**Fossils on the Seashore** Stephen K. Donovan, 2025-08-15 *Fossils on the Seashore* is an expert and accessible guide to exploring the palaeontological richness of Britain's coastal landscapes. While inland sites are increasingly off limits, the UK's extensive coastline remains a specimen-rich wonderland of fossils and fossiliferous rock, shining a light on questions of palaeoecology, preservation and trace fossils. A retired geologist and expert palaeontologist, Dr Stephen Donovan balances scholarly knowledge with practical guidance. Designed for easy reference in the field, each chapter is concise and self-contained, equipping readers with the knowledge to identify fossils, understand ancient ecosystems and appreciate the processes behind fossilisation. *Fossils on the Seashore* brings the author's extensive field experience to life, unlocking the geological and palaeontological secrets of the past from Britain's remarkable coastal landscapes. It is an indispensable resource for both amateur enthusiasts and emerging palaeontologists.

Focusing on fieldcraft techniques for macro and close-up photography, Thompson covers the vital but often overlooked skills necessary to achieve consistent professional results in the field. Case studies covering a broad and often challenging group of subjects from the seashore to your back garden form the core of the lavishly illustrated book. Biology, life history, subject behaviour and ethics, along with best practice approaches, are discussed in detail and underpinned with photographic tips. The book is divided into four sections: Digital Fundamentals, Fieldcraft, Methodology, Portfolio Case Studies. Digital Workflow Presentation covers the full photographic process from capture through to editing, captioning, development and storage. Moving beyond the surface level approach to macro instruction, this book provides readers with techniques that work in the field. Illustrated with over 250 of the author's own inspiring images, this publication is a must for photographers, naturalists and anyone interested in improving their macro skills in the field.
