Search For Modern China W History Doc:

The Search for Modern China Jonathan D. Spence, 1990 In this widely acclaimed history of modern China Jonathan Spence achieves a fine blend of narrative richness and efficiency The Search for Modern China offers a matchless introduction to China's history *The Search for Modern China* Janet Y. Chen, Pei-kai Cheng, Michael Elliot Lestz, Jonathan D. Spence, 2014 Jonathan D. Spence is George Burton Adams Professor of History at Yale University and author of eight acclaimed books on China Here he has written a very readable history of this fascinating country To understand China's past there is no better place to start than Jonathan D. Spence's excellent new book The New York Times Book Review front page review 136 pages of photographs [The United Nations at Work in Asia](#) Roy D. Morey, 2013-12-03 The groundwork for the Asian economic miracle was established in the last 25 or so years the time period covered in this book China and Vietnam started substituting pragmatism for communist ideology and Thailand started on a path toward greater democracy The timing was perfect for an American United Nations representative to arrive in the two communist countries because for the first time both placed a premium on improving relations with the U.S. and both were moving toward a market economy This book acquaints the reader with evolving political, economic and social conditions in these countries and the role played by UN organizations A chapter on the South Pacific details the challenges of providing useful development assistance in small isolated countries The book also reveals a hidden side of the United Nations the role played by more than 30 UN agencies funds and programs in providing development and humanitarian assistance The past two or three decades were a period of great upheaval in Asia Enormous events and developments involving the United Nations are analyzed in the book These include the Tiananmen Square crisis in China 300,000 Cambodian refugees camped along the Thai border escaping the killing fields of the Khmer Rouge efforts to rid the Golden Triangle of opium production the sensitive diplomacy required in fostering cooperation among North Korea, South Korea, China and Mongolia and a firsthand account of negotiating the international agreement creating the Mekong River Commission **Defining and Defending the Open Door Policy** Gregory Moore, 2015-05-27 There has been little examination of the China policy of the Theodore Roosevelt administration Works dealing with the topic fall either into brief discussions in biographies of Roosevelt general surveys of Sino-American relations or studies of special topics such as the Chinese exclusion issue which encompass a portion of the Roosevelt years Moreover the subject has been overshadowed somewhat by studies of problems between Japan and the United States in this era The goal of this study is to offer a more complete examination of the American relationship with China during Roosevelt's presidency The focus will be on the discussion of major issues and concerns in the relationship of the two nations from the time Roosevelt took office until he left something that this book does for the first time Greater emphasis needs to be placed on creating a more complete picture of Teddy Roosevelt and China relations especially in regard to his and his advisers perceptual framework of that region and its impact upon the making of China policy The goal of this study is to begin that

process Special attention is paid to the question of how Roosevelt and the members of his administration viewed China as it is believed that their viewpoints which were prejudicial were very instrumental in how they chose to deal with China and the question of the Open Door The emphasis on the role of stereotyping gives the book a particularly unique point of view Readers will be made aware of the difficulties of making foreign policy under challenging conditions but also of how the attitudes and perceptions of policymakers can shape the direction that those policies can take A critical argument of the book is that a stereotyped perception of China and its people inhibited American policy responses toward the Chinese state in Roosevelt s Administration While Roosevelt s attitudes regarding white supremacy have been discussed elsewhere a fuller consideration of how his views affected the making of foreign policy particularly China policy is needed especially now that Sino American relations today are of great concern **True Crimes in Eighteenth-Century China** Robert E.

