Does God Believe in Human Rights? Nazila Ghanea-Hercock, Alan Andrew Stephens, Raphael Walden, 2007 Where can religions find sources of legitimacy for human rights How do and how should religious leaders and communities respond to human rights as defined in modern International Law When religious precepts contradict human rights standards for example in relation to freedom of expression or in relation to punishments which should trump the other and why Can human rights and religious teachings be interpreted in a manner which brings reconciliation closer Do the modern concept and system of human rights undermine the very vision of society that religions aim to impart Is a reference to God in the discussion of human rights misplaced Do human fallibilities with respect to interpretation judicial reasoning and the understanding of human oneness and dignity provide the key to the undeniable and sometimes devastating conflicts that have arisen between and within religions and the human rights movement In this volume academics and lawyers tackle these most difficult questions head on with candour and creativity and the collection is rendered unique by the further contributions of a remarkable range of other professionals including senior religious leaders and representatives journalists diplomats and civil servants both national and international

Most notably the contributors do not shy away from the boldest question of all summed up in the book's title The thoroughly edited and revised papers which make up this collection were originally prepared for a ground breaking conference organised by the Clemens Nathan Research Centre the University of London Institute of Commonwealth Studies and Martinus Nijhoff Brill

Theological Issues in Christian-Muslim Dialogue Charles Tieszen,2018-06-08 Theological Issues in Christian Muslim Dialogue addresses the main theological topics of discussion that appear in Christian Muslim engagement Many of these topics originate in the medieval period and the earliest encounters between Christians and Muslims Even so the topics persist in contemporary contexts of dialogue and engagement Christians and Muslims still discuss whether or not God should be understood as strictly one or as a Trinity in Unity and debates over the nature of revelation or prophethood remain Theological reflection therefore must continue to be brought to bear on these topics in light of their history and in view of their applicability to growing contexts of inter religious engagement Theological Issues in Christian Muslim Dialogue is a comprehensive theological sourcebook for students learning about Christian Muslim relations and practitioners engaged in Christian Muslim dialogue **Joyful Witness in the Muslim World (Mission in Global Community)** Evelyne A.

Reisacher,2016-09-20 This up to date textbook features global perspectives on current Christian engagement with Islam equipping readers for mission among Muslims Evelyne Reisacher who has worked extensively with Muslims in Europe helps readers move from fear to joy as they share the gospel with Muslims Reisacher surveys areas where Muslims and Christians encounter one another in the twenty first century highlighting innovative models of Christian witness in everyday life Drawing on insights from global Christianity this survey takes account of diverse conceptions of Muslim Christian relations The book may surprise those who believe mission among Muslims is nearly impossible This is the first book in the Mission in Global Community series which reframes missiological themes and studies for students around the common theme of mission as partnership with others Series authors draw upon their own global experience and that of their global colleagues to illumine present realities and chart a course into the future Series editors are Scott W Sunquist and Amos Yong Ritual Participation and Interreligious Dialogue Marianne Moyaert,Joris Geldhof,2015-04-23 Shared ritual practices multi faith celebrations and interreligious prayers are becoming increasingly common in the USA and Europe as more people experience religious diversity first hand While ritual participation can be seen as a powerful expression of interreligious solidarity it also carries with it challenges of a particularly sensitive nature Though celebrating and worshiping together can

enhance interreligious relations cross riting may also lead some believers to question whether it is appropriate to engage in the rituals of another faith community Some believers may consider cross ritual participation as inappropriate transgressive behaviour Bringing together leading international contributors and voices from a number of religious traditions Ritual Participation and Interreligious Dialogue delves into the complexities and intricacies of the phenomenon They ask what are the promises and perils of celebrating and praying together What are the limits of ritual participation How can we make sense of feelings of discomfort when entering the sacred space of another faith community The first book to focus on the lived dimensions of interreligious dialogue through ritual participation rather than textual or doctrinal issues this innovative volume opens an entirely new perspective *Islam and its Past* Carol Bakhos, Michael Cook, 2017-06-03 *Islam and its Past* J hiliyya Late Antiquity and the Qur an brings together scholars from various disciplines and fields to consider Islamic revelation with particular focus on the Qur an The collection provides a wide ranging survey of the development and current state of Qur anic studies in the Western academy It shows how interest in the field has recently grown how the ways in which it is cultivated have changed how it has ramified and how difficult it now is for any one scholar to keep abreast of it Chapters explore the milieu in which the Meccan component of the Qur an made its appearance The general question is what we can say about that milieu by combining a careful reading of the relevant parts of the Qur an with what we know about the religious trends of Late Antiquity in Arabia and elsewhere More specifically the issue is what we can learn in this way about the manner in which the polytheists of the Qur an related to the Jewish and Christian traditions were they Godfearers in the sense familiar from the study of ancient Judaism It looks at the Qur an as a text of Late Antiquity not just considering those features of it that could be seen as normal in that context but also identifying what is innovative about it against the Late Antique background Here the focus is on the believers rather than the polytheists The volume also engages in different ways with notions of monotheism in pre Islamic Arabia This collection provides a broad survey of what has been happening in the field and concrete illustrations of some of the more innovative lines of research that have recently been pursued
