Seafarer Community Toward A Social Understanding Of Seafaring:

Seafarer & Community Peter H. Fricke, 2023-10-27 Seafarer Community 1973 examines life on shipboard and how the communities which rely on the sea for their livelihood exist The main theme running through the chapters in this book is the observation of seafaring as an occupational community as observed by anthropologists economists geographers psychologists seafarers and sociologists The book explores the nature of seafaring communities and asks whether they exist as communities in their own right or if they are occupational subgroups within a larger community It also examines the psychological impact on seafarers of working within the closed communities of ships and analyses the problems of training and recruitment

Seafaring Labour Eric W. Sager, 1996 Sager argues that sailors were not misfits or outcasts but were divorced from society only by virtue of their occupation The wooden ships were small communities at sea fragments of normal society where workers lived struggled and often died With the coming of the age of steam the sailor became part of a new division of labour and a new social hierarchy at sea Sager shows that the sailor was as integral to the transition to industrial capitalism as any land worker

Mediterranean Seafarers in Transition, 2022-10-17 This volume discusses the effects of industrialization on maritime trade labour and communities in the Mediterranean and Black Sea from the 1850s to the 1920s The 17 essays are based on new evidence from multiple type of primary sources on the transition from sail to steam navigation written in a variety of languages Italian Spanish French Greek Russian and Ottoman Questions that arise in the book include the labour conditions wages career and retirement of seafarers the socio economic and spatial transformations of the maritime communities and the changes in the patterns of operation ownership and management in the shipping industry with the advent of steam navigation The book offers a comparative analysis of the above subjects across the Mediterranean while also proposes unexplored themes in current scholarship like the history of navigation Contributors are Luca Lo Basso Andrea Zappia Leonardo Scavino Daniel Muntane Eduard Page Campos Enric Garcia Domingo Katerina Galani Alkiviadis Kapokakis Petros Kastrinakis Kalliopi Vasilaki Pavlos Fafalios Georgios Samaritakis Kostas Petrakis Korina Doerr Athina Kritsotaki Anastasia Axaridou and Martin Doerr

Publications of the American Folklife Center ,1977 **A Place to Belong** Gerald L. Pocius,2000 A Place to Belong is a profusely illustrated intimate contemporary portrait of Calvert a three

hundred year old fishing village on Newfoundland's southern shore. Often using its residents' own words, Gerald Pocius describes in detail the continual creative encounters between past and present between individual and community that make up daily life in Calvert. By accepted standards of tradition, Calvert's culture is declining. Old structures are regularly torn down or renovated; antique household items are replaced with modern conveniences. Pocius argues, however, that the tangible expressions of a culture can be misleading. Calvert's essence is not in the things owned and used by its residents but in the spaces in which those things abide and in the attitudes, values, and obligations that delineate the order of those spaces. From woodlands, water, and fields to yards, gardens, and homes, Calvert's physical and social structure is governed by shared concerns about the community's livelihood and welfare. As a resident of Calvert puts it: "Where you're working in the same space with people you know, it's just not practical to be falling out with everyone." The sense of community that pervades Calvert is best exemplified by its annual draw for fishing berths. Because productivity varies among offshore fishing grounds, there is no private ownership of fishing rights. Rather, a lottery instituted in 1919 ensures each family the same chances for periodic access to the best fishing berths. The draw continues until all the fishing berths are awarded, but it is common for a family to opt out once they have drawn enough good berths. There are also instances of the most successful fishing operations sharing their catches. From his observations of Calvert's people at work and leisure, Pocius provides evidence to confirm the viability and durability of their culture. He reveals that standard assumptions about culture are inadequate, particularly those based on the primacy of artefacts and on sharp dichotomies between tradition and modernity. Calvert, he shows, belies our notion that declining cultural values and social segmentation are unavoidable side effects of modernisation and a rise in material well-being. *A Place to Belong* will promote a constructive scepticism about the ways we perceive and interpret cultures, and most important, will remind us of what it really means to belong to a place.

The Baltic and the North Seas Merja-Liisa Hinkkanen, David Kirby, 2013-06-17 Exploring the themes of the human relationship with the marine environment and the ways in which the peoples of Northern Europe have experienced and exploited their seas, this book reveals how human perception of the northern seas has changed over time. Drawing on a wide variety of sources from Denmark and Britain to Norway, Finland, and Germany, *The Baltic and the North Seas* is an insightful and colourful history of the politics, economy, and culture of this intriguing region.

