Scythian Treasures in Oxford Ashmolean Museum, Michael J. Vickers, 1979 Heather Wilson , 1999 **Artifacts from the Ancient Silk Road** William E. Mierse, 2022-12-01 Artifacts from the Ancient Silk Road explores the interconnectivity of the Eurasian continent from 4000 BCE to 1000 CE It focuses on the role played by Central Asia through which passed the major trade routes the Silk Roads Artifacts from the Ancient Silk Road covers life along the Silk Road over 5000 years as it can be understood by considering objects In this first object based study to consider all of the peoples involved on the Silk Roads objects provide the vehicles for explorations of different aspects of life for the various peoples of the Silk Roads including the sedentary peoples who established urban life on the Silk Roads the steppe nomads who regularly interacted with the settled peoples and the peoples at either end of the Silk Roads who drove certain kinds of economic exchanges The book looks at Central Asia as an international zone during ancient times when multiple religious political and technological ideas found acceptance in the region and allows for a better understanding of how some ideas and forms developed in Central Asia while others passed through or were modified *Greco-Scythian Art and the Birth of Eurasia* Caspar Meyer, 2013-11 Drawing on evidence from archaeology art history and textual sources to contextualize Greco Scythian metalwork in ancient society Meyer offers unique introductions to the archaeology of Scythia and its ties to Asia and classical Greece modern museum and visual culture studies and the intellectual history of classics in Russia and the West *The Cambridge Ancient History* John Boardman, I. E. S. Edwards, E. Sollberger, N. G. L. Hammond, 1992-01-16 Volume III Part II carries on the history of the Near East from the close of Volume III Part I and covers roughly the same chronological period as Volume III Part III During this period the dominant powers in the East were Assyria and then Babylonia Each established an extensive empire which was based on Mesopotamia and each in turn fell largely through internal strife Assyrian might was reflected in the imposing palaces libraries and sculptures of the Assyrian kings Babylonian culture was outstanding in literature mathematics and astronomy and the great buildings of Nebuchadnezzar II surpassed even those of the Assyrian kings Israel and Judah suffered at the hands of both imperial powers Jerusalem being destroyed and part of the population deported to Babylon and Egypt was weakened by an Assyrian invasion The Phoenicians found a new outlet in colonising and founded Carthage A number of small vigorous kingdoms developed in Asia Minor while from the north and north east the Scythian nomadic tribes pressed down upon Turkey and the Danube valley but found their match in the Thracian tribes which held south eastern Europe and parts of western Turkey The burials of the chieftains of both peoples were remarkable for the great wealth of offerings Ancient Greeks West and East G.R. Tsetschladze, 2018-07-17 This volume deals with the concept of West and East as held by the ancient Greeks Cultural exchange in Archaic and Classical Greece through the establishment of Hellenic colonies around the ancient world was an important development and always a two way process To achieve a proper understanding of it requires study from every angle All 24 papers in this volume combine different types of evidence

discussing them from every perspective they are examined not only from the point of view of the Greeks but from that of the locals The book gives new data as well as re examining existing evidence and reinterpreting old theories The book is richly illustrated

Achaemenid Impact in the Black Sea Jens Nieling, Ellen Rehm, 2010-07-16 For 200 years from the second half of the sixth century to the decades before 330 BC the Persian dynasty of the Achaemenids ruled an enormous empire stretching from the Mediterranean Sea to Afghanistan and India The Great Kings Dareios I and Xerxes I even tried to conquer Greece and the northern Black Sea territories Although they failed parts of Thrace did become part of their dominion for a short period The question always rises as to why the Great Kings were interested in the western and northern Pontic zones In contrast to some of the other satrapies such as Egypt Phoenicia and Syria the Black Sea had no prosperous cities or provinces to offer One possible answer might be the desire to conquer every part of the known world After 479 BC it seems that the Great Kings acknowledged the fact that the coast and the Caucasus formed the natural borders of their Empire The satraps on the other hand could not avoid becoming involved in the affairs of the Black Sea region in order to safeguard the frontiers they had established They had to incorporate the Greeks as accepted inhabitants of their province into the Persian administrative system Possibly they achieved this by granting them the monopoly in sea trade and using the Anatolian Greeks as the main active bearers and transmitters of Persian customs and culture More research into this chapter of Persian history is still required

