Contemporary Review, 1891 [Land Reform and Working-Class Experience in Britain and the United States, 1800-1862](#) Jamie L. Bronstein, 1999 By exploring in detail land reform movements in Britain and the United States this book transcends traditional labor history and conceptions of class to deepen our understanding of the social political and economic history of both countries in the nineteenth century Although divided by their diverse experiences of industrialization and living in countries with different amounts of available land many working people in both Britain and the United States dreamed of free or inexpensive land to release them from the grim conditions of the 1840's depressing overcrowded cities low wages or unemployment and stifling lives Focusing on the Chartist Land Company the Potters Joint Stock Emigration Society and the American National Reform movement this study analyses the ideas that motivated workers to turn to land reform the creation of working class land reform cultures and identities among both men and women and the international communication that enabled the formation of a transatlantic movement Though there were similarities in the ideas behind the land reform movements in their organizational strategies and in their relationships with other reform movements in the two countries the author's examination of their grassroots constituencies reveals key differences In the United States land reformers included small proprietors as well as artisans and factory workers In Britain by contrast at least a quarter of Chartist Land Company participants lived in cotton manufacturing towns strongholds of unpropertied workers

and radical activity When the land reform movements came into contact with the organs of the press and government the differences in membership became crucial The Chartist Land Company was repressed by a government alarmed at the prospect of workers autonomy and the Potters Joint Stock Emigration Society died the natural death of straitened finances but the American land reform movement experienced some measure of success so much so that during the revolution in American political parties during the 1850 s land reform once a radical issue became a mainstream plank in the Republican platform *Jarrell, Bishop, Lowell, & Co* Suzanne Ferguson,2003 Jarrell Bishop Lowell Co Middle Generation Poets in Context Takes on the oft noted but little explored friendship of three of the most respected poets of the twentieth century Editor Suzanne Ferguson collects eighteen essays that explore the literary personal and political affiliations of Randall Jarrell Elizabeth Bishop and Robert Lowell influential literary figures who flourished in the periods between modernism and postmodernism Essay in the first section of the book directly compare the subjects while sections on each of the poets follow The contributors unpack received wisdom on the poets revising and updating our conceptions The multiple viewpoints reflect on one another shedding provocative light on the group as a whole and revealing the ways the study of poets in their historical context helps make them not only accessible but also relevant to today s reader The Contributors Edward Hirsch Steven Gould Axelrod Jeredith Merrin Thomas Travisano Diederik Oostdijk Richard Flynn Nelson Hathcock Florian Hild Stephen Burt James McCorkle Ross Leckie Meg Schoerke Lurel Kornhiser Francesco Rognoni Christian Sisack Ernest J Smith and Elise Partridge The Editor Suzanne Ferguson is Samuel B and Virginia C Knight Professor of Humanities Emerita at Case Western Reserve University She is author of *The Poetry of Randall Jarrell* editor of *Critical Essays on Randall Jarrell* and coeditor of *Literature and the Visual Arts in Contemporary Society* Her articles have appeared in *Georgia Review* *Modern Fiction Studies* *Word and Image* and other journals

Modern Poetry after Modernism James Longenbach,1997-11-27 In this book James Longenbach develops a fresh approach to major American poetry after modernism Rethinking the influential breakthrough narrative the oft told story of postmodern poets throwing off their modernist shackles in the 1950s Longenbach offers a more nuanced perspective Reading a diverse range of poets John Ashbery Elizabeth Bishop Amy Clampitt Jorie Graham Richard Howard Randall Jarrell Robert Lowell Robert Pinsky and Richard Wilbur Longenbach reveals that American poets since mid century have not so much disowned their modernist past as extended elements of modernism that other readers have suppressed or neglected to see In the process Longenbach allows readers to experience the wide variety of poetries written in our time without asking us to choose between them

Dark Airs Brendan Cooper,2009 In discussions of American poetry since World War II the work of John Berryman has become increasingly neglected and marginalized Critics have overwhelmingly chosen to favour the notion that he is an academic establishment poet whose career can comfortably be described as a move from New Critical traditionalism towards

self absorbed confessionalism This study shows how such a narrow understanding of Berryman s work is reflective of a broader critical inclination towards a codification of the literary canon as a duel between competing factions of a formalist establishment mainstream and an experimentalist countercultural avant garde By examining the extent to which Berryman s poetry engages with the complex religiopolitical climate of Cold War American culture this study exposes the inadequacy of the paradigm of mainstream traditionalism in relation to his work In doing so it opens up threads of comparative possibility between his work and that of poets ordinarily segregated from him by divisive conceptions of the literary canon As such this volume provides a reconsideration of Berryman s work that simultaneously asks broader questions about the nature of the American poetic canon and established definitions of postmodern poetry *A Study Guide for Amy Lowell's "The Taxi"* Gale, Cengage Learning,2016 A Study Guide for Amy Lowell s *The Taxi* excerpted from Gale s acclaimed *Poetry for Students* This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust *Poetry for Students* for all of your research needs **The Publishers Weekly** ,1898 **The Oxford Critical and Cultural History of Modernist Magazines** Peter Brooker,Andrew Thacker,2009 This volume contains 44 original essays on the role of periodicals in the United States and Canada Over 120 magazines are discussed by expert contributors completely reshaping our understanding of the construction and emergence of modernism **Anglia** ,1895 **Übersicht über die im Jahre ... auf dem Gebiete der englischen Philologie erschienenen Bücher, Schriften und Aufsätze** ,1895 **Lines that Divide** James A. Delle,Stephen A. Mrozowski,Robert Paynter,2000 The division of human society by race class and gender has been addressed by scholars in many of the social sciences Now historical archaeologists are demonstrating how material culture can be used to examine the processes that have erected boundaries between people Drawing on case studies from around the world the essays in this volume highlight diverse moments in the rise of capitalist civilization both in Western Europe and its colonies In the first section the contributors address the dynamics of the racial system that emerged from European colonialism They show how archaeological remains shed light on the institution of slavery in the American Southeast on the treatment of Native Americans by Mormon settlers and on the color line in colonial southern Africa The next group of articles considers how gender was negotiated in nineteenth century New York City in colonial Ecuador and on Jamaican coffee plantations A final section focuses on the issue of class division by examining the built environment of eighteenth century Catalonia and material remains and housing from early industrial Massachusetts These essays constitute an archaeology of capitalism and clearly demonstrate the importance of history in shaping cultural consciousness Arguing that material culture is itself an active agent in the negotiation of social difference they reveal the ways in which historical archaeologists can contribute to both the definition and dismantling of the lines that divide