Seamen's Missions Roald Kverndal, 1986 This book will long stand as the foundational study of church missions and ministry to men and women of the sea. International in scope, it covers in detail the efforts, particularly during the past two centuries, to serve the spiritual and moral needs of seafarers. The author himself, a former seafarer and seafarers' chaplain, spent more than fifteen years of painstaking research to compile this fascinating and authoritative book.

Work, Class, and Power in the Borderlands of the Early American Pacific Evan Lampe, 2013-12-12 This book traces the history of working people who helped establish the foundation of the American empire in the Pacific from its origins after the American Revolution to its coming of age in the 1840s and 1850s. Beginning

with the expeditions of the Columbia and the Lady Washington Lampe argues that the early American Pacific can best be considered through the interaction of four major locations connected through the networks of trade the merchant ship the Northwest Coast Honolulu and Canton Guangzhou In each of these locations the labors of a diverse population of working people was harnessed in the critical labors of empire building including the transportation of goods The central question that the consideration of working people in the Pacific economy during this period is Lampe argues the role of power applied on these laborers by an international capitalist class emerging alongside the Pacific commercial empires Lampe also finds that this power was not uncontested and emerged in response to the activities of labor Working people on the ship and in the port cities found ways to secure their piece of the profitable trade often through illicit means [Sea Changes](#) Bernhard Klein,Gesa Mackenthun,2012-08-21 The sea has been the site of radical changes in human lives and national histories It has been an agent of colonial oppression but also of indigenous resistance a site of loss dispersal and enforced migration but also of new forms of solidarity and affective kinship SeaChanges re evaluates the view that history happens mainly on dry land and makes the case for a creative reinterpretation of the role of the sea not merely as a passage from one country to the next but a historical site deserving close study [Sodomy and the Pirate Tradition](#) B. R. Burg,1995 Pirates are among the most heavily romanticized and fabled characters in history From Bluebeard to Captain Hook they have been the subject of countless movies books children s tales even a world famous amusement park ride In Sodomy and the Pirate Tradition historian B R Burg investigates the social and sexual world of these sea rovers a tightly bound brotherhood of men engaged in almost constant warfare What he asks did these men often on the high seas for years at a time do for sexual fulfillment Buccaneer sexuality differed widely from that of other all male institutions such as prisons for it existed not within a regimented structure of rule regulations and oppressive supervision but instead operated in a society in which widespread toleration of homosexuality was the norm and conditions encouraged its practice In his new introduction Burg discusses the initial response to the book when it was published in 1983 and how our perspectives on all male societies have since changed Provided by Publisher ["Each Man Cried Out to His God"](#) Aaron J. Alderton,Seafarers International Research Centre,International Labour Office,2004 This volume offers a systematic account of the effects of globalization on the shipping industry and seafarers lives The seafarers labor market is changing rapidly and this study discusses the challenges encountered in recruitment practices trade unions and collective bargaining as well as training certification and fraudulent certification Wages contracts and tours of duty are also

investigated and the book includes in depth treatment of seafarer safety and hazard exposure Innovations such as automated engine rooms and the global maritime distress and safety system the internationalization of ship registrations multinational crewing and reductions in crewing levels and the rise in ship management companies have had a profound effect on seafarers living and working conditions This perceptive book examines these and future issues for regulation and enforcement State and Community in Fisheries Management E. Paul Durrenberger, Thomas King, 2000-05-30 Those who are involved with fishing and fisheries resource management including fishermen their communities production processing distribution and marketing industries and various government and non governmental organizations confront the contradictions arising from the appropriation allocation and distribution of fisheries and marine resources in a variety of ways The authors call into question the assumptions of policy prescriptions to common resource problems by examining the experiences of people and societies confronted with and adapting to these resource appropriation allocation and distribution problems They suggest that tragedies of resource depletion and institutional failure to deal with them are not characteristic of human nature but rather are by products of particular cultural practices institutions and assumptions The detailed empirical ethnographic study of these relationships holds great potential for informing those who are making future policy decisions as well as contributing to the theories of human behavior and cooperation to solve such problems *People, Place and Power on the Nineteenth-Century Waterfront* Graeme J. Milne, 2016-08-24 This book explores the tenuous existence of seafarers divided between their time on the ocean and their residence in sailortown economies geared to exploit them Particular attention is given both to the contribution of seafarers as a global workforce into the nineteenth century and to their help in creating vibrant multicultural enclaves in port cities worldwide In addition research explores the scandalized opinions of outside observers challenging ideas about public behavior and relationships Sailortown myths persisted far into the twentieth century to the detriment of older waterfront districts and their residents and readers will find this book is invaluable in casting new light on forgotten communities whose lives bridged urban maritime and global histories
