Culture and Corporate

Governance Güler Aras, David Crowther, 2008 *The Law of Higher Education* Dennis Farrington, David Palfreyman, 2012-03-22 Written by two leading practitioners this comprehensive and practical guide to the law of higher education in the UK provides extensive analysis of the complex legal framework in which universities work and the remedies which may be sought in the event of disputes The Law of Higher Education has been fully updated to take account of the many legislative changes which have come into force since the publication of the first edition in 2006 The impact of new charity law changes in governance structures developments in the law of employment academic freedom issues and the increasing presence of academies and other private Higher Education Institutions are all dealt with in detail with reference to and analysis of the relevant case law throughout Although focussing on UK laws the new edition includes expanded material on the international context which has become particularly important as institutions are increasingly involved in international exchanges and collaborations as well as being subject to the increasing globalisation of higher education The text is linked to the updating service on the Oxford Centre for Higher Education Policy Studies website ensuring that readers are kept up to date with developments even after publication *Ethics and Empowerment* P. Davies, J. Quinn, 2016-02-05 Ethics and Empowerment is a major contribution to the ongoing debate about the role of business in society People expect more meaning and empowerment at work at a time when competitive pressures are seducing business into taking ethical short cuts How is this to be reconciled Through a thorough examination of the issues of power control and autonomy addressing such questions as empowerment being a matter of justice through case study based examinations of the organisational experiences of empowerment programmes and through looking at the ethics and empowerment debate from the wider perspective of business and social responsibility this book seeks to make ethics more relevant and accessible to today's business world **Consumer Protection and Online Auction Platforms** Christine Riefa, 2016-03-03 Online auctions have undergone many transformations and continue to attract millions of customers worldwide However these popular platforms remain understudied by legal scholars and misunderstood by legislators This book explores the legal classification of online auction sites across a range of countries in Europe Including empirical studies conducted on 28 online auction websites in the UK the research focusses on the protection of consumers economic rights and highlights the shortcomings that the law struggles to control With examinations into important developments including the Consumer Rights Directive and the latest case law from the CJEU on the liability of intermediaries Riefa anticipates changes in the law and points out further changes that are needed to create a safe legal environment for consumers whilst preserving the varied business model adopted by online auction sites The study provides insights into how technical measures as well as a tighter legislative framework or enforcement pattern could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves The Law Librarian , 1996 Cyber Consumer Law and Unfair Trading Practices Cristina Coteanu, 2017-03-02 Of great interest to practitioners policymakers and academics as well

as to consumers and traders in general this timely work addresses all important legal and practical issues that arise in connection with online trading This important work outlines the existing legislation and legal jurisprudence in the EU and the US and exposes the potential for unfair commercial practices to arise from online contracts electronic agents disclosure of information online advertising and online dispute resolution in cross border transactions The continuing prevalence of unfair commercial practices will ensure this book remains in great demand Consumer Theories of Harm Paolo Siciliani,Christine Riefa,Harriet Gamper,2019-09-19 It has long been thought that fairness in European Consumer Law would be achieved by relying on information as a remedy and expecting the average consumer to keep businesses in check by voting with their feet This monograph argues that the way consumer law operates today promises a lot but does not deliver enough It struggles to avoid harm being caused to consumers and it struggles to repair the harm after the event To achieve fairness solutions need to be found elsewhere Consumer Theories of Harm offers an alternative model to assess where and how consumer detriment may occur and solutions to prevent it It shows that a more confident use of economic theory will allow practitioners to demonstrate how a poor standard of professional diligence lies at the heart of consumer harm The book provides both theoretical and practical examples of how to combine existing law with economic theory to improve case outcomes The book shows how public enforcers can move beyond the dominant transparency paradigm to an approach where firms have a positive duty to treat consumers fairly and shape their commercial offers in a way that prevents consumers from making mistakes Over time this fairness by design approach will emerge as the only acceptable way to compete
