ornithological science Moving to the twentieth century the book tells the story of the emergence of birdwatching and the field study of birds and how they triggered an extraordinary flowering of knowledge and empathy for birds eventually leading to today's massive worldwide interest in birds and the realization of the urgent need to save them Weaving in stories from Birkhead's life as scientist including far flung expeditions to wondrous Neolithic caves in Spain and the bustling guillemot colonies of the Faroe Islands this rich and fascinating book is an unforgettable account of how birds have shaped us and how we have shaped them **The Naturalist**, 1999 **B.T.O.