Hegel,2011-12-01 The little examined genre of legal case narratives is represented in this fascinating volume the first collection translated into English of criminal cases most involving homicide from late imperial China These true stories of crimes of passion family conflict neighborhood feuds gang violence and sedition are a treasure trove of information about social relations and legal procedure Each narrative describes circumstances leading up to a crime and its discovery the appearance of the crime scene and the body the apparent cause of death speculation about motives and premeditation and whether self defense was involved Detailed testimony is included from the accused and from witnesses family members and neighbors as well as summaries and opinions from local magistrates their coroners and other officials higher up the chain of judicial review Officials explain which law in the Qing dynasty legal code was violated which corresponding punishment was appropriate and whether the sentence was eligible for reduction These records began as reports from magistrates on homicide cases within their jurisdiction that were required by law to be tried first at the county level then reviewed by judicial officials at the prefectural provincial and national levels with each administrator adding his own observations to the file Each case was decided finally in Beijing in the name of the emperor if not by the monarch himself before sentences could be carried out and the records permanently filed All of the cases translated here are from the Qing imperial copies most of which are now housed in the First Historical Archives Beijing *Chinese Industrial Espionage* William C. draws parallels between the methods by which policy makers sought to shape international society and the methods by which many of them hoped to secure the conditions they wanted within the United States. Most important, the book describes how an international search for order constituted the fundamental strategy by which American leaders sought to ensure for the United States a position of what they saw as wealth and greatness in the coming twentieth century world.

Journalism's Roving Eye John Maxwell Hamilton, 2009. *Journalism's Roving Eye* is the definitive history of American foreign reporting. Beginning with the colonial era, it focuses on underlying factors such as technology and public opinion as well as a cavalcade of personalities. Here is Henry Morton Stanley who began the spate of journalistic exploration in the 19th century; Victor Lawson, owner of the *Chicago Daily News*, who invented the idea of a quality foreign news service for Americans; and Jack Belden, a forgotten brooding figure who exemplified the best in combat reporting. *Journalism's Roving Eye* is essential for understanding the evolution of foreign news gathering and its future.

Hong Kong Architecture 1945-2015 Charlie Q. L. Xue, 2016-06-13. This book focuses on the transformation from colonial to global, the formation mechanism, events, works, and people related to urban architecture. The book reveals hardships the city encountered in the 1950s and the glamour enjoyed in the 1980s. It depicts the public and private developments and especially the public housing which has sheltered millions of residents. The author identifies the architects practising in the formative years and the representatives of a rising generation after the 1980s. Suffering from land shortage and a dense environment, the urban development of Hong Kong has in the past 70 years met the changing demands of fluctuating economic activities and a rising population. Architecture on the island has been shaped by social demands, the economy, and technology. The buildings have been forged by the government, clients, planners, architects, many contractors, and end users. The built environment nurtures our life and is visual evidence of the way the city has developed. Hong Kong is a key to East Asia in the Pacific Era. The book is a must-read for a thorough understanding of the contemporary history and architecture of this oriental pearl.

Endorsement: Hong Kong sets an extreme example of hyper-density living. MTR's Kowloon Station project offered my firm the unique opportunity to contribute to a new type of fully integrated three-dimensional transport mega-structure conceived as a well-connected place for people to live, work, and play. Through Charlie Xue's book, one can see how a compact city works and how high-density integrated development indicates a sustainable path for modern city-making.

Sir Terry Farrell, CBE, Principal, Farrells. Well-researched and refreshingly well-structured, Charlie Xue's latest book comprehensively shows how Hong Kong's post-war urban architecture both tracks and symbolizes the former British colony's rise to success. A must-read for architecture and culture buffs alike.

Peter G. Rowe, Raymond Garbe Professor of Architecture and Urban Design, Harvard University. Distinguished Service Professor. An essential addition to the growing literature on Chinese architecture, the title of the book belies the full scope of Xue's extensive history. Covering Hong Kong's postwar transition from defeated colony to Pacific Age powerhouse, Xue expertly traces the evolution of the city's ambitious and innovative programs of integrated high-density urban design and infrastructure as well as

changing architectural fashions In a time when many Western governments have all but abandoned public housing programs Xue s book is a timely reminder of what can be achieved Professor Chris Abel author of Architecture and Identity Architecture technology and process and The Extended Self p
