Sharad Of Atlantis:

Imagining Atlantis Richard Ellis, 2012-01-11 Ever since Plato created the legend of the lost island of Atlantis it has maintained a uniquely strong grip on the human imagination For two and a half millennia the story of the city and its catastrophic downfall has inspired people from Francis Bacon to Jules Verne to Jacques Cousteau to speculate on the island's origins nature and location and sometimes even to search for its physical remains It has endured as a part of the mythology of many different cultures yet there is no indisputable evidence let alone proof that Atlantis ever existed What then accounts for its seemingly inexhaustible appeal Richard Ellis plunges into this rich topic investigating the roots of the legend and following its various manifestations into the present He begins with the story's origins Did it arise from a common prehistorical myth Was it a historical remnant of a lost city of pre-Columbians or ancient Egyptians Was Atlantis an extraterrestrial colony Ellis sifts through the scientific evidence marshaled to prove these theories and describes the mystical and spiritual significance that has accrued to them over the centuries He goes on to explore the possibility that the fable of Atlantis was inspired by a conflation of the high culture of Minoan Crete with the destruction wrought on the Aegean world by the cataclysmic eruption around 1500 b.c. of the volcanic island of Thera or Santorini A fascinating historical and archaeological detective story **Imagining Atlantis** is a valuable addition to the literature on this essential aspect of our mythohistory

Terror Down Under Daniel Best, 2023-07-20 In 1948 the Australian government banned the production importation and exhibition of horror films in a move to appease religious communities and entertainment watchdogs Drawing upon previously unseen government documents private letters and contemporary newspaper accounts this book is the first to extensively cover the history of censorship and the early production of horror movies in Australia Beginning its examination in the late 19th century the book documents the earliest horror films like Georges Melies' *The Haunted Castle* 1896 and how Australians enjoyed such films before the ban The book then explains how certain imports like 1954's *Creature from the Black Lagoon* were able to circumvent the ban while others were not It also reveals how Australian television though similarly impacted by government censorship was occasionally able

to broadcast films technically banned from cinematic release The work concludes with a look at the first Australian horror films produced after the ban was formally lifted in 1969 like Terry Bourke s Night of Fear 1973 **Science Fiction Serials** Roy Kinnard,2015-08-13 Destination Moon George Pal s 1950 Technicolor epic is generally cited as the first noteworthy science fiction film Usually ignored or casually dismissed in genre histories are the serials the low budget chapterplays exhibited as Saturday matinee fare and targeted almost exclusively at children Lacking stars and top notch writers or directors the serials went largely unnoticed and unacknowledged by either critics or by the film industry Yet serials were financially important to the Hollywood studios and were often free to exploit risky or outlandish subjects that producers of distinguished movies would not touch Influential serials such as The Phantom Empire 1935 and Flash Gordon 1936 finally brought science fiction themes to the big screen Those serials and 29 others are exhaustively covered in this work which provides complete cast and credit information along with plot descriptions and historical commentary for each serial Video distributors if available are also listed **One Book, The Whole Universe** Richard D.
