Barnard, 1859 **Educating for Humanity** Mike Seymour, Henry M. Levin, 2015-11-17 At a time of profound crises around the world when social justice peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration for education Ample evidence from many schools today and dating back throughout the last

century prove that the purpose of educating young people to develop character compassion purpose and commitment is integral with the mastery of intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the personal values people take with them to the world Unfortunately as the saying goes if you don't know where you're going you'll probably get someplace else Educational policy directions over the last twenty years have veered far away from the important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes testing school choice and privatization of education in looking beyond these measures to new approaches to educational excellence

[Raising the Love-Light of a Child](#) Darlene Westhelle,2021-08-03 You are a loving person and you love kids But what is love exactly by your definition Have you ever really thought about it Is love simply some warm fuzzy that you've been taught to express with three little words Or is it much more than that And how would you describe it Have you explored any of the beliefs the rote script comments the auto responses the unquestioned systems all the that's just the way it is programs the generational patterns the inconsistent behaviors that send mixed messages and the copy and paste words and attitudes that you inadvertently share with kids And have you intentionally worked to raise the frequency of your own lovelight revealing and healing any parts of you that may affect the energy and thus the growth brilliance and resilience of children in your care Come Let's explore and train our hearts to see through the lens of love to make the necessary adjustments to our programming Let's shine the light on and disrupt the old ways of thinking and behaving that have created the undesirable inequitable energies of the collective consciousness and the current systems With that light we can heal change grow and create a brighter new environment for the kids with the kids preserving and maintaining the strength of our inherent lovelights

Against Happiness Owen Flanagan, Joseph E. LeDoux, Bobby Bingle, Daniel M. Haybron, Batja Mesquita, Michele Moody-Adams, Songyao Ren, Anna Sun, Yolonda Y. Wilson, 2023-05-09 The happiness agenda is a worldwide movement that claims that happiness is the highest good happiness can be measured and public policy should promote happiness Against Happiness is a thorough and powerful critique of this program revealing the flaws of its concept of happiness and advocating a renewed focus on equality and justice Written by an interdisciplinary team of authors this book provides both theoretical and empirical analysis of the limitations of the happiness agenda The authors emphasize that this movement draws on a parochial Western centric philosophical basis and demographic sample They show that happiness defined as subjective satisfaction or a surplus of positive emotions bears little resemblance to the richer and more nuanced concepts of the good life found in many world traditions Cross cultural philosophy comparative theology and social and cultural psychology all teach that cultures and subcultures vary in how much value they place on life satisfaction or feeling happy Furthermore the ideas promoted by the happiness agenda can compete with rights justice sustainability and equality and even conceal racial and gender injustice Against Happiness argues that a better way forward requires integration of cross cultural philosophical ethical and political thought with critical social science Ultimately the authors contend happiness should be a secondary goal worth pursuing only if it is contingent on the demands of justice
