifacts regarded as part of humanity s shared cultural patrimony But though the losses were unprecedented in scale the museum looting was hardly the first time that Iraqi heirlooms had been plundered or put to political uses From the beginning of archaeology as a modern science in the nineteenth century Europeans excavated and appropriated Iraqi antiquities as relics of the birth of Western civilization Since Iraq was created in 1921 the modern state has used archaeology to forge a connection to the ancient civilizations of Mesopotamia and or Islamic empires and so build a sense of nationhood among Iraqis of differing religious traditions and ethnicities This book delves into the ways that archaeology and politics intertwined in Iraq during the British Mandate and the first years of nationhood before World War II Magnus Bernhardsson begins with the work of British archaeologists who conducted extensive excavations in Iraq and sent their finds to the museums of Europe He then traces how Iraqis growing sense of nationhood led them to confront the British over antiquities law and the division of archaeological finds between Iraq and foreign excavators He shows how Iraq s control over its archaeological patrimony was directly tied to the balance of political power and how it increased as power shifted to the Iraqi government Finally he examines how Iraqi leaders including Saddam Hussein have used archaeology and history to legitimize the state and its political actions Why the Bible Began Jacob L. Wright,2023-08-17 With a bold new thesis about the discovery of

peoplehood this book revolutionizes our understanding of the Bible and its historical achievement **Uncovering the Past** William H. Stiebing,1994 This study focuses on the development of archaeology as a discipline tracing the milestones in the evolution of systematic excavation It covers the entire history of archaeology from the heroic age 1450 1925 to the advanced stages of archaeology beg *John Company's Last War* Barbara English,2025-10-27 In the nineteenth century the British crown expanded its reach in almost all parts of the world from China to America overpowering the Portuguese Spanish Dutch and the French The period also witnessed the contestation between the English East India Company the Czarist Russia and the Qajar Persian kingdom to prevent Russian expansion into India by creating a buffer zone in Central Asia along with the support of the Emirate of Afghanistan The English East India Company s feud with the Persians in 1856 also known as the Anglo Persian war forms the basis of this monograph This book contains descriptions taken from memoirs journals letters and correspondences from lower and upper officials military men and the Governor General It also focuses on the exploits of the Victorian military and the arrival of the British in cities such as Kabul Herat and Tehran **Dictionary of the Ancient Near East** Piotr Bienkowski,Alan Millard,2010-03-09 An authoritative guide to the whole of the cradle of civilization
