Mikkelsen,2011-01-31 In the first expansive study of American pastoral since Leo Marx's *The Machine in the Garden* Mikkelsen reinvigorates discussion of this literary mode as a form of cultural commentary whose subjects extend beyond the simple or rustic life to encompass the major social economic and political transformations of the past century *Gertrude Stein* G.F. Mitrano,2017-09-29 In her provocative study of Gertrude Stein G F Mitrano argues that Stein's particular take on modernity has special relevance for today Tracing what she describes as Stein's deeply modernist story of transformation from a nineteenth century American woman to the disquieting muse of avant garde culture portrayed in Picasso's famous portrait Mitrano illuminates Stein's immense appetite for life her love of thinking and her craving for recognition Her approach is innovative combining the exegetical the visual and the theoretical to emphasize Stein's struggle for individuality and public achievement as a profoundly historical struggle involving personal choices linked for example to her sexuality or the uses of her physical appearance Stein continues to attract attention Mitrano contends because she anticipates many contemporary concerns especially in the field of critical thinking from the question of subjectivity to the status of the writer as a laborer among many to the meaning of fame and the private/public divide *An Eye on the Modern Century* Henry McBride,Steven Watson,2000-01-01 Philippe Sands has extensively revised this leading textbook to include all new developments since 1994 including all the international case law ICJ ITLOS WTO human rights etc and new international legislation genetically modified organisms the Kyoto Protocol oil pollution chemicals etc It is the most comprehensive account of the principles and rules relating to the protection of the environment and the conservation of natural resources It incorporates all the key material from the 1992 Rio Declaration and subsequent developments Topics include the legal and institutional framework the field's historic development standards for general application in addition to the protection of the atmosphere oceans etc the techniques available for implementation such as the environmental impact assessment and liability compensation for environmental damage It will be used on its own as an academic course text as well as a reference text for practitioners **The Ecology of Modernism** Joshua Schuster,2015-10-15 *The Ecology of Modernism* explores the unexpected absence of an environmental ethic in American modernist and avant garde poetics given its keen concern with an environmental aesthetic and explains why American modernism was never green Examining the relationships of key modernist writers poets and musicians to nature industrial development and pollution Joshua Schuster posits that the curious failure of modernist poets to develop an environmental ethic was a deliberate choice and not an inadvertent omission *Curved Thought and Textual Wandering* Ellen E. Berry,2025-10-01 This wide ranging and provocative study traces Gertrude Stein's production of avant garde texts that radically disrupted traditional notions of how fiction should be defined valued and read The book combines feminist and postmodern perspectives to illuminate new facets of Stein's novels and to situate them within an expanded definition of the postmodern The author argues that if we fail to consider the contexts within which postmodern innovations occur and if we subsume all formal disruptions under a generalized postmodern mode

we obscure important differences among authors and distort the notion of the postmodern itself The study expands our understanding of Stein as a novelist and a narrative theorist repositions her work within a revised notion of literary history and thus clarifies points of relation and divergence between modernism and postmodernism It also assists in the historicizing of the postmodern literary emergence by insisting on the centrality of gender as a category of analysis Finally it argues for the importance of constructing definitions of postmodernism that will allow space to consider the complexity and diversity of its cultural practices *Curved Thought and Textual Wandering* will be welcomed by scholars of modernism of Gertrude Stein and of feminist and narrative theory and postmodern culture *The Ladies' Repository*, 1848 **A Gertrude Stein**

Companion Bruce Kellner, 1988-09-16 A comprehensive literary guide that brings together a wide variety of source materials and original essays Helps make Stein's unique creative vision accessible to general readers and students Includes a descriptive alphabetical catalog of her major publications an annotated bibliography of Stein criticism and a biographical dictionary of friends and enemies Essential Annotation copyrighted by Book News Inc Portland OR **Lucy Church,** **amiably; A novel of Romantic beauty and nature and which looks like an engraving** Gertrude Stein, 1969

Genealogy of the Waldo Family, 1902 **Rapture Untold** Linda S. Watts, 1996 *Rapture Untold* Gender Mysticism and the Moment of Recognition in Works by Gertrude Stein analyzes patterns within Stein's language revealing the nature and origin of religious ideas in her work particularly those texts written during the 1920s By viewing Stein's texts in light of recent feminist criticism theories of gender and reading and Stein's influence on the French feminists and Language poets it may be possible to re-envision the process of reading Gertrude Stein **Volume 1 Family and Mormon Church Roots:**

Colonial Period to 1820 JOHN J HAMMOND, 2011-07-27 This is the first volume of a multi-volume work entitled *The Quest for the New Jerusalem* Mormon Generational Saga and it ends with a listing of the titles of all sixteen volumes in this series which have been written to this point Before discussing the first volume it is necessary to describe the entire series Around the year 2000 the author began a thorough investigation of his genealogical roots and to his surprise discovered that many of his ancestors had played significant roles in the early history of America and central roles in the history of Mormonism Wherever he looked his ancestors were there during the colonial King Phillip's and French and Indian Wars in New England at the Battle of Bunker's Hill and on a prison ship for two years on the Hudson River during the American Revolution on whaling ships in the south Atlantic and northern Pacific during the 1840s at Mormon Kirtland Far West and Nauvoo during the turbulent and often bloody events of the 1830s and 1840s in the earliest Mormon experiments with polygamy almost all of the author's ancestors were polygamists in San Francisco and Sacramento during the earliest stages of the California Gold Rush in the immigrant ships filled with Mormon converts crossing the Atlantic in the wagon trains carrying the saints across the plains to Salt Lake City during the establishment of the Mormon Church in Hawaii in the early 1850s in the first halting steps toward elementary and higher education in Utah during the Mormon War with the U S army

in Utah in 1857-58 in the operation of the early Salt Lake Theater in the building of the transcontinental railroad across Utah in 1869 in the settlement of the wild four corners area during the 1880s and 1890s in the rather secret and somewhat underhanded process by which Utah became a state and in the pioneer settlement of southern Idaho in the early 1900s The author felt impelled to tell these wonderful ancestral stories and it became obvious that this could not be done without giving an account of the history of the Mormon Church the two subjects were intimately interwoven Furthermore telling the linked ancestral Mormon story beginning in the American colonial period could not be adequately undertaken without giving an account of significant events in the larger American story In recent years a number of writers have given us fascinating generational family stories Alex Haley's *Roots* is a well known example Haley traced his African American family all the way back to a slave taken from a village in Africa In 1991 Chinese American Jung Chang's *In her Wild Swans Three Daughters of China* told a wonderful story of three generations of Chinese women her great grandmother grandmother and mother reaching back to China Adele Logan Alexander's *Homelands and Waterways The American Journey of the Bond Family* is an account of several generations of the author's African American family Concerning another example James Fox's *The Langhorns of Virginia* reviewer Robert Skidelsky wrote It was a clever idea to use family history to write about social and political history What Fox does is to use the Langhorne sisters as a peg on which to hang the story of the decline of the British aristocracy or Empire or both John Hammond's multi volume *Mormon Generational Saga* evolved into something very similar to Fox's but he utilizes family history to write about religious as well as social and political history In fact what has emerged is a very detailed examination of the early history of the Mormon Church with a special focus upon how that history affected his ancestors The series opens in the earliest years of colonial New England with an account of four of the author's ancestral families and the early lives and ancesto
