The Adelphi ,1926

In Our Own Image Wesley J. Wildman,2017-12-15 In Our Own Image is a work of comparative philosophical theology It is a study of the roles

anthropomorphism and apophaticism play in the construction of conceptual models of ultimate reality Leading scholar Wesley J Wildman considers whether we create our ideas of God He offers a comparative analysis of three major classes of ultimacy models paying particular attention to the way those classes are impacted by anthropomorphism while tracing their relative strengths and weaknesses Wildman provides a constructive theological argument on behalf of an apophatic understanding of ultimate reality showing how this understanding subsumes challenges and relates ultimacy models from the three classes being compared He describes and compares competing ultimacy models fairly and sympathetically The conclusion is that all models cognitively break on the shoals of ultimate reality but that the ground of being class of models carries us further than the others in regard to the comparative criteria that matter most