Cultural Interactions and Social Strategies on the Pontic Shores Jane Hjarl Petersen, 2010-07-16 In Antiquity the Black Sea region was a meeting point for several different population groups with diverse cultural backgrounds The present monograph takes its point of departure in burial data from four coastal localities in the northern region of the Black Sea The mortuary practices are decoded and interpreted within a framework mainly based on concepts of cultural interaction rather than cultural polarisation Thus the dogma of The Greeks and the Others is challenged and alternative perceptions of interactions between the people in the Black Sea region form the basis of the study The burials are primarily analysed with emphasis on social strategies and cultural diversity Furthermore the Black Sea region is set into a comparative perspective through an outlook on burial customs and mortuary practices in the colonial milieu of contemporary Southern Italy

The Scythian Connection and the Shamanistic Crowns of Ancient Korea Shirley Fish, 2021-08-22 The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author's opinion that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members

of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula. Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials, wooden burial chambers, gold crowns, horse riding and also in their Siberian shamanism. This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies. The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people. When they were discovered in various archaeological mound sites they were found to be in a highly fragile state. The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram. Some of the crowns came in two parts: an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself. The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla. *Foes From the Northern Frontier* Edwin M.

Yamauchi, 2003-04-15 Are there any biblical references to territories in what is today the country of Russia? The author's answer is yes but Ezekiel's reference to Rosh and Meshech is not one of them. In a thoroughly documented discussion the author describes the Urartians, Mannaeans, Cimmerians and Scythians. Three of these northern foes of Israel are referred to by Jeremiah in 51:27, the Cimmerians by Ezekiel 38:6 with the exception of Egypt. Writes the author, almost all of Israel's enemies came from the north though from the viewpoint of a modern map many of these came ultimately from the east. The Urartians occupied what is now Soviet Armenia, southeastern Turkey and northwestern Iran. The Mannaeans lived south of Lake Urmia between Urartu and Assyria. The Cimmerians first appeared in the steppes north of the Caucasus then crossed the Caucasus and eventually invaded Asia Minor. The Scythians were nomadic tribes from the Russian steppes, some of whom settled in the Ukraine north of the Black Sea, others east of the Caspian. But what of Rosh, Meshech and other names in Ezekiel 38:2? Is Rosh Russia and Meshech Moscow? Rosh cannot possibly be related to Russia insists the author. Nor can the terms Gog and Magog, no proposed identification for which has yet to win universal consent. Meshech and Tubal on the other hand have been located for certain in central and eastern Anatolia. **Greek and Roman Jewellery** Reynold Higgins, Reynold Alleyne Higgins, 1980-01-01

Attic Fine Pottery of the Archaic to Hellenistic Periods in Phanagoria Catherine A. Morgan, 2004-01-01 This publication of Attic fine pottery imported to the Greek colony of Phanagoria in the Taman Peninsula, southern Russia, explores the social function of imports in a colonial society and the changing nature of Black Sea trade.

Metalwork from the Hellenized East Michael Pfommmer, 1993-05-20 This heavily illustrated catalogue is devoted to the Museum's collection of silver and gold from the Hellenized East, one of the largest yet assembled. Among the objects included are rhyta, bowls, cups, jewelry and decorative gold and silver ornaments for horse bridles and clothing. In an extensive

introduction the author dates the various groups of objects and places them within a wider cultural and archaeological context providing a detailed stylistic analysis of the ornamental motifs of many pieces Of particular importance is the inclusion of illustrations of some 50 little known comparative objects as well as extensive bibliographic references

Feeding the Democracy Alfonso Moreno, 2007-10-25 The reliance of democracies on vital supplies of energy from distant and non democratic sources is probably the most pressing and dangerous problem of modern times but it is not a new phenomenon Classical Athens the birthplace of democracy and the largest and historically most important of the ancient Greek city states depended for its survival on the constant importation of grain from overseas lands as remote as Ukraine and southern Russia and this trade was ultimately controlled by powerful politicians wealthy landowners and kings Alfonso Moreno examines how this resource need determined Athenian foreign policy prompting recourse to military conquest and ruthless resettlements and how uncomfortable realities especially elite control were made acceptable to popular audiences This study of ancient trade and politics reveals a Greek world as globalized as our own and convulsed by the same problems that such interdependence and sophistication entail

The Scythians Barry Cunliffe, 2019-09-26 Brilliant horsemen and great fighters the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC Their steppe homeland bordered on a number of sedentary states to the south the Chinese the Persians and the Greeks and there were inevitably numerous interactions between the nomads and their neighbours The Scythians fought the Persians on a number of occasions in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe Relations with the Greeks around the shores of the Black Sea were rather different both communities benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia
